Welcome

Overview – ELMS

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for DoD Agencies and Military Services and non-DoD Agencies.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Overview – Force System Management (FSM) Help

This online help is designed to provide access to detailed information and instructions about the various processes contained within the FSM module.

The help topics provide assistance with managing the comprehensive solution to military storage and distribution needs.

Enterprise Logistics Management System (ELMS) Force System Management (FSM) Module

Welcome to the Enterprise Logistics Management System (ELMS) Force System Management (FSM) Help System.

ELMS Summary

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for DoD Agencies and Military Services and non-DoD Agencies.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMSPMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

FSM Summary

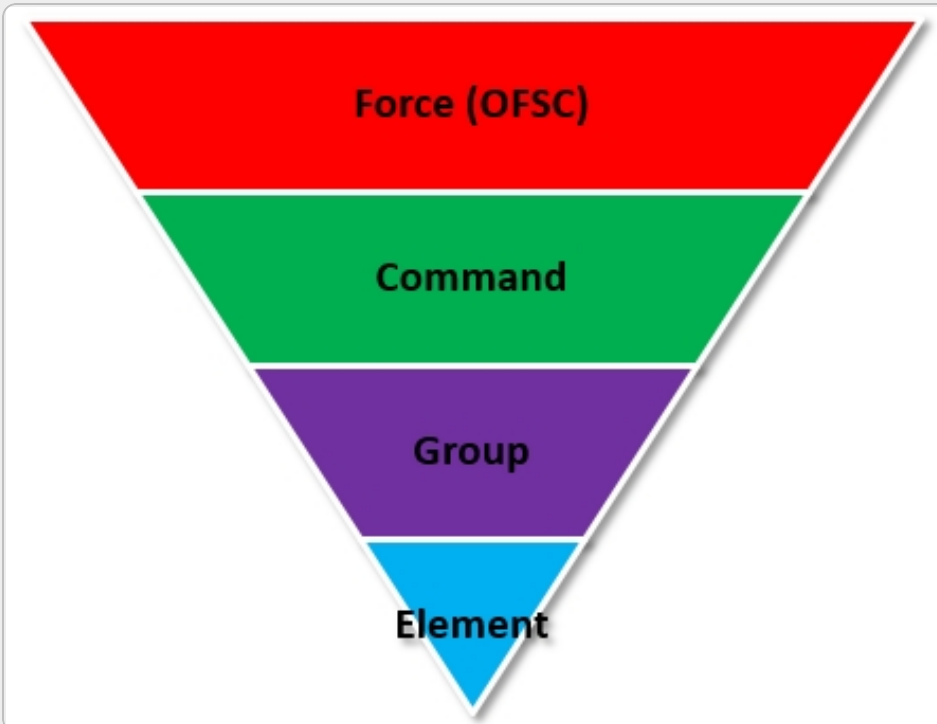

The ELMS Force System Management (FSM) module is designed to provide integrated functionality between the Property Accountability (PA) Module and the Force System Management (FSM) module, using the PA SITE ID Catalog to connect to FSM.

This is to create processes, policies, organizational information, and tools, to assist senior leadership with their decision making.

FSM Structure

The Force System Management module is set up in a hierarchy type model:

Force (Organization Force Structure Construct) — created by the ELMS User Account Team (UIC) managing UIC.

Force Command — created by the ELMS User Account Team
Roll-up of all the groups.

Force Group — created by the ELMS User Account Team
Roll-up for all the elements.

Force Element — initially created by the ELMS User Account Team, then maintained in all aspects by ELMS USER.

Builds Allowance Accounts and Allowance Managers. This is where the connection is - each element can connect to a different catalog in PA.

