Welcome

Overview — ELMS

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for over 50 DoD Agencies and Military Services.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Overview — Force System Management (FSM) Help

This online help is designed to provide access to detailed information and instructions about the various processes contained within the FSM module.

The help topics provide assistance with managing the comprehensive solution to military storage and distribution needs.

Enterprise Logistics Management System (ELMS) Force System Management (FSM) Module

Welcome to the Enterprise Logistics Management System (ELMS) Force System Management (FSM) Help System.

ELMS Summary

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for over 50 DoD Agencies and Military Services.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMSPMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

FSM Summary

The ELMS Force System Management (FSM) module is designed to provide integrated functionality between the Property Accountability (PA) Module and the Force System Management (FSM) module, using the PA SITE ID Catalog to connect to FSM.

This is to create processes, policies, organizational information, and tools, to assist senior leadership with their decision making.

FSM Structure

The Force System Management module is set up in a hierarchy type model:

Force (Organization Force Structure Construct) — created by the ELMS User Account Team (UIC) managing UIC.

Force Command — created by the ELMS User Account Team
Roll-up of all the groups.

Force Group — created by the ELMS User Account Team
Roll-up for all the elements.

Force Element — initially created by the ELMS User Account Team, then maintained in all aspects by ELMS USER.

Builds Allowance Accounts and Allowance Managers. This is where the connection is - each element can connect to a different catalog in PA.

FSM Key Functions

There are several key functions within the Force System Management:

- **My ELMS** — all of the user centric functionality
 - Queue
- **Master Data Management** — all of the FSM setup applications
 - Force Management
 - Force Command Management
 - Force Group Management
 - Force Element Management
 - Assignment
 - Platform
 - Authorization Manager
- **Authorization Management** — all of the processes applications
 - Authorization Management
 - Authorization Detail
 - Apply Authorization
 - Review Authorization
- **Utilities** —
 - File Upload
- **Inquiries** —
 - Authorization Review Inquiry

FSM User

Force System Management (FSM) is role-based, similar to all other ELMS modules. Those roles include:

- **Force Officer** — the overarching role
- **FSM Data Coordinator** — the utility role
- **FSM Inquiry** — the inquiry role
- **Authorization Manager** — the processes (but not setup) role

The security uses C.R.U.D. methodology:

- **Create**
- **Read (Inquiry)**
- **Update**
- **Delete**

Enterprise Logistics Management System (ELMS) Force System Management (FSM) Module Navigation

Overview

This page describes the primary features found on the FSM pages:

- Blue Menu Bar
- Menu Bar
- Instructions
- Help
- Standard Buttons

Additional information about ELMS can be found at the ELMS Support Site.

Navigation

ELMS Force System Management (FSM) Module > Any Process Page >

>

[View DPAS Help](#)

Instructions

Select "Refresh" button to refresh search results.

[View DPAS Help](#)

Blue Menu Bar

The Blue Menu bar is at the very top of the page.

The items on the left side are:

- **ELMS logo**  —
Returns to the home page.
- **Module Name** **Force Systems Management** ▾ —
Shows where the user is currently working. Opens to a drop-down list of available modules; select to open a different module.

The items on the right side are:

- **Element** **Element Spt Equip 01** ▾ —
Opens the Active Tier pop-up window. Shows the Forces available to the user.
- **User ID** **User ID GROCEBP** ▾ —
Opens the Log Out menu item.

Menu Bar

The Menu bar is right above the Process page. While each users Menu Bar contains different items, they all work the same way to open a Process page.

1. Click on a Menu item drop-down list. The drop-down list of the processes in that Menu item appears.
2. Select a process from the drop-down list. The Process page appears.

Instructions

At the top of each Process page is a  **Help** link.

- Select  **Help**. The **Instructions** drop-down panel appears.
- A basic overview and terms on the page appears.

Help

At the bottom right of the Instructions panel is the Help button

View the Help System

- Select . *The Help System opens in a separate tab.*
- The Help System is context-specific, and opens to the Overview topic for the current Process page.

Search Criteria

Most FSM Processes have a Search Criteria panel. *Use it to narrow the number of records in the Results Grid.*

Use the Search Criteria panel

1. Enter the available information in the fields.
2. Use the field assistance available:
 - Use the drop-down  to select the field entry.
 - Start entering characters in the fields with .

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

- Use  to open the Browse pop-up window.
3. Select  to perform the search, or select  to clear the fields.

Search Results Grid

Each Process page displays the corresponding data in a Search Results Grid.
Each Search Results Grid has basic properties that are always the same.

Those include:

- **Title Bar —**

Shows the overall Results Grid buttons.

- **Column Header —**

Shows the title of each column, along with the ability to sort and / or filter that column.

- **Individual Records —**

Shows the rows of data in the Results Grid.

- **Bottom Scroll —**

Standard Buttons

Each FSM process page has some basic buttons that are always the same.

Those include:

Search Criteria

- **Search** —

Searches the data within the process results grid.

- **Reset** —

Erases the entered fields and starts over.

Results Grid

- **Add** —

Creates a new record in the process results grid.

- **Grid Options**  —
Changes the way information appears in the Results Grid. See Grid Options Overview for additional information.

Individual Records

- **Edit**  —
Revises a record in the process.
- **Delete**  —
Erases a record in the process.

