Search for a Batch Activity Review — Criteria

Overview

The Property Accountability module Batch Activity Review process provides the ability to monitor and manage jobs that have been submitted for scheduled execution. The transactions submitted for processing are known as a Batch or a Scheduled Program. An example of a Batch process is a STK NBR Mass Change/Update. In this process, the STK NBR To and the STK NBR From type process creates a Batch transaction.

Procedures

Search for a Batch Activity

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset *at any point of this procedure returns all fields to the default "All" setting.*

1. In the Search Criteria panel, narrow the results by entering one or more of the following fields.

   Batch Activity Review

Process Status	All	*Submit End Dt	01/10/2024
*Submit Start Dt	01/10/2017		

   Search

   - Use the icon to select the Submit START DT, or enter the date (MM/DD/YYYY) in the field provided.

Note

The Submit Sᴛᴀʀᴛ Dᴛ and Submit Eɴᴅ Dᴛ are mandatory fields. A Date Range is mandatory when searching for a Batch or Scheduled Process.

- Use 🗓 to select the Submit Eɴᴅ Dᴛ, or enter the date (MM/DD/YYYY) in the field provided.

2. Select **Search**. *The **Batch Activity Review Search Results** page appears.*