FSM Key Functions

There are several key functions within the Force System Management:

- **My ELMS** — all of the user centric functionality
 - Queue
- **Master Data Management** — all of the FSM setup applications
 - Force Management
 - Force Command Management
 - Force Group Management
 - Force Element Management
 - Assignment
 - Platform
 - Authorization Manager
- **Authorization Management** — all of the processes applications
 - Authorization Management
 - Authorization Detail
 - Apply Authorization
 - Review Authorization
- **Utilities** —
 - File Upload
- **Inquiries** —
 - Authorization Review Inquiry

FSM User

Force System Management (FSM) is role-based, similar to all other ELMS modules. Those roles include:

- **Force Officer** — the overarching role
- **FSM Data Coordinator** — the utility role
- **FSM Inquiry** — the inquiry role
- **Authorization Manager** — the processes (but not setup) role

The security uses C.R.U.D. methodology:

- **Create**
- **Read (Inquiry)**
- **Update**
- **Delete**

Enterprise Logistics Management System (ELMS) Force System Management (FSM) Module Navigation

Overview

This page describes the primary features found on the FSM pages:

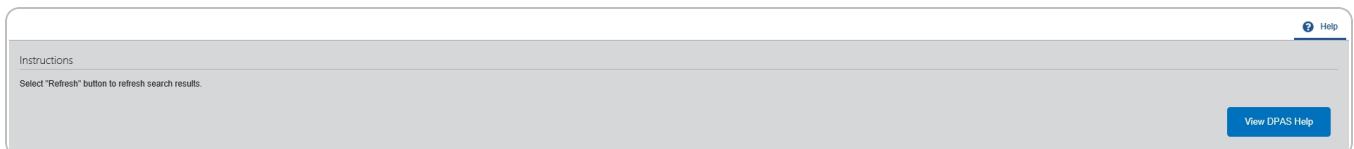

- Blue Menu Bar
- Menu Bar
- Instructions
- Help
- Standard Buttons

Additional information about ELMS can be found at the ELMS Support Site.

Navigation

ELMS Force System Management (FSM) Module > Any Process Page >  Help >

[View DPAS Help](#)

Instructions

Select "Refresh" button to refresh search results.

[View DPAS Help](#)

Blue Menu Bar

The Blue Menu bar is at the very top of the page.

The items on the left side are:

- **ELMS logo**  —
Returns to the home page.
- **Module Name**  —
Shows where the user is currently working. Opens to a drop-down list of available modules; select to open a different module.

The items on the right side are:

- **Element**  —
Opens the Active Tier pop-up window. Shows the Forces available to the user.
- **User ID**  —
Opens the Log Out menu item.

Menu Bar

The Menu bar is right above the Process page. While each users Menu Bar contains different items, they all work the same way to open a Process page.

1. Click on a Menu item drop-down list. The drop-down list of the processes in that Menu item appears.
2. Select a process from the drop-down list. The Process page appears.

Instructions

At the top of each Process page is a  link.

- Select . The **Instructions** drop-down panel appears.
- A basic overview and terms on the page appears.

Help

At the bottom right of the Instructions panel is the Help button

View the Help System

- Select . *The Help System opens in a separate tab.*
- The Help System is context-specific, and opens to the Overview topic for the current Process page.

Search Criteria

Most FSM Processes have a Search Criteria panel. *Use it to narrow the number of records in the Results Grid.*

Use the Search Criteria panel

1. Enter the available information in the fields.
2. Use the field assistance available:
 - Use the drop-down  to select the field entry.
 - Start entering characters in the fields with .

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

- Use  to open the Browse pop-up window.
3. Select  to perform the search, or select  to clear the fields.

Search Results Grid

Each Process page displays the corresponding data in a Search Results Grid.
Each Search Results Grid has basic properties that are always the same.

Those include:

- **Title Bar —**

Shows the overall Results Grid buttons.

- **Column Header —**

Shows the title of each column, along with the ability to sort and / or filter that column.

- **Individual Records —**

Shows the rows of data in the Results Grid.

- **Bottom Scroll —**

Standard Buttons

Each FSM process page has some basic buttons that are always the same.

Those include:

Search Criteria

- **Search**  —

Searches the data within the process results grid.

