Materiel Management / Inventory Control Point

Enterprise Logistics Management System

Printed Manual

Version 29 May 2026

Welcome

Overview — ELMS

Welcome to the Enterprise Logistics Management System (ELMS) Help System.
The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.
It is the Accountable Property System of Record (APSR) for DoD Agencies and Military Services and non-DoD Agencies.
The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Overview — Materiel Management/Inventory Control Point Help

This online help is designed to provide access to detailed information and instructions about the various processes contained within the ICP / MM module.
The help topics provide assistance with all types of materiel management, including the requisition, inventory, and transactions of all stock items in the catalog. The topics also assist with managing large-ticket items, issues, and assets, in any DoD environment.

Enterprise Logistics Management System (ELMS) MATERIEL MGMT Module

Welcome to the Enterprise Logistics Management System (ELMS) MATERIEL MGMT Help System.

ELMS Summary

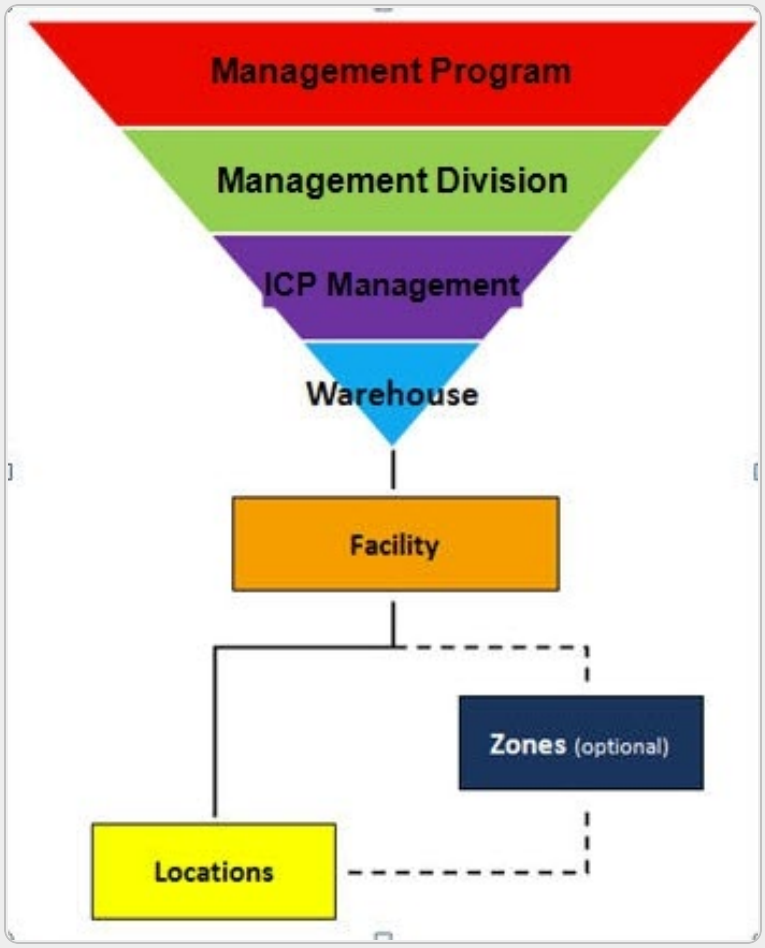

Welcome to the Enterprise Logistics Management System (ELMS) Help System.
The Enterprise Logistics Management System (ELMS) is a Department of Defense (DOD) property management system.
It is the Accountable Property System of Record (APSR) for DOD Agencies and Military Services and non-DOD Agencies.
The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Materiel Management Summary

The ELMS MATERIEL MGMT module is designed to provide a single place that can control the inventories of numerous warehouses.

Materiel Management Structure

The Materiel Management module is set up in a three level tier system:

Management Program — displays all available Program Names, Program Descriptions, Agencies, and Banners — The top tier.

Management Division — displays all available Program Names, Division Names, and Division Descriptions — The second tier.

ICP Management — displays all available Division Names, ICP Names, ICP Descriptions, DoDAACs, RICs, Agency CDs, and Financial System Interfaces — The bottom tier.

Warehouse — created by the ELMS User Account Team — Where the users are associated.

Facility — created and maintained by the Warehouse Team — The highest level within a Warehouse. Can be associated to a Real Property Unique Iden-

	tifier (RPUID). Some users can create, read, update, and delete them.
	Zone — created and maintained by the Warehouse Team — The highest level within a Facility. Provides the capability to sub-divide a facility into smaller units. (Optional - must be established if the Auto-Recommendation Location Store feature is utilized.)
	Location — created and maintained by the Warehouse Team — Identifies the position of assets by name, GPS coordinates, or Passive Radio Frequency Identification / Radio Frequency Identification (pRFID/RFID). Applies to both Containers (small items) and Larger Items (forklifts, vehicles. etc.).

Materiel Management Key Functions

There are several key functions within the MM/ICP:

- **Catalog Management** — Different methods of managing all of the groups of materiel in the MM/ICP

  - LIN/TAMCN
  - Stock Number
  - Stock Item
  - Stock Number Referral
  - Manufacturer Part Number

- **Materiel Management** — Different methods of managing individual assets
  - EOD Transactions
  - Requisition
  - Customer Requisition
  - Redistribution Order
  - Disposal Release Order
  - Physical Inventory
  - Logistics Reassignment
  - Intransit Review
  - Inventory Transaction Review
  - DLMS Transaction Review

- **Master Data Management** — Different methods of managing layers of an MM/ICP
  - Program Management
  - Division Management
  - ICP Management
  - Item Manager
  - Customer Profile
  - Contractor
  - Contract
  - Appropriation
  - Document Number Range

- **Inquiries** — Searching for specific assets within the MM/ICP
  - Catalog
    - Stock Number Inquiry
    - Agency Stock Number Inquiry
  - Inventory Inquiry
  - Inventory Transaction Inquiry
  - Accounting Transaction Inquiry

- **History Inquiries** — Searching for the historical entries regarding a specific item
  - Contractor
  - Contract

- **Report Manager** — Different ways to render reports

- Schedule Reports
- View Reports

Materiel Management User

Materiel Management is role-based, similar to all other ELMS modules.
User access is based on one or more roles, allowing for "need to know" and "separation of duty" access.
The security uses C.R.U.D. methodology:

- **Create**
- **Read (Inquiry)**
- **Update**
- **Delete**

Enterprise Logistics Management System (ELMS)
MATERIEL MGMT Module Navigation

Overview

This page describes the primary features found on the MATERIEL MGMT pages:

- Blue Menu Bar
- Red Menu Bar
- Menu Bar
- Instructions
- Help
- Search Criteria
- Results Grid
- Standard Buttons

Additional information about ELMS can be found at the ELMS Support Site.

Navigation

ELMS MATERIEL MGMT Module > Any Process Page > Instructions > Help 

Blue Menu Bar

The Blue Menu bar is at the very top of the page.

The item on the left side is:

- **ELMS logo**  **—** Returns to the home page.

The items on the right side are:

- **Module Name** 

—
Shows where the user is currently working. Opens to a drop-down list of available modules; select to open a different module.

- **Page Name** 

—
Shows which page is currently open.

Red Menu Bar

The Red Menu bar is directly below the Blue Menu bar.

The items on the left side are:

- **User ID** 

—
Opens the **User Dashboard**. Shows the roles and permissions of the user.

- **ICP** 

—
Opens the Active Tier pop-up window. Shows the ICPs available to the user.

The items on the right side are:

- **Home** 

—
Opens the Home page.

- **Links** 

—
Opens a list of hyperlinks the ICP has made available to the users.

- **Contact Us** 

—
Opens the ELMS Support Team Information, including phone #s and email addresses.

- **Log Out** 

—
Ends the ELMS session.

Menu Bar

The Menu bar is between the Red Menu bar and the Process page. While each user's Menu Bar contains different items, they all work the same way to open a Process page. There are two

methods to open a Process page: either the Menu item drop-down lists, or the Search field.

Use the Menu item drop-down lists

1. Click on a Menu item drop-down list. *The drop-down list of the processes in that Menu item appears.*
2. Select a process from the drop-down list. *The Process page appears.*

Use the Search field

1. Select the down arrow in the Search field. *The complete list of all the Materiel Management processes appears.*
2. Select a process from the drop-down list. *The Process page appears.*

OR

1. Start entering characters in the Process name in the Search field.

> **Note**
>
> Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.
>
> The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

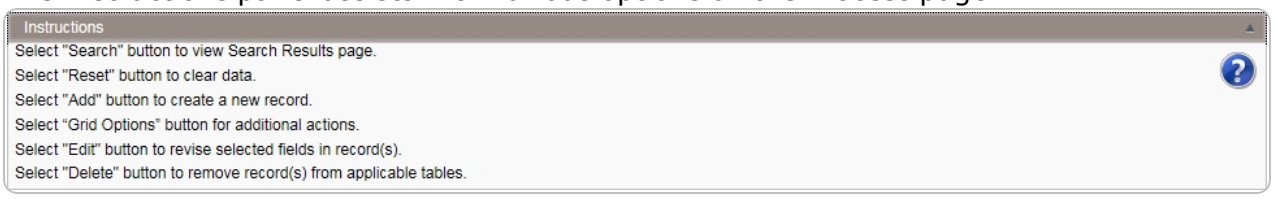

2. Select a process from the drop-down list. *The Process page appears.*

Instructions

At the top of each Process page is a collapsed Instructions panel.

View the Instructions

- Select the Instructions bar. *The Instructions panel expands.*
- The Instructions panel assists with various options on the Process page:

Help

Within the Instructions panel is the Help icon .

View the Help System

- Select . *The Help System opens in a separate tab.*
- The Help System is context-specific, and opens to the Overview topic for the current Process page.

Search Criteria

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

Most Materiel Management Processes have a Search Criteria panel. *Use it to narrow the number of records in the Results Grid.*

Use the Search Criteria panel

1. Enter the available information in the fields.
2. Use the field assistance available:
   - Use the drop-down lists to select the field entry.
   - Start entering characters in the fields with .

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

- Use ... to open the Browse pop-up window.

3. Select Search to perform the search.

Results Grid

Each Process page displays the corresponding data in a Results Grid.
Each Results Grid has basic properties that are always the same. *Those include:*

- **Title Bar —**

Shows the name of the Process and the overall Results Grid buttons.

- **Column Header —**

Shows the title of each column, along with the ability to sort and / or filter that column.

- **Individual Records —**

Shows the rows of data in the Results Grid. The first few columns contain the buttons to work with each record, and the rest contain the data in that record.

- **Bottom Scroll —**

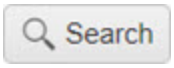

Shows how many records of data are in the Results Grid, and a way to access the additional pages.

Standard Buttons

Each Materiel Management process page has some basic buttons that are always the same.
Those include:

Search Criteria

- **Search** 

—
Searches the data within the process results grid.

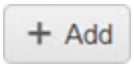

- **Reset** 

—
Erases the entered fields and starts over.

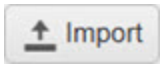

- **Scan CAC** 

—
Opens the pop-up window containing the CAC field, ready for the scanned information.

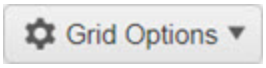

Results Grid

- **Add** 

—
Creates a new record in the process results grid.

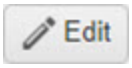

- **Import** 

—
Adds bulk records to the process results grid.

- **Grid Options** 

—
*Changes the way information appears in the Results Grid. See **Grid Options Overview** for additional information.*

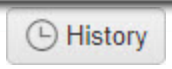

Individual Records

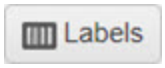

- **Edit** 

—
Revises a record in the process.

- **Delete** 

—
Erases a record in the process.

- **History**  —
  Opens the History pop-up window, and shows the past edits of the record in the process.

- **Labels**  —
  Opens the Print Labels pop-up window, and prints the labels for that record in the process.