Enterprise Logistics Management System (ELMS) Force System Management (FSM) Module Grid Options

Overview

This page describes the features of the Grid Options within the Search Results Grid in the Force System Management module:

- Clear Filters
- Columns

Navigation

ELMS Force System Management (FSM) Module > Any Process Page > Search Results Grid >

Title Bar >  Grid Options ▾ >  Grid Options ▾ + Add  Delete  Save  Reset

Grid Options

Select  Grid Options ▾ . The Grid Options drop-down menu appears:

Note

The Export option **only appears** in the Inquiry menu items.

These options change the way information appears in the Results Grid. They include:

Clear Filters

Erases any filters used within the Results Grid columns.

Columns

Changes what columns are viewed in the Results Grid.

Official Use Only

AS Support

ASSupport@leidos.com

Export

Saves the Inquiry Grid in a different format.

The format choices are:

- **Excel** - editable spreadsheet
- **PDF** (Portable Document Format) - non-editable document
- **CSV** (Comma Separated Values) - editable text

ELMS Navigation Helpful Tips

Click the following link to display ELMS Navigation Tips.

Attach a Document to a Record

Selecting  at any point of this procedure removes all revisions and closes the page. **Bold** numbered steps are required.

1. Click  to select the entry. The record is highlighted, and  becomes available.
2. Select  to add any additional files to the record. The **Attachments** pop-up window appears.

3. Select  within the Attachment Browse field. The Windows **Choose File to Upload** pop-up window appears.
4. Choose the file to attach, and select it.
5. Select . The **Choose File to Upload** pop-up window closes, and the file name appears in the Attachment Browse panel.
6. Enter the Description in the field provided. This is a 1024 alphanumeric character field.

7. Select . The file uploads and appears in the Attached Files panel.

The screenshot shows a modal window titled "Attachments" with a close button (X) in the top right corner. Inside the window, there are two main sections: "Attached Files" and "Add Attachments".

Attached Files

This section contains a single file thumbnail of a puffin. Below the thumbnail is a radio button and the text "Puffin.png*". To the left of the thumbnail is a left-pointing arrow, and to the right is a right-pointing arrow. Below the thumbnail are two buttons: "Delete" (outlined in red) and "Set Primary" (solid blue). A "Help" link with a question mark icon is in the top right corner of this section.

Add Attachments

This section contains a file selection area on the left and a description area on the right.

Attachment Browse

Below the "Attachment Browse" label is a "Clear List" button (outlined in red). Above it is a file selection box with a "Select files..." button, a "Done" button with a checkmark, and a list of files. The list shows a file named "Puffin.png" with a size of "444.38 KB".

Description

Below the "Description" label is a text input field containing the text "a puffin picture". Below the input field is a note: "If a description is added above it will be applied to all uploaded files." To the right of the input field is an "Upload" button (solid blue).

At the bottom right of the "Attachments" dialog is a "Close" button (solid blue).

8. Repeat Steps 2 - 6 to attach multiple documents.
9. Select  beneath the main attachment.
10. Select . The attachment is marked as the main attachment to the record.

Remove an Attachment

- A. Select  beneath the desired attachment.
 - B. Select . *The attachment is removed permanently from the record.*
11. Select . *The **Attachments** pop-up window closes, and the file appears in the Attachments field of the Search Results grid.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 — Remarks must be alphanumeric with supported special character(s) \$, —, /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, —, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
349 — "Add Attachment" supports only JPG, JPEG, GIF, and PDF files.	Invalid Entry. Only JPG, JPEG, GIF, and PDF files are supported, and no other file types are attachable. Attach a correctly formatted file.
1004 — Attachment file size exceeds the maximum of (Size from table) for this file	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

type. "Attachment" file size is (size).

353 — Attachment file size exceeds the maximum of 1MB. The selected file size is {x}.

Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

Accessibility

The pages on the Enterprise Logistics Management System (ELMS) web-site are developed to be accessible to individuals with disabilities, in accordance with Section 508 of the Rehabilitation Act of 1973, as amended-29 U.S.C. § 794.

Specifically, the pages have been developed to comply with the following 508 web site accessibility requirements developed by the Architectural and Transportation Barriers Compliance Board (The Board) and published by the W3C as worldwide accessibility standards.

These requirements are based upon the Final Rule as Published in the Federal Register on December 21, 2000 at 36 CFR Part 1195 [Docket No. 2001-01] RIN 3014-AA25 and as published in The Board's on-line guide to the standards for Web-based Intranet and Internet Information and Applications (1194.22).

These requirements include the following:

A text equivalent for every non-text element shall be provided (e.g., via "alt," "longdesc," or in element content).

Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.

Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.

Documents shall be organized so they are readable without requiring an associated style sheet.

Redundant text links shall be provided for each active region of a server-side image map.

Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.

Row and column headers shall be identified for data tables.

Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

Help Reference Guide

Frames shall be titled with text that facilitates frame identification and navigation.

Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.

A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of these standards, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.

When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.

When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).

When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

A method shall be provided that permits users to skip repetitive navigation links.

When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

If you have trouble using this site, report the issue to the point of contact listed on the Contact Us page.

External Link Disclaimer

The appearance of hyperlinks does not constitute endorsement by the Department of Defense (DoD) or the Defense Finance and Accounting Service (DFAS) of this Web site or the information, products or services contained therein.

For other than authorized activities such as military exchanges and Morale, Welfare and Recreation sites, the DoD and the DFAS does not exercise any editorial control over these locations. All links are provided consistent with the Mission of the Enterprise Logistics Management System (ELMS).

Consent To Monitoring

This is a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the USG may inspect and seize data stored on this IS.

Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.

This IS includes security measures (e.g., authentication and access controls) to protect USG interests — not for your personal benefit or privacy.

Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants.

Such communications and work product are private and confidential.

See User Agreement for details.