- **Reset**  —

Erases the entered fields and starts over.

Results Grid

- **Add**  —

Creates a new record in the process results grid.

- **Grid Options**  —
Changes the way information appears in the Results Grid. See Grid Options Overview for additional information.

Individual Records

- **Edit**  —
Revises a record in the process.
- **Delete**  —
Erases a record in the process.

 - a. Update the Remarks, entering the revised information in the field provided. *This is a 256 alphanumeric character field.*
 - b. Enter the History Remarks in the field provided. *This is a 256 alphanumeric character field.*
5. Select the Configuration Tab. *The Contact tab closes and the Configuration tab opens.*

The screenshot shows a web application window titled "Force Element Details" with a navigation bar containing "Element", "Contact", and "Configuration" tabs. The "Configuration" tab is active. Below the tabs, there is a form with the following elements:

- An "Item Title" label followed by a dropdown menu currently showing "Stock Number".
- A radio button labeled "Use Masters Only" which is unselected.
- A radio button labeled "Use I&S" which is selected.
- A toggle switch labeled "Use Reference Code" which is currently turned off.

At the bottom of the form, there are two buttons: a red "Cancel" button on the left and a blue "Save" button on the right.

- A. Update the Item Title, using ▼ to select desired identification.
 - B. Verify the Use Masters Only contains the appropriate or . *The slider changes to and indicates only the Masters will be recorded.*
 - C. Verify the Use I&S Data contains the appropriate or . *The slider changes to and the substitute is acceptable. When selected, the Use Reference Code field becomes available.*
 - D. Verify the Use Reference Code contains the appropriate or . *The slider changes to and the Reference Code will be recorded.*
6. Select . *The **Force Element Details** page closes, and the **Force Element Management** page displays the updated information.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 – No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 – Remarks must be alphanumeric with supported special character(s) \$, -, /, #, &, comma, period, and space, and max length of 256.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, -, /, #, &, comma, period, and space, with a max length of 256. Special characters like ! or @ are prohibited.

**13 – Mandatory Entry:
Description.**

**13 – Mandatory Entry:
Contact.**

Missing Entry. Enter the appropriate information in the desired field.

761 – Phone Nbr, DSN, FAX Nbr, or Mobile Phone Nbr must be numeric, a minimum of 7 – pos, with supported special characters(s) – , +, (), x, period and space.

Invalid Characters Entered in the Phone Nbr / DSN Nbr / Mobile Phone Nbr field. Enter a minimum of 7 numeric characters, or the following permitted special characters to designate the extension: –, +, x, comma, period, and space. Make sure there are no extra spaces before or after the number.

323 – E-Mail Address structure is incorrect.

Invalid E-Mail Format Entered. Enter a minimum of 1 alphanumeric character, the "@" (at) symbol, at least 1 alphanumeric character, the "." (period) symbol, and at least 1 alphanumeric character.

1124 – ZIP Cd is not in valid format (12345, 12345-1234, 12345 1234).

Invalid ZIP Code format entered. Enter a minimum of 5 numeric characters, with an optional 4 numeric character extension.

ELMS Navigation Helpful Tips

Click the following link to display ELMS Navigation Tips.