Enterprise Logistics Management System (ELMS) Materiel Management Module Grid Options

Overview

This page describes the features of the Grid Options within the Results Grid in the Materiel Management module:

- Clear Filters
- Columns
- Export
- My Queries

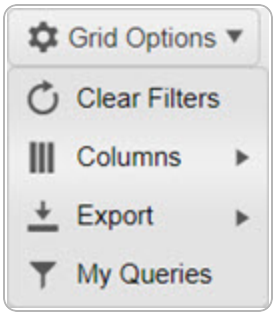

Navigation

ELMS Materiel Management Module > Any Process Page > Results Grid > Title Bar > Grid Options

Grid Options

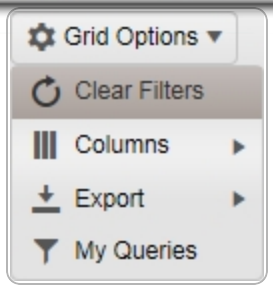

Select Grid Options. The Grid Options drop-down menu appears:

These options change the way information appears in the Results Grid. They include:

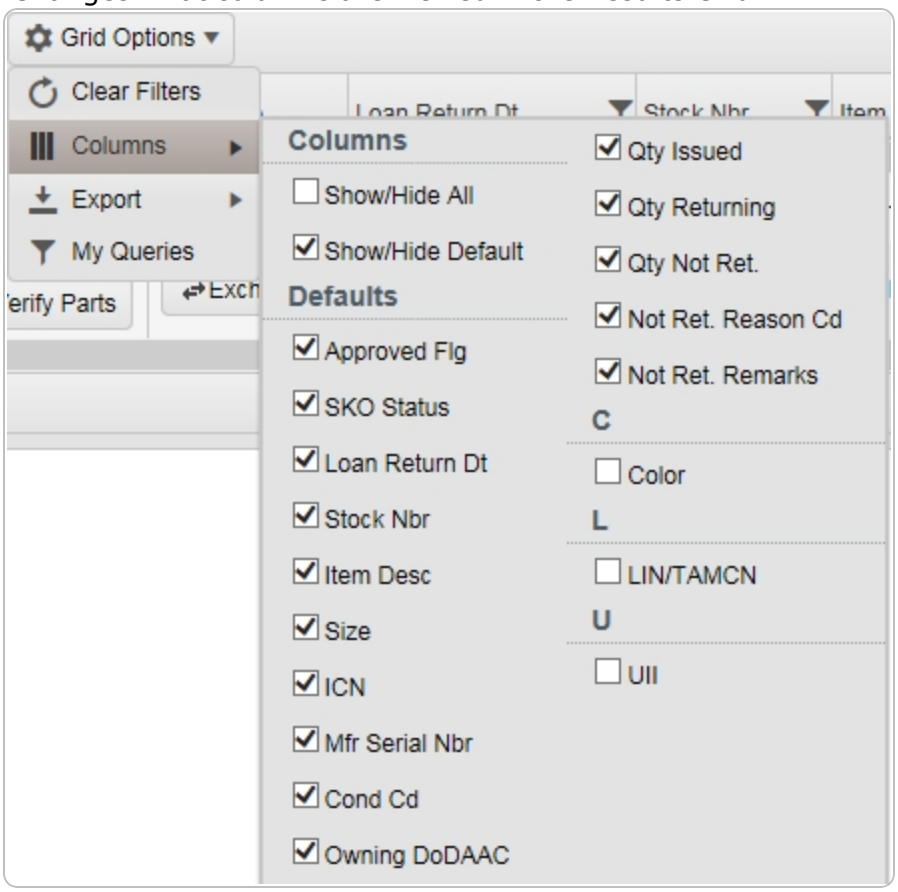

Clear Filters

Erases any filters used within the Results Grid columns.

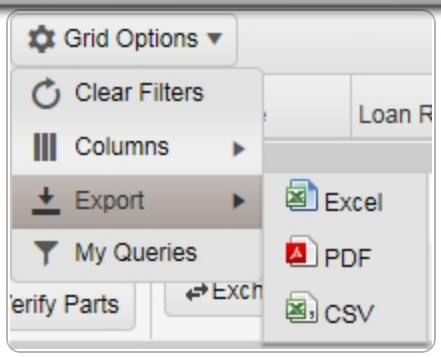

Columns

Changes what columns are viewed in the Results Grid.

Export

Saves the Results Grid in a different format.

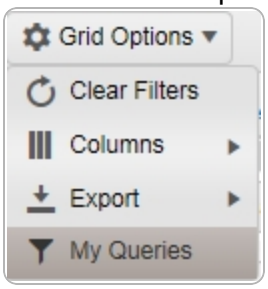

The format choices are:

- **Excel** - editable spreadsheet
- **PDF** (Portable Document Format) - non-editable document
- **CSV** (Comma Separated Values) - editable text

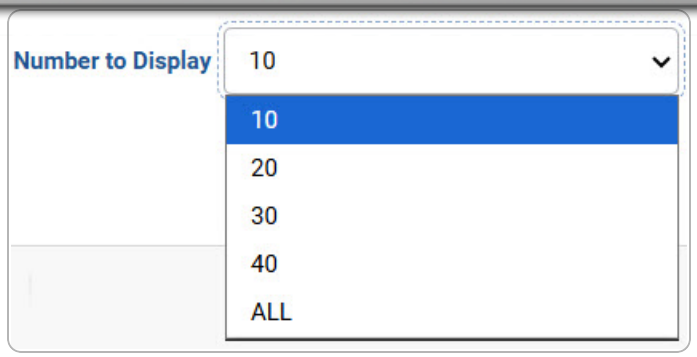

My Queries

Reuses saved queries on the Results Grid.

Number to Display

Displays the selected amount of records in the Search Results grid.

Search for a LIN/TAMCN Record

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

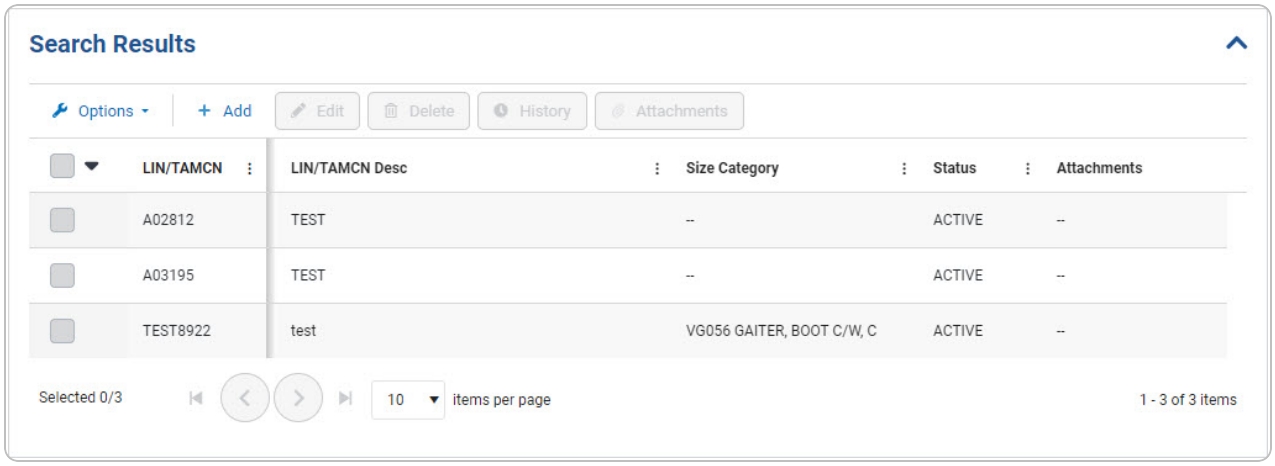

1. In the Search Criteria panel, narrow the results by entering one or more of the following optional fields:.

- Enter the LIN/TAMCN, using i to assist with the entry. *This is a 10 alphanumeric character field.*

- Use to select the Size Category.
- Enter the LIN/TAMCN DESC, using to assist with the entry. *This is a 64 alpha-numeric character field.*
- Use to select the Status.

2. Select Search. *The Search Results appear.*

Add a LIN/TAMCN

Select Add. *The **Add a LIN/TAMCN** slide-out window appears.*

Update a LIN/TAMCN

1. Click to select the desired entry. *The LIN/TAMCN row is highlighted, and* Edit, Delete, History, *and* Attachments *become available.*
2. Select Edit. *The **Update a LIN/TAMCN** slide-out window appears.*

Delete a LIN/TAMCN

1. Click ☐ to select the desired entry. *The LIN/TAMCN row is highlighted, and* Edit, Delete, History, *and* Attachments *become available.*
2. Select Delete. *The* ***Delete a LIN/TAMCN*** *pop-up window appears.*

View a LIN/TAMCN History

1. Click ☐ to select the desired entry. *The LIN/TAMCN row is highlighted, and* Edit, Delete, History, *and* Attachments *become available.*
2. Select History. *The* ***LIN/TAMCN History*** *slide-out window appears.*

Add an Attachment to a LIN/TAMCN

1. Click ☐ to select the desired entry. *The LIN/TAMCN row is highlighted, and* Edit, Delete, History, *and* Attachments *become available.*
2. Select Attachments. *The* ***Add a LIN/TAMCN Attachment*** *slide-out window appears.*

View the Stock Nbr Details

Select the LIN/TAMCN hyperlink. *The* ***Stock Nbr Details*** *slide-out window appears.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution

125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.

Stock Number Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Stock Number process provides the ability to add, update, or delete a stock number record in the catalog.
Each Stock Number is unique to a specific catalog within each logistics program and can only be added once per catalog. The Stock Item is unique to the warehouse.
There are five types of stock numbers identified by the STOCK ITEM CD:

- **A - NSN** (National Stock Number)
  — from FEDLOG or TDMS or other DOD lists.
- **J - MCN** (Management Control Number)
  — created at the local level, when an NSN does not exist for that asset.
- **B - PART NBR** (Part Number)
  — created by either the manufacturer or the local level.
- **I - Intangible** (Intangible)
  — created for Software and other stock that has no physical presence.
- **L - Local** (Local)
  — created at the local level, when the MCN does not fit the required form for the asset.

ELMS interfaces with the DOD Federal Logistics Information Services (FLIS), and can interface with Enterprise Agency Catalogs (e.g., the United States Marine Corps Technical Data Management System - USMC TDMS). The FLIS allows the ICP / MM module to access NSN data in the Federal Logistics Data (FEDLOG). The TDMS allows the ICP / MM module to access NSN data in the Marine Corps standard catalog information.
The Line Item Number (LIN) / Table of Authorized Materiel Control Numbers (TAMCN) plays a key role in managing equipment. The LIN/TAMCN can be thought of as a Group ID. Stock numbers are grouped under one LIN/TAMCN. For example, when the Warehouse receives a LIN/TAMCN for equipment of various sizes, a Stock Number is assigned for each size.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Stock Item Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Stock Item process provides the ability to view, add, update, and delete Stock Item records directly associated with an RSA.

Note

All Stock Item records **must** be associated with a CATALOG STOCK NBR record with a matching Catalog Name in the Logistics Program.

Stock Item records are created to establish attributes specific to an RSA. Those attributes may include:

- RSA
- Item Manager
- Minimum Stocking QTY
- Maximum Stocking QTY
- Freeze Code (Lookup)
- Reorder Point
- Reorder Method (Lookup)
- Minimum Order QTY
- Maximum Order QTY
- Replenishment Source (Lookup)
    - **R** - Requisition (New Procurement)
    - **W** - Warehouse Transfer (for RSAs)

Requisition

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Requisition process provides the ability to add, update, cancel, print, review, or deny a Requisition request.
A Requisition record is a purchase request from a Warehouse. The warehouse sends the replenishment request to the Supply Technician at the ICP to be approved, denied, modified, or canceled. The approved Requisition request generates a Due-In for the warehouse and sends the request to the Source of Supply (SOS).

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Navigation

MATERIEL MGMT > Requisition > Requisition page

Page Fields

The following fields display on the **Requisition** page. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
12	Select "Search" button to view Search Results page.
13	Select "Reset" button to clear data.

21	Select "Add" button to create a new record.
412	Select "Grid Options" button for additional actions.
xxxx	Select the "Cancel" button to cancel the Requisition.
xxxx	Select the "Print" button to print an Approved Requisition Report (DW10) for the approved items.
xxxx	Select the "Review" button to review and approve the Requisition.
xxxx	Select the "Deny" button to deny the Requisition.
xxxx	Select the "Inquire Status" button to inquire the status of the Requisition from the SoS.
xxxx	Select the "Review Changes" button to review and approve/deny any pending changes to the Requisition.
xxxx	Select the "Historical Activities" button to view the changes that have been made to the Requisition.
xxxx	Select the "DLMS Transaction Log" button to view the DLMS transactions related to this Requisition.

Search for a Requisition

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

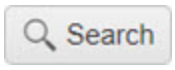

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields:.

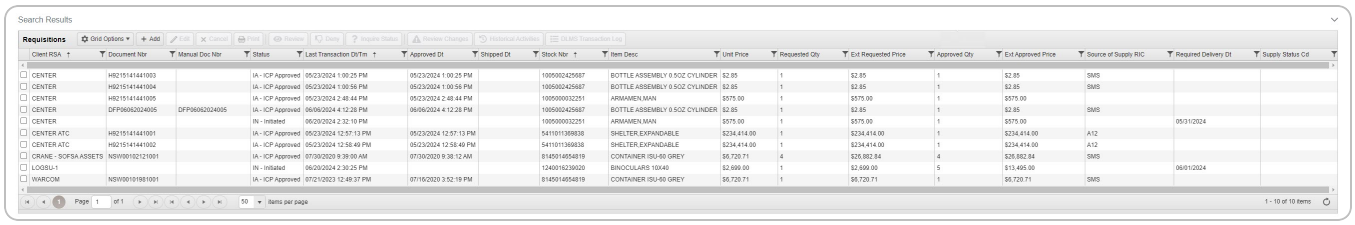

- Enter the Client RSA, using ℹ to assist with the entry. *This is a 50 alphanumeric character field.*
- Use ℹ or ... to assist with the STOCK NBR entry. *This is a 15 alphanumeric character field.*

  Stock Number Browse

- Enter the Source of Supply RIC in the field provided. *This is a 3 alphanumeric character field.*
- Use  to select the APPROVED DT From, or enter the date and time (MM/DD/YYYY HH:MM) in the field provided.
- Use  to select the REQUIRED DLVRY DT From, or enter the date (MM/DD/YYYY) in the field provided.
- Use  to select the ESTABLISHED DT/TM FROM, or enter the date (MM/DD/YYYY) in the field provided.
- Enter the DOCUMENT NBR in the field provided. *This is a 15 alphanumeric character field.*
- Use  to select the Status.
- Click  to select Only Approvable. *The returned results are only the ones that the Supply Technician can approve / deny.*
- Use  to select the APPROVED DT To, or enter the date (MM/DD/YYYY HH:MM) in the field provided.
- Use  to select the REQUIRED DLVRY DT To, or enter the date (MM/DD/YYYY) in the field provided.
- Use  to select the ESTABLISHED DT/TM TO, or enter the date (MM/DD/YYYY) in the field provided.

