

Search for a Maintenance Activity Inquiry — Criteria

Overview

The Maintenance and Utilization (M&U) module Maintenance Activity Inquiry process provides the ability to search for Maintenance Activities.

Navigation

Inquiries > Master Data > MAINT Activity > Maintenance Activity Inquiry Search Criteria page

Procedures

Search for a Maintenance Activity Inquiry

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting [Reset](#) at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, choose which available field to use in the search.

The screenshot shows a web interface for searching maintenance activities. At the top, there is a section titled "My Queries" with a dropdown menu and a "New Query" button. Below this is a section titled "Maintenance Activity Inquiry". It contains three input fields: "Available Field(s)" with a dropdown menu showing "Select an Item", "Operands" with a dropdown menu, and "Search Value(s)" with a text input field. At the bottom right of the form, there are three buttons: "Reset", "Fields", and "Show Inquiry".

2. Choose which Available Field(s) to use in the search.
 - A. Use  to select the first Available Field.

Note

Adding another Available Field  automatically populates an additional search criteria row.

Note

Select  to modify the fields used in the inquiry. *The Fields Selection page opens.*

3. Choose which Operands to use in the search.
 - A. Use  to select the first Operands.
4. Choose which Search Value(s) to use in the search.
 - A. Use  to select the first Search Value.

Remove an Available Field Row

- a. Use  to select desired Available Field.
 - b. Select . *The desired row is removed.*
5. Select . *The **Maintenance Activity Inquiry – Results** page appears.*

Add a My Queries Inquiry

1. Select . *The page refreshes, and My Queries changes from a drop-down field to a text field.*