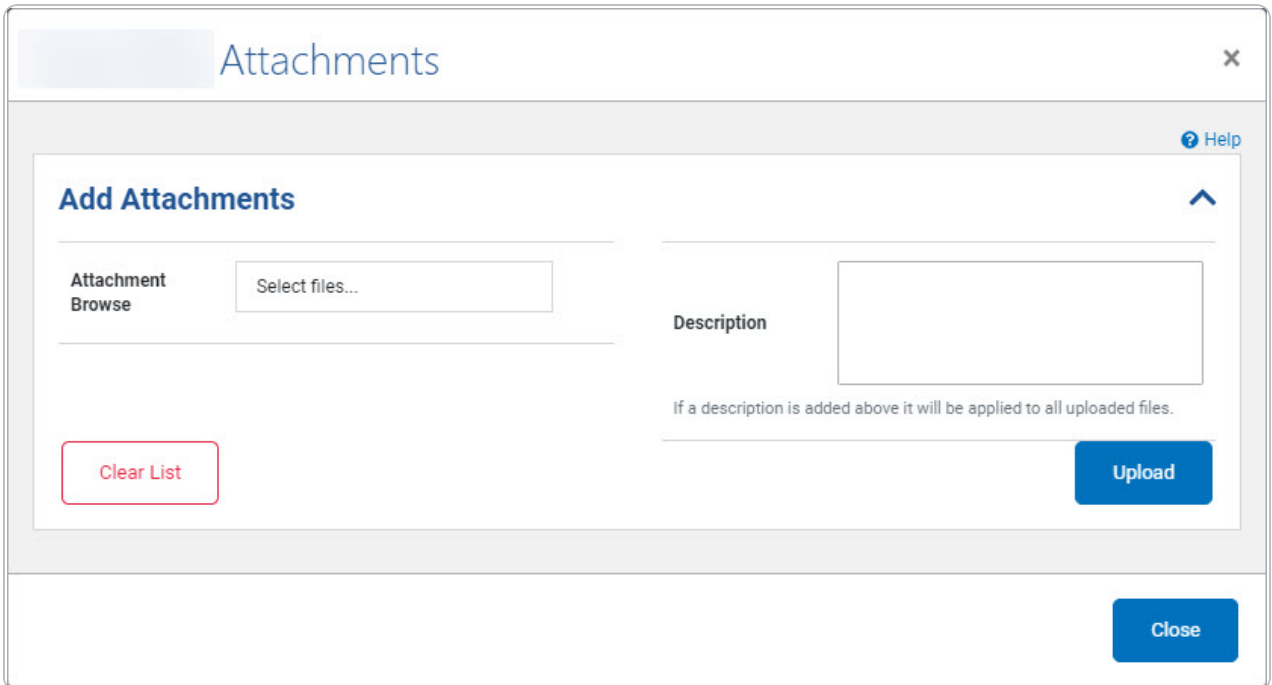

Attach a Document to a Record

Selecting  at any point of this procedure removes all revisions and closes the page. **Bold** numbered steps are required.

1. Click  to select the entry. The record is highlighted, and  becomes available.
2. Select  to add any additional files to the record. The **Attachments** pop-up window appears.

The screenshot shows the 'Attachments' pop-up window. At the top, there is a title bar with 'Attachments' and a close button. Below the title bar, there is a 'Help' icon. The main content area is titled 'Add Attachments' and contains two main sections: 'Attachment Browse' and 'Description'. The 'Attachment Browse' section has a 'Select files...' button. The 'Description' section has a text area and a note: 'If a description is added above it will be applied to all uploaded files.' At the bottom left, there is a 'Clear List' button, and at the bottom right, there is an 'Upload' button. A 'Close' button is located at the bottom right of the window.

3. Select  within the Attachment Browse field. The Windows **Choose File to Upload** pop-up window appears.
4. Choose the file to attach, and select it.
5. Select . The **Choose File to Upload** pop-up window closes, and the file name appears in the Attachment Browse panel.
6. Enter the Description in the field provided. This is a 1024 alphanumeric character field.

7. Select . The file uploads and appears in the Attached Files panel.

The screenshot shows a window titled "Attachments" with a close button (X) in the top right corner. Below the title bar is a "Help" icon. The main content area is divided into two sections: "Attached Files" and "Add Attachments".

Attached Files

This section contains a single file thumbnail of a puffin. Below the thumbnail is a radio button and the text "Puffin.png*". To the left of the thumbnail is a left-pointing arrow, and to the right is a right-pointing arrow. Below the thumbnail are two buttons: "Delete" (red outline) and "Set Primary" (blue).