2. Select  to display the search results.

Add a New Requisition

Select + Add. *The **Add a Requisition** page appears.*

Update a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Edit. *The **Update a Requisition** page appears.*

Cancel a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Cancel. *The Status changes to CN - Cancelled, and is removed from the Requisitions grid.*

Print a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Print. *The **Print a Requisition** page appears.*

Review a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Review. *The* ***Review a Requisition*** *page appears.*

Deny a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Deny. *The* ***Deny a Requisition*** *page appears.*

Inquire About a Requisition Status

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select Inquire Status. *The* ***869F Order Status Inquiry*** *is sent to the SoS.*

View the Historical Activities of a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*

2. Select Historical Activities. *The **Historical Activities of a Requisition** page appears.*

View the DLMS Transaction Log of a Requisition

1. Click ☐ to select the desired entry. *The Requisition request is highlighted, and* Edit, Cancel, Print, Review, Deny, Inquire Status, Historical Activities, *and* DLMS Transaction Log *become available.*
2. Select DLMS Transaction Log. *The **Requisition DLMS Transaction Log** page appears.*

View the Historical Activities of the Requisition Request

Overview

The Requisition Historical Activities pop-up window displays all the details of the Requisition request.
Any prices or price calculations on this pop-up window are based on the time of the change to the request (the reason for the entry), NOT based on the time the window is being viewed.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Review the Disposal Release Order

Selecting Cancel *at any point of this procedure removes all revisions and closes the page. Selecting* Back *retains the information and returns to the previous page.* ***Bold*** *numbered steps are required.*

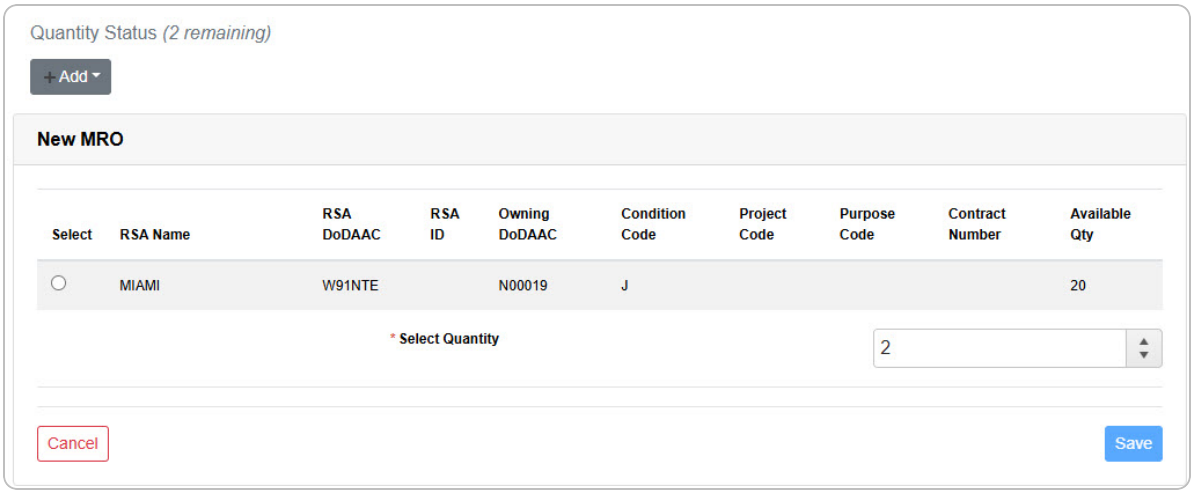

1. Click to select the desired entry. *The Disposal Release Order is highlighted, and* Review *becomes available.*
2. Select Review. *The* ***Review Disposal Release Order*** *page displays, open to the Details tab.*

A. Review the Order Information.

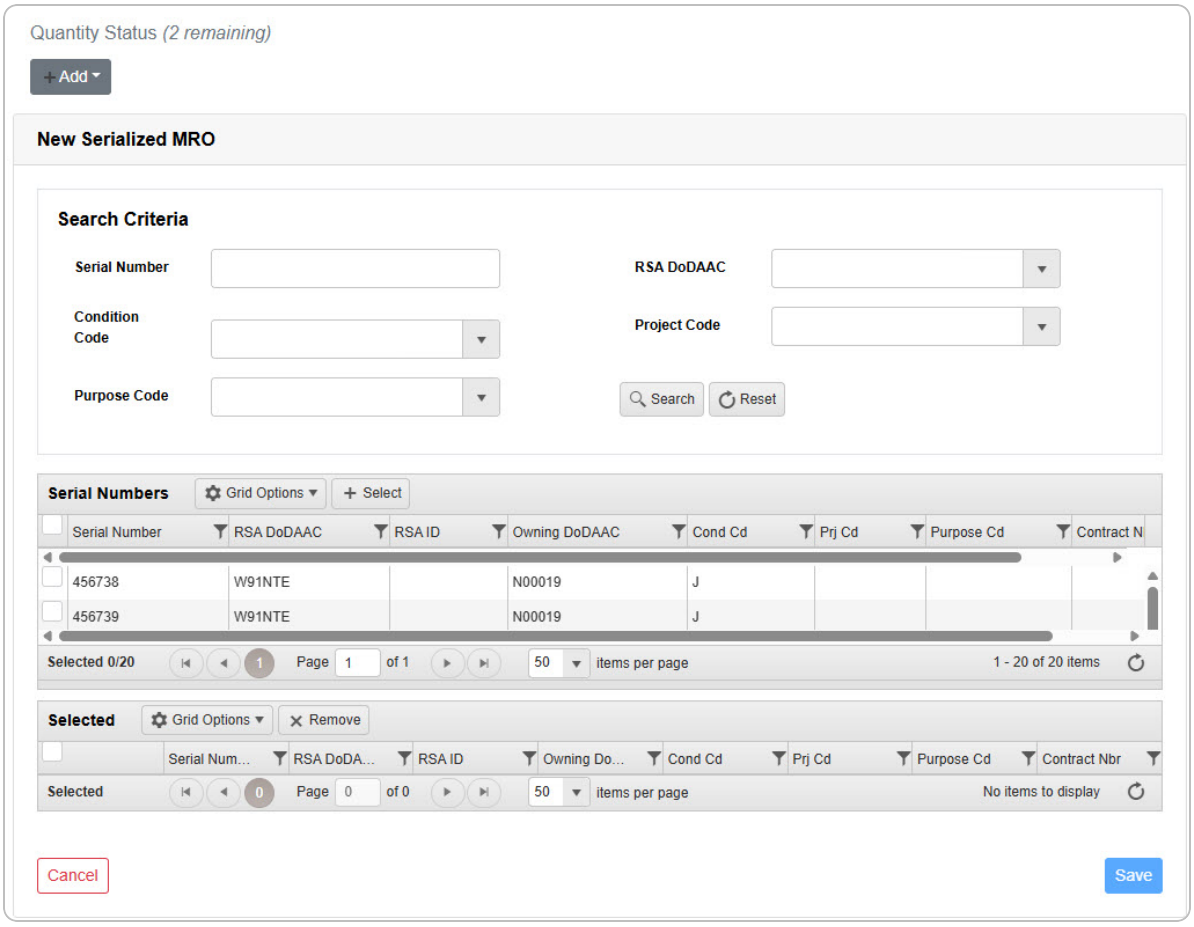

a. *Verify the Document Number.*
b. *Verify the Date Received.*
c. *Verify the Status.*
d. *Verify the Stock Number.*
e. *Verify the Item Description.*
f. *Verify the Condition Code.*
g. *Verify the Requested Quantity.*
h. *Verify the Priority Designator.*
i. *Verify the Unit Price.*
j. *Verify the Required Delivery Date.*
k. *Verify the Deliver Not Before.*
l. *Verify the Program.*

B. Review the **Quantity Status MRO**:

i. Select the desired row.
ii. *Verify the RSA Name.*
iii. *Verify the RSA DoDAAC.*
iv. *Verify the RSA ID.*
v. *Verify the Owning DoDAAC.*
vi. *Verify the Condition Code.*
vii. *Verify the Project Code.*
viii. *Verify the Purpose Code.*
ix. *Verify the Contract Number.*
x. *Verify the Available QTY.*
xi. Use  to choose the Select Quantity.

C. Review the **Quantity Status Serialized MRO**:

i. Enter the Serial Number in the field provided. *This is a 30 alphanumeric character field.*

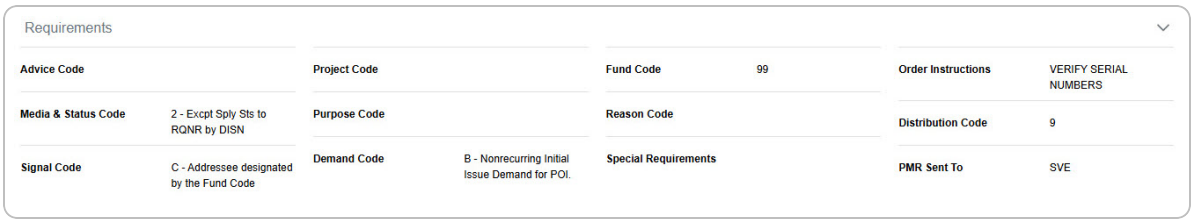

ii. Use ▼ to select the Condition Code.

iii. Use ▼ to select the Purpose Code.

iv. Use ▼ to select the RSA DoDAAC.

v. Use ▼ to select the Project Code .

D. Review the Requirements.

a. *Verify the Advice Code.*

b. *Verify the Media & Status Code.*

c. *Verify the Signal Code.*

d. *Verify the PSD ID.*

e. *Verify the Project Code.*

f. *Verify the Purpose Code.*

g. *Verify the Demand Code.*

h. *Verify the Fund Code.*

i. *Verify the Reason Code.*

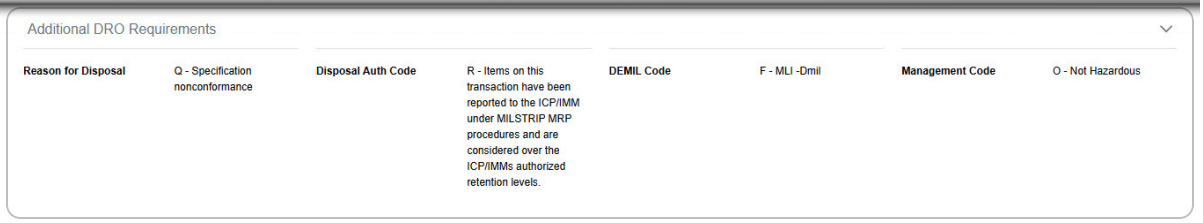

j. *Verify the Special Requirements.*

k. *Verify the Order Instructions.*

l. *Verify the Distribution Code.*

Physical Inventory

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Physical Inventory process provides the ability to create, edit, cancel, reconcile, and view physical inventory requests and counts for a Contractor Inventory Control Point (CICP) / Remote Storage Activity (RSA). This process maintains accurate counts of equipment, shortages, and deficiencies.
There are many distinct aspects of a physical inventory:

Three modes (what to count):

- **SEG** – Inventory Segment Code
  — Sorts by Segment Codes (assigned to Stock Item entries at the Stock Number level)
- **STK** – Stock Number
  — Sorts by a specific LIN/TAMCN or STOCK NBR
- **SER** - Serial Number
  — Sorts by a specific SERIAL NBR

Four types (methods of counting):

- **PLN** – Planned Only
  — A Physical Inventory that is not part of the 'planned' inventory for audit purposes, not required, but wanted. It does not have a scheduled date and is not released for execution.
- **SAP** – Scheduled Inventory, Planned
  — A Physical Inventory that is planned and required. All inventory must be counted within a single fiscal year, with certain stock numbers counted in each month. It has a scheduled date and is released for execution on that date.
- **SAR** – Scheduled Inventory, Random
  — A Physical Inventory that is not part of the 'planned' inventory for audit purposes. It is random due to unexpected circumstances. (For example, a tornado ran thru the ware-house on the west side of the base. Let's schedule an inventory count to make sure we account for everything and the resulting damages.) It has a scheduled date and is released for execution on that date.
- **IRL** – Immediate Release
  — A Physical Inventory that releases the count for execution immediately after creation.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Search for a Physical Inventory

One or more of the Search Criteria fields can be entered to isolate the results. By default, all Inventories are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields:.

