

Search for a Work Order Inquiry — Criteria

Overview

The Maintenance and Utilization (M&U) module Work Order Inquiry process provides the ability to search for a Work Order record.

Navigation

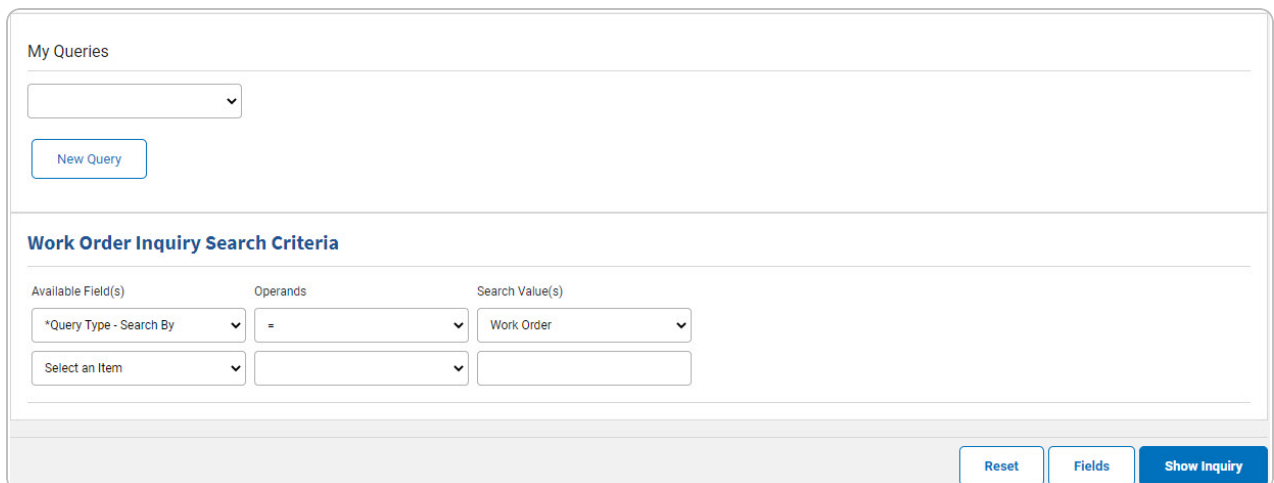

Inquiries > Maintenance > Work Order > Work Order Inquiry Search Criteria page

Procedures

Search for a Work Order Inquiry — Criteria

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, choose which available field to use in the search.

The screenshot shows the 'Work Order Inquiry Search Criteria' form. At the top, there is a 'My Queries' section with a dropdown menu and a 'New Query' button. Below this is the 'Work Order Inquiry Search Criteria' section, which contains three columns: 'Available Field(s)', 'Operands', and 'Search Value(s)'. The 'Available Field(s)' column has two dropdown menus: '*Query Type - Search By' (set to 'Work Order') and 'Select an Item'. The 'Operands' column has a dropdown menu set to '='. The 'Search Value(s)' column has a dropdown menu set to 'Work Order'. At the bottom right of the form are three buttons: 'Reset', 'Fields', and 'Show Inquiry'.

2. Choose which Available Field(s) to use in the search.
 - A. The first Available Field(s) option (Query Type - Search By) automatically populates and is not editable.

Note

Adding another Available Field  automatically populates an additional search criteria row.

Note

Select  to modify the fields used in the inquiry. *The Fields Selection page opens.*

3. Choose which Operands to use in the search.
 - A. Use  to select the first Operands.
4. Choose which Search Value(s) to use in the search.
 - A. Use  to select the first Search Value.

Remove an Available Field Row

- a. Use  to select desired Available Field.
 - b. Select . *The desired row is removed.*
5. Select . *The **Work Order Inquiry – Results** page appears.*

Add a My Queries Inquiry

1. Select . *The page refreshes, and My Queries changes from a drop-down field to a text field.*

Help Reference Guide

My Queries

Work Order Inquiry Search Criteria

Available Field(s)	Operands	Search Value(s)
*Query Type - Search By	=	Work Order
Select an Item		

2. Enter the Query Name in the field provided. *This is a 90 alphanumeric character field.*
 3. Select . *The Query and the information entered in the Search Criteria grid are added to My Queries. Select to disregard the Query.*
 4. Select . *The **Work Order Inquiry – Select Fields** page appears.*
- OR
- Select . *The **Work Order Inquiry – Results** page appears.*

Select a My Queries Inquiry

1. Use  to select the desired saved query. *The page refreshes, and the selected query information appears in the search criteria grid.*