Add Attachments

This section contains an "Attachment Browse" area with a "Select files..." button and a "Done" button. Below this is a list of files: "Puffin.png" (444.38 KB). To the right is a "Description" text box containing "a puffin picture". Below the description is a note: "If a description is added above it will be applied to all uploaded files." At the bottom of this section are two buttons: "Clear List" (red outline) and "Upload" (blue).

At the bottom right of the "Attachments" window is a "Close" button (blue).

8. Repeat Steps 2 - 6 to attach multiple documents.
9. Select  beneath the main attachment.
10. Select . The attachment is marked as the main attachment to the record.

Remove an Attachment

- A. Select  beneath the desired attachment.
 - B. Select . *The attachment is removed permanently from the record.*
11. Select . *The **Attachments** pop-up window closes, and the file appears in the Attachments field of the Search Results grid.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 – No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 – Remarks must be alphanumeric with supported special character(s) \$, -, /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, -, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
349 – "Add Attachment" supports only JPG, JPEG, GIF, and PDF files.	Invalid Entry. Only JPG, JPEG, GIF, and PDF files are supported, and no other file types are attachable. Attach a correctly formatted file.
1004 – Attachment file size exceeds the maximum of (Size from table) for this file	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

type. "Attachment" file size is (size).

353 – Attachment file size exceeds the maximum of 1MB. The selected file size is {x}.

Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

Add a Maintenance Attachment

Selecting at any point of this procedure removes all revisions and closes the page.
Bold numbered steps are required.

1. Select . The **Add a Maintenance Attachment** page appears.

The screenshot shows a web form titled "Upload File". It contains the following fields and controls:

- Contract Nbr:** TESTTT44HELP2
- *File Path:** No file chosen
- *Desc:** A large text area for description.
- Primary:**
- Buttons:** (top right), (bottom right), (bottom right).

Below the form is a section titled "Temporary Attachments" which is currently empty.

- A. The **CONTRACT NBR** automatically populates and is not editable.
- B. Select in the File Path field. The Windows **Choose File to Upload** pop-up window appears.
- C. Choose the file to attach, and select it.

- D. Select . The **Choose File to Upload** pop-up window closes, and the file name appears in the File Name field.
- E. Enter the DESC in the field provided. This is a 1024 alphanumeric character field.
- F. Click to select the Primary. This indicates which attachment the system should open first if there are multiple documents.
- G. Select . The file appears in the Temporary Attachments grid.

Temporary Attachments			
	Desc	Size	Type
Remove	Document 4 Test	17.68KB	DOCX

- H. Repeat Steps B-G to attach multiple documents.

Remove an Attachment

Select the Remove hyperlink next to the desired document. *The document is deleted from the grid.*

2. Select . The Attachment appears in the previous page under the Attachment(s) field.

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 – No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
13 – Mandatory Entry: FILE	Missing Entry. Enter the appropriate information

PATH.	
13 – Mandatory Entry: DESC.	in the desired field.
161 – Remarks must be alphanumeric with supported special character(s) \$, -, /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, -, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
349 – "Add Attachment" supports only JPG, JPEG, GIF, and PDF files.	Invalid Entry. Only JPG, JPEG, GIF, and PDF files are supported, and no other file types are attachable. Attach a correctly formatted file.
1004 – Attachment file size exceeds the maximum of (Size from table) for this file type. "Attachment" file size is (size).	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.
353 – Attachment file size exceeds the maximum of 1 MB. The selected file size is {x}.	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