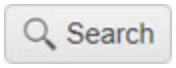

- Enter the Physical INV NBR in the field provided. *This is 25 alphanumeric character field.*
- Use i or ▼ to select the Inv Segment Cd.
- Use ▼ to select the RSA, or use ... to browse for the entry. *This is a 256 alpha-numeric character field.*

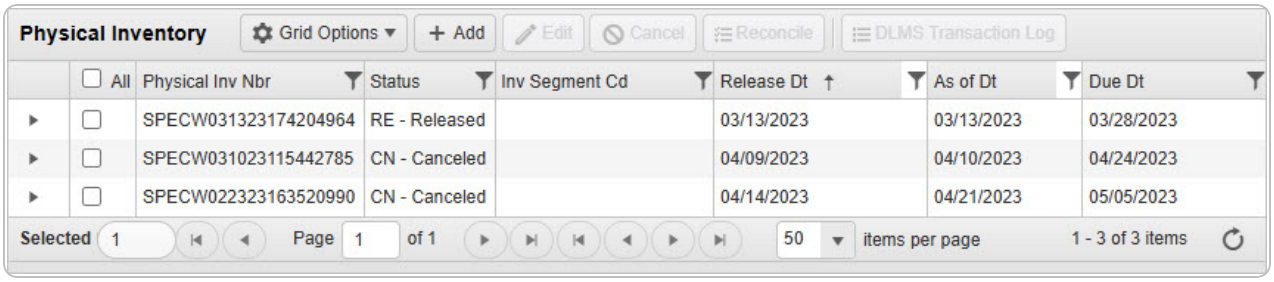

Remote Storage Activity Browse

- Use  to select the RELEASE DT From, or enter the date (MM/DD/YYYY) in the field provided.
- Use  to select the AS OF DT From, or enter the date (MM/DD/YYYY) in the field provided.
- Use  to select the Purpose Code.
- Use  to select the Status.
- Use  or  to assist with the STOCK NBR entry. *This is a 15 alphanumeric character field.*

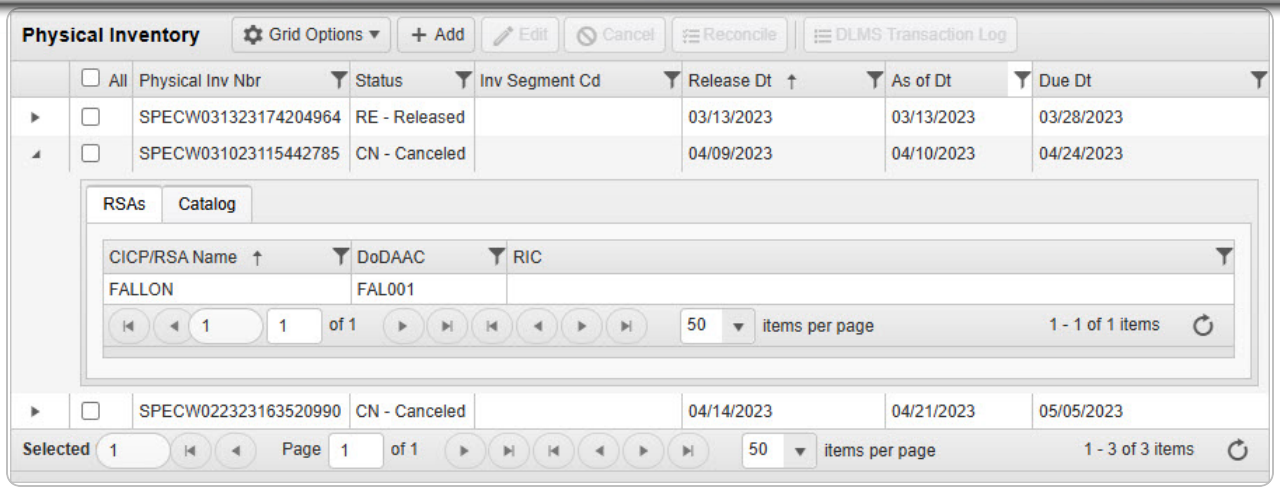

Stock Number Browse

- Use  to select the Condition Cd.
- Use  to select the RELEASE DT To, or enter the date (MM/DD/YYYY) in the field provided.
- Use  to select the AS OF DT To, or enter the date (MM/DD/YYYY) in the field provided.

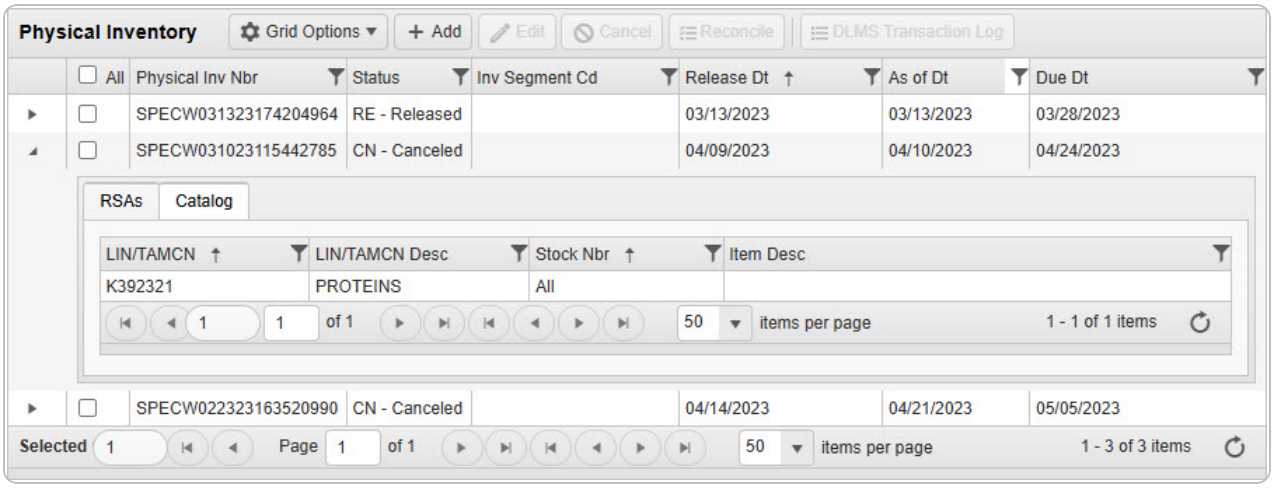

2. Select  . *The results appear in the Physical Inventory Results Grid.*

3. Select  . *The Details grid appears, open to the RSAs tab.*

4. Select the Catalog tab. *The Details grid changes to the Catalog tab.*

Add a Physical Inventory

Select + Add. *The **Add Physical Inventory** pop-up window appears.*

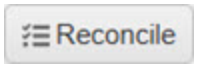

Update a Physical Inventory

Select Edit. *The **Update Physical Inventory** pop-up window appears.*

Cancel a Physical Inventory

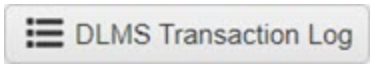

Select Cancel. *The **Cancel a Physical Inventory** pop-up window appears.*

Reconcile a Physical Inventory

Select

  A. Update the Remarks, entering the revised information in the field provided. *This is a 256 alphanumeric character field.*

  B. Enter the History Remarks in the field provided. *This is a 256 alphanumeric character field.*

8. Select ✓ Update *The **Update Physical Inventory** pop-up window closes, and the revised inventory appears in the Search Results grid.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
2010 — Fill out all fields before proceeding.	Missing Entry. All fields in the pop-up window are mandatory. Enter the appropriate information in the fields.

xxxx — No Stock Nbrs to inventory.	Invalid Entry. The combination of RSA / Segment Cd or RSA / LIN/TAMCN / Stock Nbr resulted in no inventory to count. Check the information again, and re-enter the RSA / Catalog fields.
xxxx — As Of Dt must be greater than Release Dt.	Invalid Date Entry. The Release Dt must be before the As Of Dt. Re-enter the date.
xxxx — Release Dt must be x days greater than current date.	Invalid Date Entry. Today must be before the Release Dt. Re-enter the date.
xxxx — Due Dt must be x days greater than Release Dt.	Invalid Date Entry. The Release Dt must be a certain number of days before the Due Dt. Re-enter the date.
xxxx — Due Dt must be greater than the As Of Dt.	Invalid Date Entry. The As Of Dt must be before the Due Dt. Re-enter the date.

Cancel a Physical Inventory

Overview

The Physical Inventory Cancel process allows removal of physical inventory requests and counts for a Contractor Inventory Control Point (CICP) / Remote Storage Activity (RSA), while keeping the record available for later use.

Attention

Cancel is **only available** for inventories with Open statuses:

- **PL** — Planned
- **SC** — Scheduled
- **RE** — Released

Navigation

Overview

The Physical Inventory DLMS Transaction Log pop-up window displays all the details of the Physical Inventory request.

Attention

 DLMS Transaction Log is **not available** when:

- none of the records are checked
- more than one record is checked
- the record has not been released yet; meaning the status is:
  - **PL** – Planned
  - **SC** – Scheduled

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Search for a DLMS Transaction

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

1. Click ☐ to select the desired entry. *The Physical Inventory record is highlighted, and* Edit, Cancel, Reconcile, *and* DLMS Transaction Log *become available.*
2. Select DLMS Transaction Log. *The* ***DLMS Transaction Log*** *pop-up window displays.*

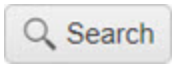

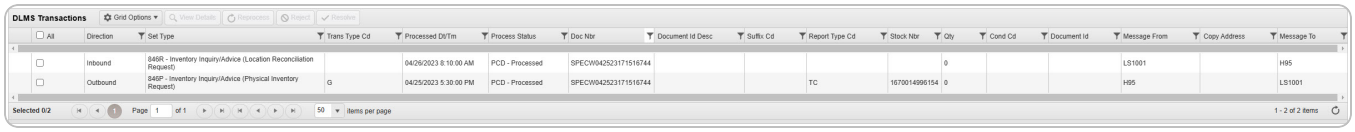

3. In the Search Criteria box, narrow the results by entering one or more of the following optional fields:.

- Use ▼ to select the Direction.
- Use ▼ to select the Set Type.
- *The DOC NBR automatically populates and is not editable.*
- Use ℹ or ... to assist with the STOCK NBR entry. *This is a 15 alphanumeric character field.*

  Stock Number Browse
- Use 📅 🕒 to select the PROCESSED DT/TM FROM, or enter the date (MM/DD/YYYY HH:MM:SS) in the field provided.
- Enter the MFR PART NBR, using ℹ to assist with the entry. *This is a 35 alphanumeric character field.*
- Use ▼ to select the Process Status.
- *The Category automatically populates and is not editable.*
- Use ▼ to select the Document ID.

- Use  to select the Proj Cd.
- Use  to select the PROCESSED DT/TM TO, or enter the date (MM/DD/YYYY HH:MM:SS) in the field provided.
- Enter the CAGE CD, using  to assist with the entry. *This is a 5 alphanumeric character field.*

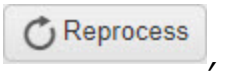

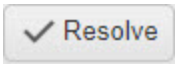

4. Select  . *The results appear in the DLMS Transactions Grid.*

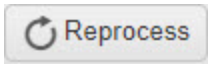

View the DLMS Transaction Details

Select ☐ (desired record) >  . *The **View Details** pop-up window appears.*

Reprocess the DLMS Transaction

1. Click ☐ to select the desired entry. *The DLMS Transaction record is highlighted, and*  ,  , *and*  *become available.*

2. Select  . *The **Reprocessing** pop-up spinner appears for a moment, and the status changes to **ARP** — Awaiting Reprocess.*

Note

If there **is no** problem, the Process Status changes to **PCD** — Processed.
If there **is a** problem, the Process Status changes to **SPD** — Suspended.

Reject the DLMS Transaction

Select ☐ (desired record) >  . *The **Reject Transaction(s)** pop-up window appears.*

Resolve the DLMS Transaction

Select ☐ (desired record) > Resolve. *The **Resolve Transaction(s)** pop-up window appears.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Reconcile a Physical Inventory

Overview

The Physical Inventory Reconcile process reviews an inventory from a Contractor Inventory Control Point (CICP) / Remote Storage Activity (RSA) for any anomalies.

Attention

 Reconcile is **only available** for inventories with the following statuses:

- **IP** - In Progress
  — At least one inventory (846R) was received, but not all of them.
- **RC** - Reconciled
  — All inventories (846R) were received. Either there were no discrepancies, or the ICP resolved all of them.
- **UR** - Unreconciled
  — All inventories (846R) were received. There is at least one discrepancy.

Inventory Transaction Viewer

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Inventory Transaction Viewer page displays the warehouse transactions that violate the threshold amounts for stock items within the warehouse. The stock item threshold amounts are determined when the stock item is initially set up. When the warehouse completes a transaction that goes over the threshold limit, the transaction appears in the Inventory Transaction Viewer results grid.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

DLMS Transactions

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module DLMS Transaction page displays all the incoming and outgoing DLMS transactions. The DLMS Transactions Results grid shows most of the details, whereas the View Details button shows the rest of the details. The XML file is available from the View Details button, as well as any error message regarding an uncompleted transaction. There are options available on handling an incomplete transaction, such as reprocessing, rejecting, or resolving the transaction.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.

161 — Remarks must be alphanumeric with supported special character(s) $, — , /, #, &, comma, period, and space, and max length of 256.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: $, —, /, #, &, comma, period, and space, with a max length of 256. Special characters like ! or @ are prohibited.
13 — Mandatory Entry: *ICP Name*.	Missing Entry. Enter the appropriate information in the desired field.
13 — Mandatory Entry: *Description*.	
13 — Mandatory Entry: *ICP DoDAAC*.	
419 — Entry must be 6 pos alphanumeric except for alpha "I" or "O".	Invalid Entry. The DoDAAC is a 6-position alphanumeric entry, but not "I"; "O"; or special characters. Check the information again, and re-enter the DoDAAC.
761 — Phone Nbr, DSN, FAX Nbr, or Mobile Phone Nbr must be numeric, a minimum of 7 — pos, with supported special characters(s) — , +, ( ), x, period and space.	Invalid Characters Entered in the Phone Nbr / DSN Nbr / Mobile Phone Nbr field. Enter a minimum of 7 numeric characters, or the following permitted special characters to designate the extension: —, +, x, comma, period, and space. Make sure there are no extra spaces before or after the number.
323 — E-Mail Address structure is incorrect.	Invalid E-Mail Format Entered. Enter a minimum of 1 alphanumeric character, the "@" (at) sym-

	bol, at least 1 alphanumeric character, the "." (period) symbol, and at least 1 alphanumeric character.
1124 — ZIP Cd is not in valid format (12345, 12345-1234, 12345 1234).	Invalid ZIP Code format entered. Enter a minimum of 5 numeric characters, with an optional 4 numeric character extension.

