

DLMS Transactions

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module DLMS Transaction page displays all the incoming and outgoing DLMS transactions. The DLMS Transactions Results grid shows most of the details, whereas the View Details button shows the rest of the details. The XML file is available from the View Details button, as well as any error message regarding an uncompleted transaction. There are options available on handling an incomplete transaction, such as reprocessing, rejecting, or resolving the transaction.

Navigation

MATERIEL MGMT > DLMS Transaction Review > DLMS Transactions page

Procedures

Search for a DLMS Transaction

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields.