ELMS Navigation Helpful Tips

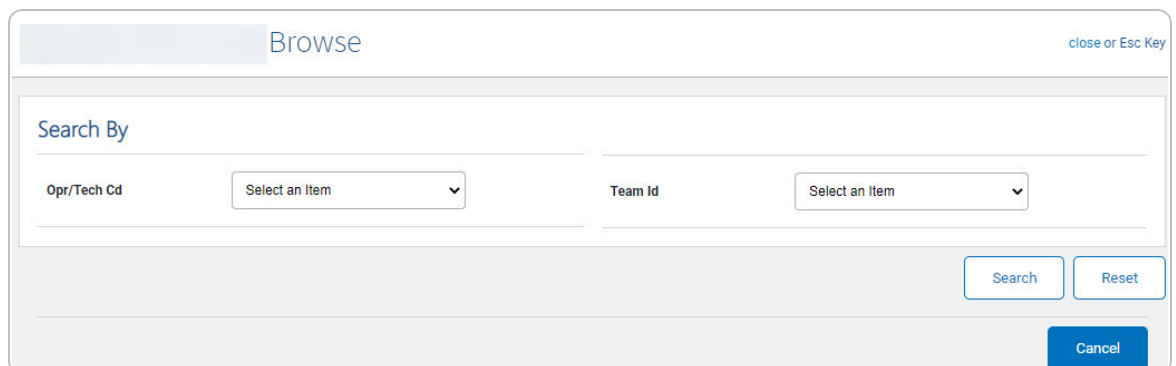

Click the following link to display ELMS Navigation Tips.

Browse for a Platform

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. Select . The **Platform Browse** pop-up window appears.

The screenshot shows a 'Platform Browse' window with a close button (x) in the top right corner. It is divided into two main sections: 'Search Criteria' and 'Search Results'. The 'Search Criteria' section contains two input fields: 'Platform' and 'Platform Desc'. Below these fields are two buttons: a 'Reset' button with a circular arrow icon and a 'Search' button with a magnifying glass icon. The 'Search Results' section contains a message box with an information icon (i) and the text 'Enter criteria and select "Search" to view results.'

2. In the Search Criteria grid, narrow the results by entering one or more of the following optional fields:
 - Enter the Platform in the field provided. *This is a 30 alphanumeric character field.*
 - Enter the Platform Description in the field provided. *This is a 1024 alphanumeric character field.*
3. Select . The Platform Results display in the Search Results Grid below.

Accessibility

The pages on the Enterprise Logistics Management System (ELMS) web-site are developed to be accessible to individuals with disabilities, in accordance with Section 508 of the Rehabilitation Act of 1973, as amended-29 U.S.C. § 794.

Specifically, the pages have been developed to comply with the following 508 web site accessibility requirements developed by the Architectural and Transportation Barriers Compliance Board (The Board) and published by the W3C as worldwide accessibility standards.

These requirements are based upon the Final Rule as Published in the Federal Register on December 21, 2000 at 36 CFR Part 1195 [Docket No. 2001-01] RIN 3014-AA25 and as published in The Board's on-line guide to the standards for Web-based Intranet and Internet Information and Applications (1194.22).

These requirements include the following:

A text equivalent for every non-text element shall be provided (e.g., via "alt," "longdesc," or in element content).

Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.

Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.

Documents shall be organized so they are readable without requiring an associated style sheet.

Redundant text links shall be provided for each active region of a server-side image map.

Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.

Row and column headers shall be identified for data tables.

Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

Frames shall be titled with text that facilitates frame identification and navigation.

Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.

A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of these standards, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.

When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.

When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).

When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

A method shall be provided that permits users to skip repetitive navigation links.

When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

If you have trouble using this site, report the issue to the point of contact listed on the Contact Us page.

External Link Disclaimer

The appearance of hyperlinks does not constitute endorsement by the Department of Defense (DoD) or the Defense Finance and Accounting Service (DFAS) of this Web site or the information, products or services contained therein.

For other than authorized activities such as military exchanges and Morale, Welfare and Recreation sites, the DoD and the DFAS does not exercise any editorial control over these locations. All links are provided consistent with the Mission of the Enterprise Logistics Management System (ELMS).

Let us know about existing external links which you believe are inappropriate and about specific additional external links which you believe ought to be included.

Consent To Monitoring

This is a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the USG may inspect and seize data stored on this IS.

Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.

This IS includes security measures (e.g., authentication and access controls) to protect USG interests — not for your personal benefit or privacy.

Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants.

Such communications and work product are private and confidential.
See User Agreement for details.