Selecting Cancel *at any point of this procedure removes all revisions and closes the page.* ***Bold*** *numbered steps are required.*

1. Select + Add. *The **Add Program Identifier** page appears, open to the Details grid.*

2. Complete the Program Details grid.
   - **A.** Enter the Program Name in the field provided. *This is a 20 alphanumeric character field.*
   - B. Enter the Program Description in the field provided. *This is a 15 alphanumeric character field.*
   - C. Enter the Acquisition Reason CD in the field provided. *This is a 3 alphanumeric character field.*
   - D. Enter the RQN PRJ CD(s) in the field provided. *This is a 3 alphanumeric character field.*
3. Complete the Program Manager grid.
   - A. Enter the First Name in the field provided. *This is a 50 alphanumeric character field.*
   - B. Enter the Last Name in the field provided. *This is a 50 alphanumeric character field.*
   - C. Enter the PHONE NBR in the field provided. *This is a 19 numeric character field.*
   - D. Enter the Cell PHONE NBR in the field provided. *This is a 19 numeric character field.*
   - E. Enter the DSN NBR in the field provided. *This is an 8 numeric character field.*

F. Enter the FAX NBR in the field provided. *This is a 25 numeric character field.*

G. Enter the E-MAIL Address in the field provided. *This is an 80 alphanumeric character field.*

H. Enter the Address Line 1 in the field provided. *This is a 25 alphanumeric character field.*

I. Enter the Address Line 2 in the field provided. *This is a 25 alphanumeric character field.*

J. Enter the City in the field provided. *This is a 22 alphanumeric character field.*

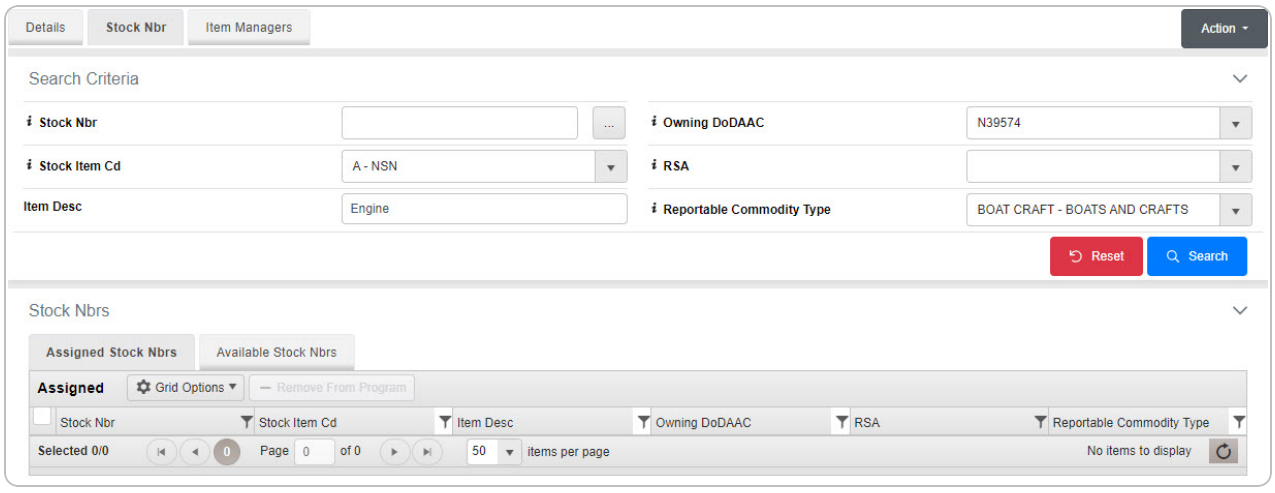

K. Enter the ZIP CD in the field provided. *This is a 10 numeric character field.*

L. Use  to select the Country. *This must be chosen before the State becomes available.*

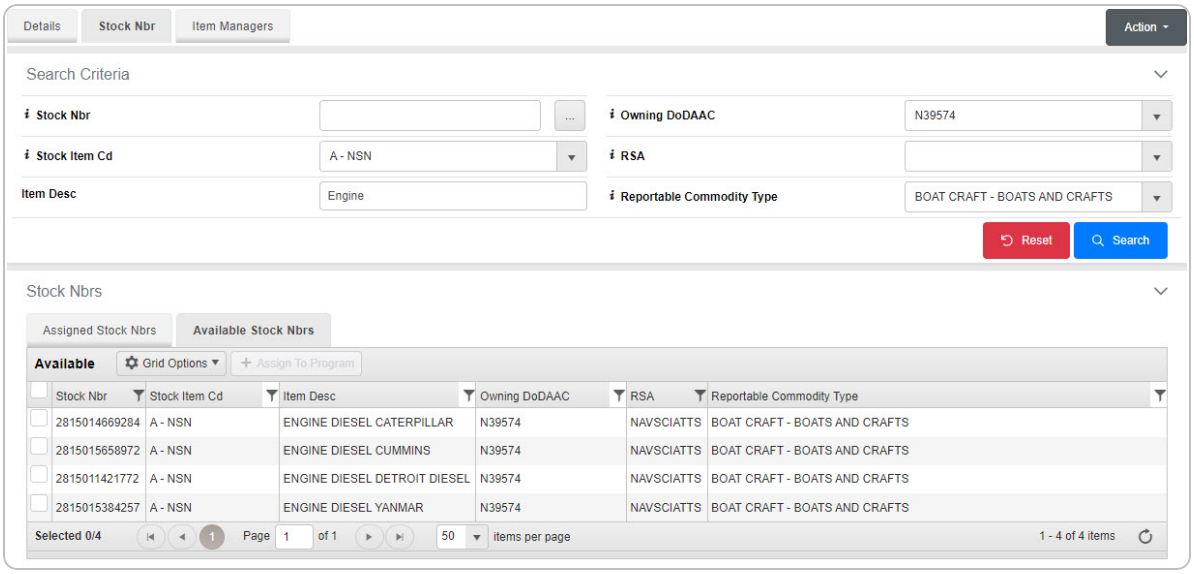

M. Use  to select the State.

4. Select 

. *The **Add Program** page closes, and the STOCK NBR Tab page appears.*

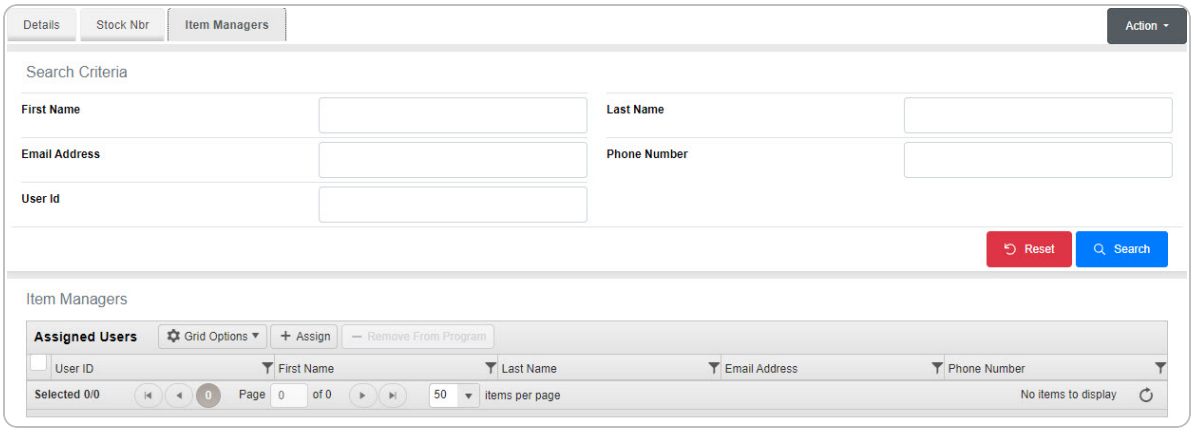

A. Select the Available STOCK NBRS Tab. *The list of available stock numbers appears.*

B. Click ☐ next to the desired STOCK NBRS. *The STOCK NBRS are highlighted.*

C. Click + Assign To Program. *The highlighted STOCK NBRS are moved to the Assigned STOCK NBRS tab.*

D. Select the Item Managers tab. *The Search Criteria screen appears.*

Select + Assign. *The **Assign User** pop-up window appears.*

E.

OR

Select the All Programs hyperlink in the top left corner. *The **Item Manager Overview** page appears.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
13 — Mandatory Entry: *Program Name*.	Missing Entry. Enter the appropriate information in the desired field.
13 — Mandatory Entry: *First Name*.	
13 — Mandatory Entry: *Last Name*.	
13 — Mandatory Entry: *E-MAIL*.	
13 — Mandatory Entry: *Address Line 1*.	
13 — Mandatory Entry: *City* .	
13 — Mandatory Entry: *State*.	
13 — Mandatory Entry: *ZIP CD*.	

13 — Mandatory Entry: *Country*.	
323 — E-Mail Address structure is incorrect.	Invalid E-Mail Format Entered. Enter a minimum of 1 alphanumeric character, the "@" (at) symbol, at least 1 alphanumeric character, the "." (period) symbol, and at least 1 alphanumeric character.
37 — Entry must = A — Z and/or 0 — 9.	Invalid Entry. The characters entered in the field include prohibited special characters. Enter alphanumeric (alphabetic "A" through "Z", numeric "0" through "9") characters.
2170 — Value must be 1 to 3 characters in length.	Invalid Entry. The field must contain at least one character, but no more than three characters. Re—enter the field.
2169 — The entered Acquisition Reason Code is being used by another Program.	Invalid Entry. The Acquisition Reason Code must be a unique value between all Programs associated with an ICP. Re-enter the Acquisition Reason Code.
2171 — Value must be 3 characters in length.	Invalid Entry. The field must be exactly three characters. Re-enter the field.
2172 — Multiple values must be comma separated.	Invalid Entry. When adding multiple RQN PRJ CD (s), the individual codes must be separated by commas. Re-enter the multiple RQN PRJ CD(s).

F. Update the Remarks, entering the revised information in the field provided. *This is a 256 alphanumeric character field.*

3. Select Next →. *The Customer Requisition tab appears.*

A. Update the Ship To DoDAAC, entering the revised code in the field provided. *This is a 6 alphanumeric character field.*

B. Update the Required Delivery Date Days, entering the revised amount in the field provided. *This is a 3 numeric character field.*

C. Update the Priority Designator, using ▾ to select the desired factors.

D. Update the Signal Cd, using ▾ to select the desired code.

E. Update the Advice Cd, using to select the desired code.

F. Update the Media & Status Code, using to select the desired code.

G. Update the DISTRIBUTION CD, entering the revised code in the field provided. *This is a 3 alphanumeric character field.*

