

Financial Data Update

Overview

The Materiel Management/Inventory Control Point (MM/ICP) module Financial Data Update process provides the ability to view and update relevant accounting data associated to serialized fixed assets.

Navigation

MATERIEL MGMT > Financial Data Update > Financial Data Update page

Procedures

Search for the Financial Data

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one of the following optional fields.
