

## **CIP Overview**

## Overview

Construction in Progress (CIP) is the temporary classification of assets that are not yet completed. It provides the ability to enter cost and other related data for CIP projects, including building construction, vehicle construction, and software development. This data allows tracking of costs prior to an asset (personal property, real property, and military equipment) being placed into service.

Before starting any CIP PROJECT, set up the following items:

- Stock Number Catalog
  - all applicable assets, such as components and end item
- Manufacturer
  - information for all applicable assets
- POC Addresses
  - everyone involved with this project

Before starting a Military Equipment project, set up these additional items:

- Type Designation
  - mandatory while setting up the Stock Number Catalog
- Acq Program Name
  - for the project and assets

Normally, upon completion, a CIP item is reclassified. The costs accumulated in the CIP account are used to support the initial acquisition cost of the asset and are recorded in the appropriate General Ledger Account Code (GLAC). The reclassified asset is capitalized and depreciated as appropriate.

## Navigation

Accounting > CIP

## **Overall Flow**

The CIP process has a very specific start and a very specific end. This overview contains all the CIP processes, but not all projects include every process.

#### <sup>1.</sup> **Project Setup**

#### CIP PROJECT

- Select project type and category
- Assign project number
- Enter project data

#### <sup>2.</sup> Monetary Setup

#### CIP Cost

Manually enter project expenditure and quantity

#### CIP FUNDING

Manage quantity and appropriation information for the project

## <sup>3.</sup> Pending Asset or Improvement

#### CIP ASSET

Finalize and designate assets for receipt

## <sup>4.</sup> **Confirm Data Integrity**

#### **CIP** Attestation

Periodic review and certification of assets and project financial information

## Search for a CIP FUNDING Record — Criteria

## **Overview**

The Property Accountability module Construction in Progress (CIP) Funding process provides the ability to create, update, or delete a funding record associated with an existing CIP PROJECT.

When the CIP PROJECT'S Valuation method is "F" (Average Funding), the funding record determines asset values. When the Valuation method is "C" (Average Cost), the Quantity Funded determines the cost averaging.

Note

Multiple funding records can exist for specific project categories, as long as the funding source and fiscal year are not duplicated.

## Navigation

Accounting > CIP > Funding > CIP FUNDING Search Criteria

### **Procedures**

#### Search for a CIP FUNDING

One or more of the Search Criteria fields can be entered to isolate the results. By default, all

results are displayed. Selecting at any point of this procedure returns all fields to the default "All" setting.

**1.** Enter the PRJ NBR, or use <sup>**Q**</sup> to browse for the project. *This is a 20 alphanumeric char*-*acter field.* 

٩			
<u></u>	L Q	L Q	

2. Select search for a CIP Funding — Results page appears. Results display in the Search Results grid.

Search Prj Nbr BPG123A	Criteria								
Search Update	Results Delete	Fiscal Yr	Source	Qty Funded	Dollar Amt	Appn Yr	POC	POC Phon	ie Nbr