H. Update the Condition Cd, using to select the desired code.

I. Update the FUND CD, entering the revised code in the field provided. *This is a 2 alpha-numeric character field.*

J. Update the Demand Cd, using to select the desired code.

K. Update the Purpose Cd, using to select the desired code.

L. Update the PROJECT CD, entering the revised code in the field provided. *This is a 3 alphanumeric character field.*

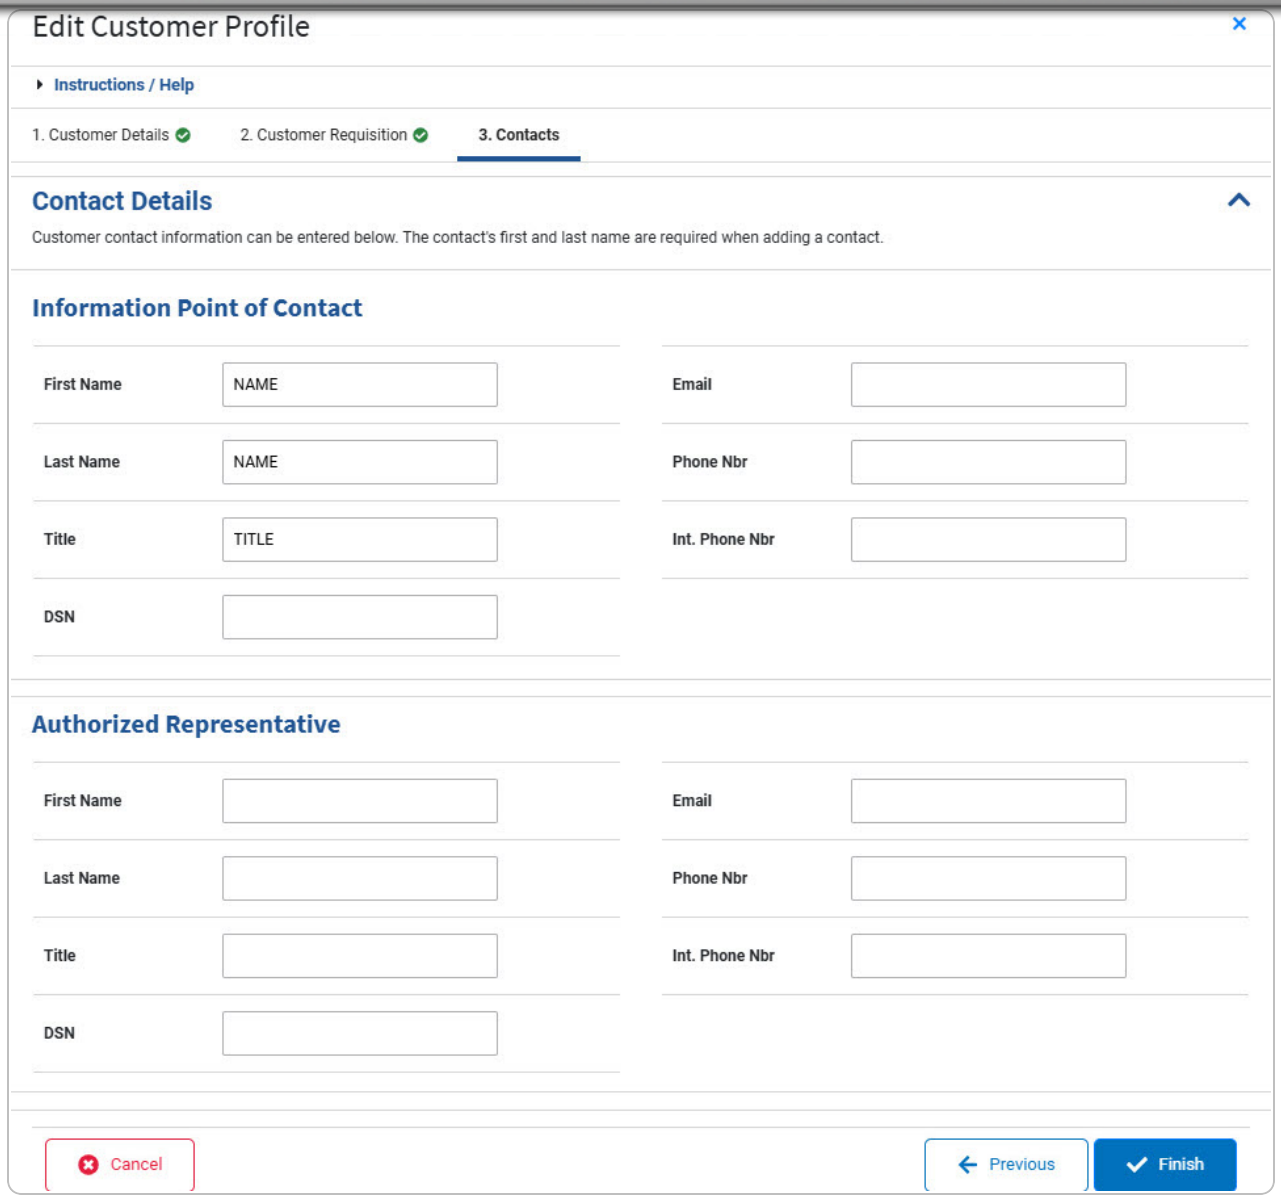

M. Update the REASON CD, entering the revised code in the field provided. *This is a 3 alphanumeric character field.*

N. Update the CONTRACT NBR, entering the revised identifier in the field provided. *This is a 50 alphanumeric character field.*

O. Update the Contract Line Item Number, entering the revised identifier in the field provided. *This is a 4 alphanumeric character field.*

P. Verify the Show PSD ID in Customer Requisition contains the appropriate or . *This shows the PSD in the final record.*

4. Select Next →. *The Contacts tab appears.*

A. *Update the Information Point of Contact information.*

a. Update the First Name, entering the revised name in the field provided. *This is a 50 alphanumeric character field.*

b. Update the Last Name, entering the revised name in the field provided. *This is a 50 alphanumeric character field.*

c. Update the Title, entering the revised identifier in the field provided. *This is a 50 alphanumeric character field.*

d. Update the DSN, entering the revised number in the field provided. *This is an 8 numeric character field.*

e. Update the EMAIL, entering the revised address in the field provided. *This is an 80 alphanumeric character field.*

f. Update the Phone Number, entering the revised number in the field provided. *This is a 19 numeric character field.*

g. Update the INT. Phone Number, entering the revised number in the field provided. *This is a 19 alphanumeric character field.*

B. *Update the Authorized Representative information.*

a. Update the First Name, entering the revised name in the field provided. *This is a 50 alphanumeric character field.*

b. Update the Last Name, entering the revised name in the field provided. *This is a 50 alphanumeric character field.*

c. Update the Title, entering the revised identifier in the field provided. *This is a 50 alphanumeric character field.*

d. Update the DSN, entering the revised number in the field provided. *This is an 8 numeric character field.*

e. Update the E-MAIL Address, entering the revised address in the field provided. *This is an 80 alphanumeric character field.*

f. Update the Phone Number, entering the revised number in the field provided. *This is a 19 numeric character field.*

g. Update the INT. Phone Number, entering the revised number in the field provided. *This is a 19 alphanumeric character field.*

5. Select Finish. *The revised Customer Profile is saved, and the row appears green in the Customer Profiles grid .*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution

125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 — Remarks must be alphanumeric with supported special character(s) $, — , /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: $, —, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
419 — DoDAAC entry must be 6 — pos alphanumeric except for alpha "I" or "O".	Invalid Entry. The DoDAAC is a 6—position alphanumeric entry, but not "I"; "O"; or special characters. Re—enter the DoDAAC.
761 — Phone Nbr, DSN, FAX Nbr, or Mobile Phone Nbr must be numeric, a minimum of 7 — pos, with supported special characters(s) — , +, ( ), x, period and space.	Invalid Characters Entered in the Phone Nbr / DSN Nbr / Mobile Phone Nbr field. Enter a minimum of 7 numeric characters, or the following permitted special characters to designate the extension: —, +, x, comma, period, and space. Make sure there are no extra spaces before or after the number.
2 — Invalid entry *Customer Id*.	Invalid Entry. The mentioned field's entry has the incorrect format. Remove the invalid entry and re-attempt, using the correct format.
13 — Mandatory Entry: *Customer Id Type*.	Missing Entry. Enter the appropriate information in the desired field.
13 — Mandatory Entry: *Customer Id*.	

1 — Record must exist.	Invalid Entry. The Record needs to match the entries. Re-enter the entry.
323 — E-Mail Address structure is incorrect.	Invalid E-Mail Format Entered. Enter a minimum of 1 alphanumeric character, the "@" (at) symbol, at least 1 alphanumeric character, the "." (period) symbol, and at least 1 alphanumeric character.
83 — Unexpected error encountered, contact ELMS Call Center for assistance.	Contact the ELMS Call Center.
xxxx — The Customer ID is not valid for the selected Customer ID Type.	Invalid Entry. The Customer ID Type needs to match the Customer ID. Re-enter the Customer ID.
xxxx — A Customer Profile already exists for the specified Customer ID.	Invalid Entry. The Customer ID must be unique within the ICP. Either enter a different Customer ID or create a different Customer Profile.
xxxx — The specified Customer ID does not match any known DoDAACs or RICs.	Invalid Entry. The Customer ID needs to exist already in the DoDAACs or RICs within the ICP. Re-enter the Customer ID.
xxxx — The specified Ship To DoDAAC does not match any known DoDAACs.	Invalid Entry. The Ship To DoDAAC needs to exist already within the DoDAACs within the ICP. Re-enter the Ship To DoDAAC.

xxxx — First Name is required when entering an Authorized Representative.	Missing Entry. An Authorized Representative entry requires a First Name. Enter the First Name.
xxxx — Last Name is required when entering an Authorized Representative.	Missing Entry. An Authorized Representative entry requires a Last Name. Enter the Last Name.
xxxx — PROJECT CD must be 3 characters.	Missing Entry. The PROJECT CD field is a 3 alpha-numeric character field. Enter the PROJECT CD.

Contractor Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Contractor process provides the ability to add, update or delete a Contractor record. The Contractor Record is stored at the Program Management level, and the one record is used throughout the Materiel Management and Warehouse Management modules. Therefore the records must be unique throughout ELMS.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Navigation

Contract Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Contract process provides the ability to view, add, update, or delete Contract information.
Contracts must be associated with a Contractor, and the Contractor information must be complete before any Contracts can be added.
The Contract Record is stored at the Program Management level, along with the Contractor Record. The one contract record is used throughout the Materiel Management and Warehouse Management modules, therefore the records must be unique throughout ELMS.

Navigation

MASTER DATA MGMT > Contract > Contract page

Page Fields

The following fields display on the **Contract** page. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
24	(*) Asterisk identifies mandatory fields.
21	Select "Add" button to create a new record.
14	Select "Cancel" button to return to previous page.
132	To search for CAGE CD, see https://cage.dla.mil.

161	NCAGE CD must = 5 POS. When POS 1 = 0-9, POS 5 must = alpha but not I, O, or X. When POS 1 = A, POS 5 must = alpha-numeric but not I, L, O, Q, or V thru Z. When POS 1 = alpha, but not alpha O, POS 5 must = 0-9.
162	CAGE CD must = 5 POS, 1st and 5th must = numeric, remaining POS must = alphanumeric except I and O.
313	DODAAC entry must be 6-POS alphanumeric except for alpha "I" or "O".

ELMS Navigation Helpful Tips

Click the following link to display Materiel Management/Inventory Control Point Navigation Tips.

Search for a Contract

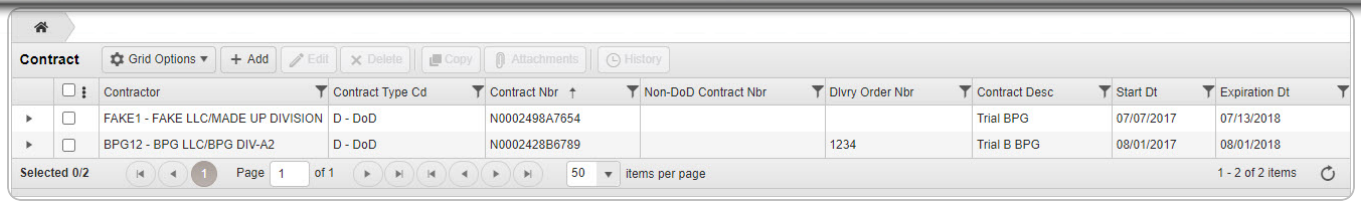

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields:.

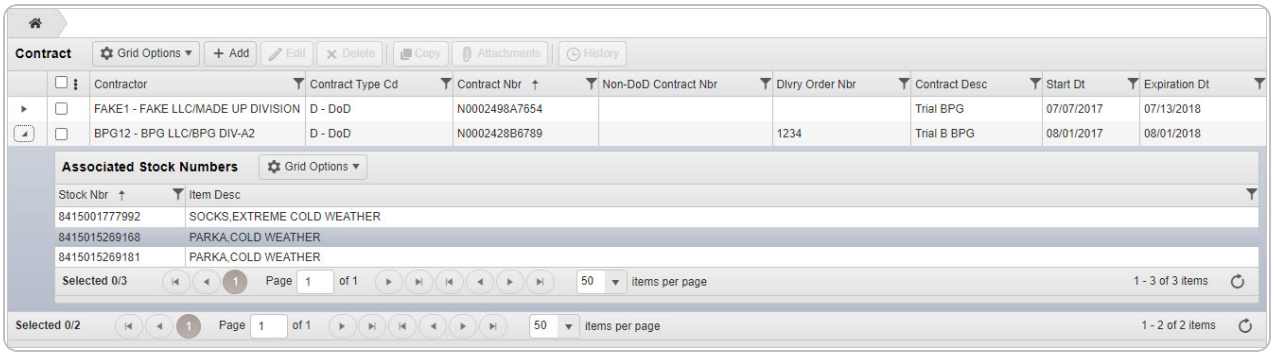

- Enter the CONTRACT NBR in the field provided. *This is a 13 alphanumeric character field.*
- Enter the DLVY ORD NBR in the field provided. *This is a 4 alphanumeric character field.*
- Enter the CONTRACT DESC in the field provided. *This is a 125 alphanumeric character field.*
- Use to select the START DT, or enter the date (MM/DD/YYYY) in the field provided.
- Use to select the Contractor.
- Use to select the Contract Type Cd.
- Use to select the EXPIRATION DT, or enter the date (MM/DD/YYYY) in the field provided.

2. Select Search. *The Search Results appear.*

View the Associated Stock Numbers

1. Select ▶. *The Associated Stock Numbers Grid appears below the Contract record.*

2. *The STOCK NBR automatically populates and is not editable.*
3. *The ITEM DESC automatically populates and is not editable.*
4. Select ◢. *The Associated Stock Numbers Grid closes.*

Add a New Contract

Select + Add. *The **Add a Contract** pop-up window appears.*

Update a Contract

1. Click ☐ to select the desired entry. *The Contract row is highlighted, and* Edit, ✕ Delete, Copy, Attachments, *and* History *become available.*
2. Select Edit. *The **Update a Contract** pop-up window appears.*

Delete a Contract

1. Click ☐ to select the desired entry. *The Contract row is highlighted, and* Edit, Delete, Copy, Attachments, *and* History *become available.*
2. Select Delete. *The* ***Delete a Contract*** *pop-up window appears.*

Copy a Contract

1. Click ☐ to select the desired entry. *The Contract row is highlighted, and* Edit, Delete, Copy, Attachments, *and* History *become available.*
2. Select Copy. *The* ***Copy a Contract*** *pop-up window appears.*

Add Attachments to a Contract

1. Click ☐ to select the desired entry. *The Contract row is highlighted, and* Edit, Delete, Copy, Attachments, *and* History *become available.*
2. Select Attachments. *The* ***Add Attachments to a Contract*** *pop-up window appears.*

View the History for a Contract

1. Click ☐ to select the desired entry. *The Contract row is highlighted, and* Edit, Delete, Copy, Attachments, *and* History *become available.*
2. Select History. *The* ***History for Contract Nbr*** *pop-up window appears.*

View the Contractor Associated with a Contract

Select 🏠 to display the **Contractor** page, listing out the contractors associated with this Division.

