

Operating Target Overview

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Operating Target (OPTAR) process provides the ability to read, add, or update an Operating Target. The Operating Target is used for financial obligations and is selected for non-free Requisitions to track the funds utilized for a specific budget. Materiel Management/Inventory Control Point users must have the *Financial Manager* role for Read/Add/Update access.

Navigation

Master Data MGMT > Operating Target > Operating Target (OPTAR) page

Procedures

Search for an Operating Target (OPTAR)

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria panel, narrow the results by entering one or more of the following optional fields.

The screenshot shows a 'Search Criteria' panel with the following fields:

OPTAR Name	All	Fiscal Year	All
DoDAAC	All	Object Class Cd	All
Funding Cost Center	All	Active	All

At the bottom right of the panel are two buttons: 'Reset' and 'Search'.

2. Select . The results display in the Search Results grid.