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.

ELMS Navigation Helpful Tips

Click the following link to display Materiel Management/Inventory Control Point Navigation Tips.

Add a Contract

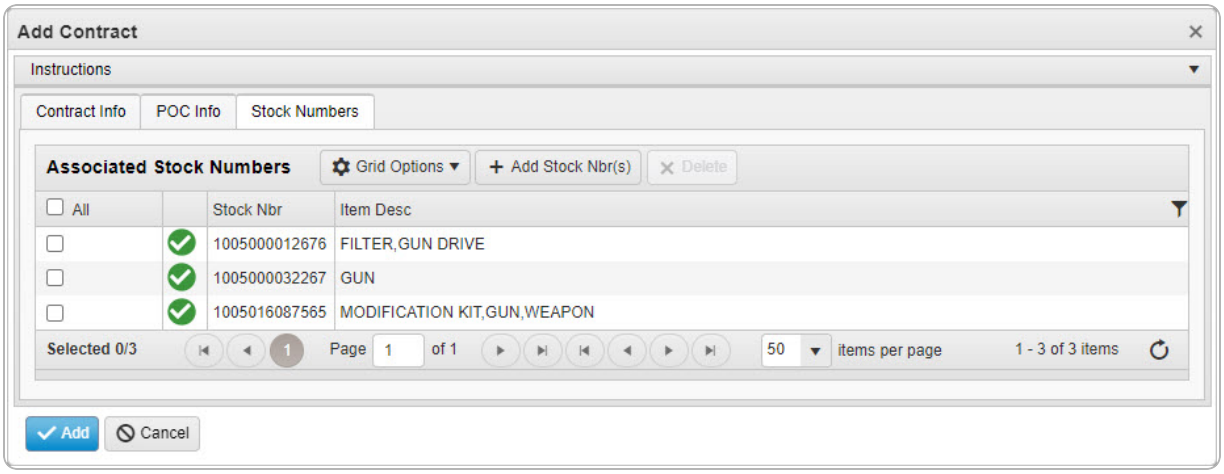

Selecting Cancel *at any point of this procedure removes all revisions and closes the page.* ***Bold*** *numbered steps are required.*

1. Select + Add . *The* ***Add Contract*** *pop-up window displays, with the Contract Info Tab available.*

2. Use ▼ to select the Contract Type Cd. *If the type is Non-DoD, then the Non-DoD CONTRACT NBR field appears.*
3. Use ▼ to select the Contractor.
4. Enter the CONTRACT NBR in the field provided. *This is a 13 alphanumeric character field.*
5. Enter the CONTRACT DESC in the field provided. *This is a 125 alphanumeric character field.*
6. Enter the DLVY ORD NBR in the field provided. *This is a 4 alphanumeric character field.*
7. Use 📅 to select the START DT, or enter the date (MM/DD/YYYY) in the field provided.
8. Use 📅 to select the EXPIRATION DT, or enter the date (MM/DD/YYYY) in the field provided.
9. Click ☐ to select **Manage STOCK NBRS**. *The Stock Numbers tab appears, allowing this Contract to only work with specific stock numbers.*

A. Select the Stock Numbers tab. *The tab opens to the empty Associated Stock Numbers results grid.*

Add Stock Nbr(s)

Select + Add Stock Nbr. *The **Stock Number Browse** pop-up window appears.*

Delete Stock Nbr(s)

a. Click ☐ to select the desired entry. *The Stock Nbr is highlighted, and* ✕ Delete *becomes available.*

b. Select ✕ Delete. *The Stock Nbr is removed from the pop-up window.*

10. Select the Add/Edit Remarks hyperlink. *The Remarks and History Remarks fields appear.*

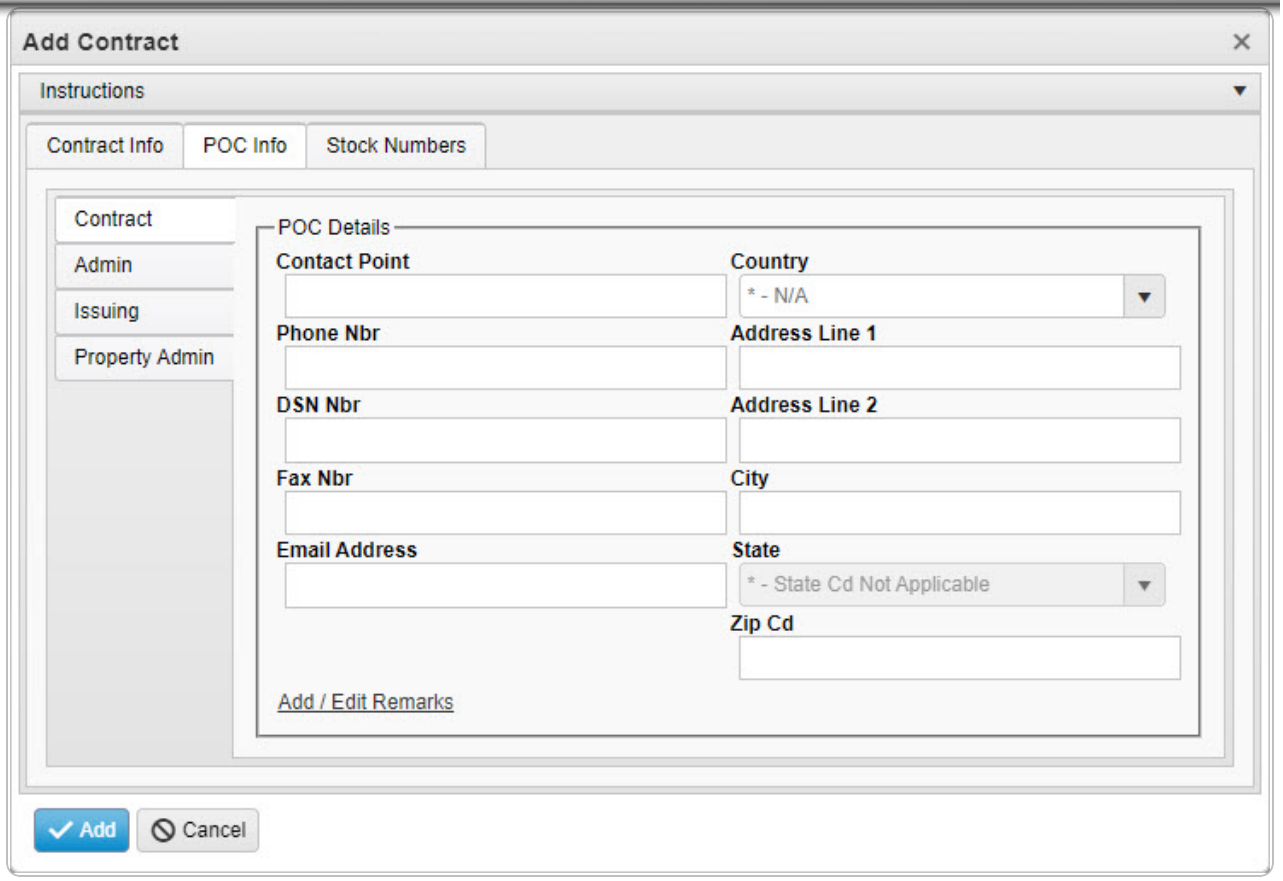

A. Enter the Remarks in the field provided. *This is a 256 alphanumeric character field.*

B. Enter the History Remarks in the field provided. *This is a 256 alphanumeric character field.*

Select ✓ Add. *The new Contract record is saved, and appears in the Contract results grid.*

11. **OR**

Enter the information in the Contract POC Details section.

A. Enter the Contact Point in the field provided. *This is a 35 alphanumeric character field.*

B. Enter the PHONE NBR in the field provided. *This is a 25 alphanumeric character field.*

C. Enter the DSN NBR in the field provided. *This is a 25 alphanumeric character field.*

D. Enter the FAX NBR in the field provided. *This is a 25 alphanumeric character field.*

E. Enter the Email Address in the field provided. *This is a 80 alphanumeric character field.*

F. Use ▼ to select the Country.

G. Enter the Address Line 1 in the field provided. *This is a 35 alphanumeric character field.*

H. Enter the Address Line 2 in the field provided. *This is a 35 alphanumeric character field.*

I. Enter the City in the field provided. *This is a 25 alphanumeric character field.*

J. Use  to select the State.

K. Enter the ZIP CD in the field provided. *This is a 10 alphanumeric character field.*

L. Select the Add/Edit Remarks hyperlink. *The Remarks and History Remarks fields appear.*

   a. Enter the Remarks in the field provided. *This is a 256 alphanumeric character field.*

   b. Enter the History Remarks in the field provided. *This is a 256 alphanumeric character field.*

   Select 

. *The new Contract record is saved, and appears in the Contract results grid.*

M. **OR**

   Select the Admin POC Details section.

a. Enter the DoDAAC in the field provided. *This is a 6 alphanumeric character field.*

b. Enter the Contact Point in the field provided. *This is a 35 alphanumeric character field.*

c. Enter the PHONE NBR in the field provided. *This is a 25 alphanumeric character field.*

d. Enter the DSN NBR in the field provided. *This is a 25 alphanumeric character field.*

Delete a Contract

Overview

The Contract Delete process allows removal of a contract from a contractor.

Navigation

MASTER DATA MGMT > Contract > ☐ (desired record) > ✕ Delete > Delete Contract pop-up window

Page Fields

The following fields display on the **Delete Contract** pop-up window. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
14	Select "Cancel" button to return to previous page.
36	Select "Delete" button to remove record(s) from applicable tables.

Delete Contract

History Remarks

Procedures

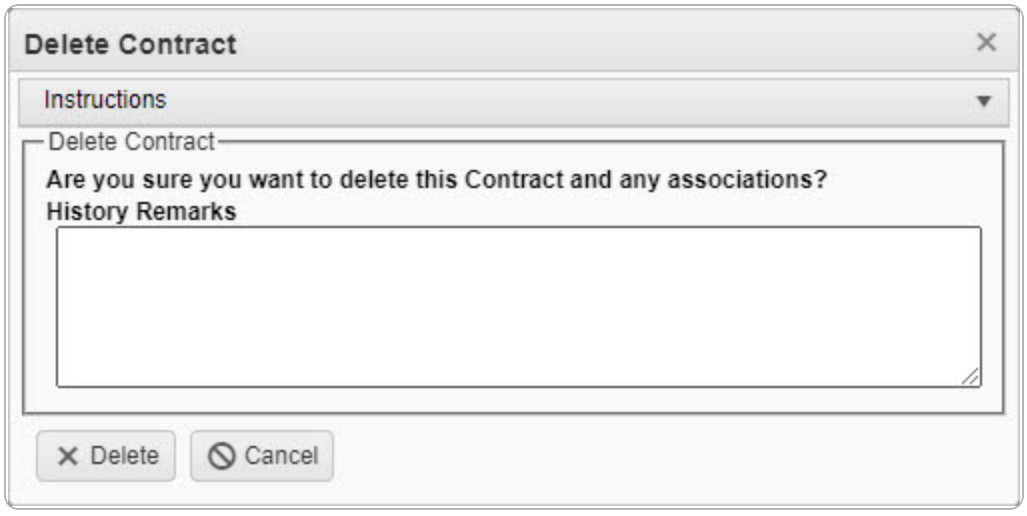

ELMS Navigation Helpful Tips

Click the following link to display Materiel Management/Inventory Control Point Navigation Tips.

Delete a Contract

Selecting Cancel *at any point of this procedure removes all revisions and closes the page.* ***Bold*** *numbered steps are required.*

1. Click ☐ to select the desired entry. *The Contract is highlighted, and* Edit, Delete, Copy, Attachments, *and* History *become available.*
2. Select Delete. *The* ***Delete Contract*** *pop-up window appears.*

3. Enter the History Remarks in the field provided. *This is a 256 alphanumeric character field.*
4. Select Delete. *The Contract record is removed.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 — Remarks must be alphanumeric with supported special character(s) $, — , /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: $, —, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
546 — Contract cannot be deleted. Stock Number(s) exists.	Invalid Deletion. A Contract record cannot be deleted if there are any Stock Numbers, RSAs, or Warranty's still associated to that Contract. Review the Contract record again, and remove any remaining associated information so the Contract can be deleted.
993 — Contract cannot be deleted. Contract is associated with one or more RSAs.	
498 — Contract cannot be deleted. Warranty record(s) exists.

View the Contract History

Overview

The Contract History process displays all of the previous transactions regarding a Contract Record. The Contract Record is stored at the Program Management level, along with the Contractor Record. The one contract record is used throughout the Materiel Management and Warehouse Management modules, therefore the records must be unique throughout ELMS.

Appropriation

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Appropriation process provides the ability to view, create, edit, or delete a record for funding and appropriation information.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Navigation

MASTER DATA MGMT > Appropriation > Appropriation page

Page Fields

The following fields display on the **Appropriation** page. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
12	Select "Search" button to view Search Results page.
13	Select "Reset" button to clear data.
21	Select "Add" button to create a new record.

412	Select "Grid Options" button for additional actions.
17	Select "Edit" button to revise selected fields in record(s).
36	Select "Delete" button to remove record(s) from applicable tables.

Update an Appropriation

Selecting Cancel *at any point of this procedure removes all revisions and closes the page.* ***Bold*** *numbered steps are required.*

1. Click ☐ to select the desired entry. *The Appropriations row is highlighted, and* Edit *and* Delete *become available.*
2. Select Edit. *The* ***Update Appropriations*** *pop-up window appears.*

A. Update the FUND CD in the field provided. *This is a 2 alphanumeric character field.*

B. Update the ASN in the field provided. *This is a 5 alphanumeric character field.*

C. Update the Intrf Sys Cd, using ▼ to select the desired code.

D. Update the Department Transfer Cd, using ▼ to select the desired code.

E. Update the Department Cd, using ▼ to select the desired code.

F. Update the Program YR in the field provided. *This is a 4- or 8-numeric character field.*

G. Update the Availability Type Cd, using ▼ to select the desired code.

H. Verify the Active contains the appropriate ☑ or ☐. *The Appropriations record is marked as either Active ☑ or Inactive ☐.*

I. Update the Type Fund Cd, using ▼ to select the desired code.

J. Update the Agency Accounting Identified Cd in the field provided. *This is a 2-6 alpha-numeric character field.*

K. Update the Main Account Cd, using ℹ to assist with the entry. *This is a 4 alpha-numeric character field.*

L. Update the Sub-Account in the field provided. *This is a 4 alphanumeric character field.*

M. Update the Sub-Allocation in the field provided. *This is a 4 alphanumeric character field.*

N. Update the Program / Project in the field provided. *This is a 24 alphanumeric character field.*

3. Select Update. *The revised Appropriations record is saved, and appears in the Appropriations grid.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 — Remarks must be alphanumeric with supported special character(s) $, — , /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: $, —, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
320 — Entry exceeds maximum length.	Invalid Entry. There are too many characters entered. Reduce the number of characters in the field.
332 — ASN must be 5 positions, A-Z and / or 0-9.	Invalid Entry. The ASN is a 5-position alphanumeric entry. Enter the ASN again.
334 — Subhead must be 4 positions, A-Z and / or 0-9.	Invalid Entry. The Subhead is a 4-position alphanumeric entry. Enter the Subhead again.

335 — SVCG ACTIVITY CD must be 2-6 positions, A-Z and / or 0-9.	Invalid Entry. The SVCG ACTIVITY CD is a 2-6 - position alphanumeric entry. Enter the SVCG ACTIVITY CD again.
337 — Basic Symbol must be 4 positions, A-Z and/or 0-9.	Invalid Entry. The Basic Symbol is a 4-position alphanumeric entry. Enter the Basic Symbol again.
377 — Format must be YYYY (One YR funds) or YYYYYYYY (Multi YR funds).	Invalid Entry. The Program YR field must be either a 4-digit year (for single-year funds), or an 8-digit year span (for multiple year funds.) Enter the Program YR field again.
2136 — FUND CD must be 2 positions, A-Z and / or 0-9.	Invalid Entry. The FUND CD is a 2-position alpha-numeric entry. Enter the FUND CD again.
xxxx — Invalid value entered for Basic Symbol.	Invalid Entry. The Basic Symbol is a 4-position numeric entry. Enter the Basic Symbol again.

Document Number Range Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Document Number Range process provides the ability to add, update, or delete a range of serial numbers for documents. These number ranges are for assignment of document numbers, and each range is associated with a DoDAAC. The ranges can be from 0001 to 9999 and must not overlap. The Document Number is in the following format: DoDAAC + Julian Date + Serial Number.

Navigation

Master Data Mgmt > Document Nbr Range > Document Nbr Range page

Page Fields

The following fields display on the **Document Nbr Range** page. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
21	Select "Add" button to create a new record.
412	Select "Grid Options" button for additional actions.
17	Select "Edit" button to revise selected fields in record(s).
36	Select "Delete" button to remove record(s) from applicable tables.

Organization Collection Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Organization Collection process provides the ability to create or update Organization Collection records for accounting transactions.
There are two types of Organization Collections:

- **Generic Collections** — entered and edited by a Financial Manager.
- **Defense Accounting Interface (DAI) Collections** — imported and not editable.

Organization collections, both Generic and DAI, are created during either the creation of ICP, UIC, ICP Managed DoDAAC agencies, and Major Command updates.

Depreciation Scheduler

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Depreciation Scheduler process provides the ability to calculate, and track depreciation based on the asset type, useful life, salvage value, depreciation method, and process corresponding accounting events.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Search within an Agency Catalog for a Stock Number

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Agency STOCK NBR Inquiry process provides the ability to inquire about specific assets by Agency Catalog.

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

Page Fields

The following fields display on the **Internal Stock Nbr Browse** pop-up window. For more information on each field, select the appropriate hyperlink.

Instructions

The table below provides the list of instructions.

Number	Value
525	Select "Search" to refresh the Stock Nbr Search Results.
526	Select "Reset" to clear the Stock Nbr Search Criteria.
527	Select "Grid Options" for additional actions to perform on the Stock Nbr data.
528	Select "Add" to create a new Stock Nbr record.

529	Select "Edit" to update the selected STOCK NBR record(s).
530	Select "Delete" to remove the selected STOCK NBR record(s).
531	Select "Attachments" to add or view an attached document to the selected STOCK NBR record(s).
132	To search for CAGE CD, see https://cage.dla.mil.
161	NCAGE CD must = 5 POS. When POS 1 = 0-9, POS 5 must = alpha but not I, O, or X. When POS 1 = A, POS 5 must = alpha-numeric but not I, L, O, Q, or V thru Z. When POS 1 = alpha, but not alpha O, POS 5 must = 0-9.
162	CAGE CD must = 5 POS, 1st and 5th must = numeric, remaining POS must = alphanumeric except I and O.

Select Item(s) from Inventory

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

1. Select + Add. *The **Inventory Selection** pop-up window appears.*

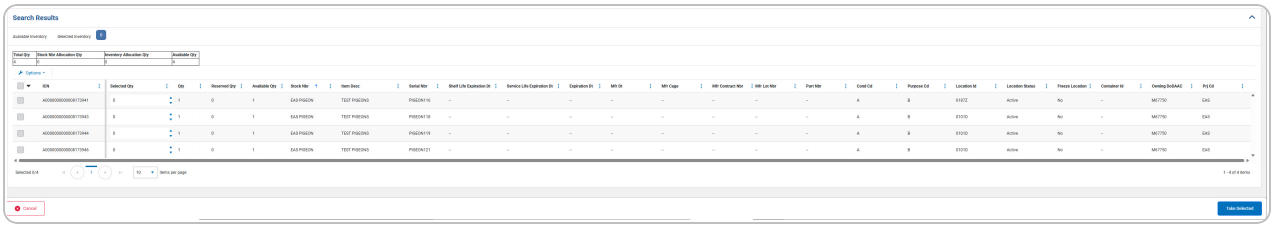

2. In the Search Criteria box, narrow the results by entering one or more of the following fields:.

- Use or ... to assist with the STOCK NBR entry. *This is a 15 alphanumeric character field.*

  Stock Number Browse
- Enter the ITEM DESC in the field provided. *This is a 256 alphanumeric character field.*
- Enter the Container in the field provided. *This is a 20 alphanumeric character field.*
- Enter the Location in the field provided. *This is a 20 alphanumeric character field.*
- Enter the ICN in the field provided. *This is a 20 alphanumeric character field.*
- Enter the SERIAL NBR in the field provided. *This is a 30 alphanumeric character field.*
- *In The Advanced Search Tab:*
- Select Add Expression. *The Boolean Expression sentence appears.*

- Choose which Advanced Search item to search by.

3. Select Search. *The results display in the Inventory Selection grid.*

Review the Available Inventory

Selecting Cancel *at any point of this procedure removes all revisions and closes the page.*
***Bold** numbered steps are required.*

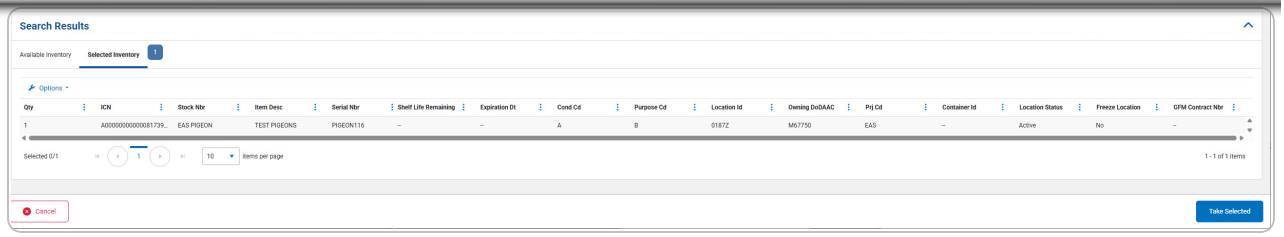

1. *The Total QTY automatically populates and is not editable.*
2. *The STOCK NBR Allocation QTY automatically populates and is not editable.*
3. *The Inventory Allocation QTY automatically populates and is not editable.*
4. *The Available QTY automatically populates and is not editable.*

Total Qty	Stock Nbr Allocation Qty	Inventory Allocation Qty	Available Qty
318	0	0	318

Helpful Tip

The above numbers show how much inventory is in the warehouse. Use these numbers to determine how much to take from each specified Location in the Inventory Selection grid.

5. Choose which row to select for the amount of inventory required.
6. Select . *The Selected QTY cell changes from the to the .*
7. Use to choose the correct Selected QTY. *Repeat until the amount required is completed.*
8. Select the Selected Inventory tab.

9. Review the amounts in the Selected QTY column.

10. Select Take Selected. *The **Inventory Selection** pop-up window closes, and the chosen amounts of inventory appear in the screen.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 — No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
1116 — Scanned or entered numbers could not be validated.	Invalid Entry. The scanned barcode has an unknown prefix. Scan a corrected barcode.
xxxx - You cannot pick more than the required amount.	Invalid Entry. The amount of items required for the pick must be less than the amount of items requested for the pick. Re-enter the amount to be picked.
xxxx - You require <x> but you have only picked <y>.	Invalid Entry. The amount of items that was picked is less than the amount that is required.

Are you sure you want to continue?	Re-enter the amount of items to pick.
xxxx - All selected assets must be associated to the same Contract / Delivery Order Number.	Invalid Entry. The items chosen are from different Contract Numbers / Delivery Order Numbers. Re-enter the items so they are from the same Contract or Delivery Order number.

User Dashboard

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module User Dashboard provides the ability to validate users logging in to the Materiel Management module. Access is controlled via PKI, through use of a Common Access Card (CAC). A log in and password is also used on an exception basis.
Returning users are automatically logged into the ICP last accessed. If the ICP no longer exists, or this is an initial log in, a screen appears to allow the selection of a viable ICP.
The MM/ICP Dashboard displays both a Message of the Day and a Pending Tasks menu. The menu contains:

- Counts of outstanding Physical Inventory items,
- DLMS Transactions,
- In-Transit Shipments,
- EOD Transactions,
- EOD/EOM Inventory,
- Logistics Reassignment.

Click any of the categories to show outstanding work items in order to complete them.

Accessibility

The pages on the Enterprise Logistics Management System (ELMS) web-site are developed to be accessible to individuals with disabilities, in accordance with Section 508 of the Rehabilitation Act of 1973, as amended-29 U.S.C. § 794.

Specifically, the pages have been developed to comply with the following 508 web site accessibility requirements developed by the Architectural and Transportation Barriers Compliance Board (The Board) and published by the W3C as worldwide accessibility standards.

These requirements are based upon the Final Rule as Published in the Federal Register on December 21, 2000 at 36 CFR Part 1195 [Docket No. 2001-01] RIN 3014-AA25 and as published in The Board's on-line guide to the standards for Web-based Intranet and Internet Information and Applications (1194.22).

These requirements include the following:

A text equivalent for every non-text element shall be provided (e.g., via "alt," "longdesc," or in element content).

Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.

Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.

Documents shall be organized so they are readable without requiring an associated style sheet.

Redundant text links shall be provided for each active region of a server-side image map.

Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.

Row and column headers shall be identified for data tables.

Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

Frames shall be titled with text that facilitates frame identification and navigation.

Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.

A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of these standards, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.

When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.

When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).

When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

A method shall be provided that permits users to skip repetitive navigation links.

When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

If you have trouble using this site, report the issue to the point of contact listed on the Contact Us page.

Consent To Monitoring

This is a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the USG may inspect and seize data stored on this IS.

Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.

This IS includes security measures (e.g., authentication and access controls) to protect USG interests — not for your personal benefit or privacy.

Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants.
Such communications and work product are private and confidential.
See User Agreement for details.

External Link Disclaimer

The appearance of hyperlinks does not constitute endorsement by the Department of Defense (DoD) or the Defense Finance and Accounting Service (DFAS) of this Web site or the information, products or services contained therein.
For other than authorized activities such as military exchanges and Morale, Welfare and Recreation sites, the DoD and the DFAS does not exercise any editorial control over these locations.
All links are provided consistent with the Mission of the Enterprise Logistics Management System (ELMS).

Let us know about existing external links which you believe are inappropriate and about specific additional external links which you believe ought to be included.
