

Small Arms / Light Weapons Registry Management

Enterprise Logistics Management System

Printed Manual

Version 28 Apr 2026

Welcome

Overview – ELMS

Welcome to the Enterprise Logistics Management System (ELMS) Help System. The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system. It is the Accountable Property System of Record (APSR) for DoD Agencies and Military Services and non-DoD Agencies.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Overview – Small Arms / Light Weapons Registry Help

This online help is designed to provide access to detailed information and instructions about accountability for all weapons within the DoD. This module is in response to a MILSTRAP policy that was DoD mandated.

Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Module

Welcome to the Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Help System.

ELMS Summary

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for DoD Agencies and Military Services and non-DoD Agencies.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Registry Summary

The Small Arms / Light Weapons Registry module is designed to create accountability for all weapons within the DoD. This module is in response to a MILSTRAP policy that was DoD mandated.

There are three ways to enter and manage weapons:

- **Auto Add (ELMS Managed)**
 - The weapons are entered in either the PA or Warehouse modules.
- **Auto Add (Externally Managed)**
 - The weapons are entered through DLMS Transactions.
- **Manually Add**
 - The weapons are entered manually through the Registry module.

Registry Structure

The Registry module is set up in a hierarchy type model:

Registry — created by the ELMS User Account Team
— Completes a MILSTRAP Policy Requirement; all Registry works together for the DoD.

Agency — created by the ELMS User Account Team
— Air Force, SOCOM; the specified branch of the military.

Accounts — created by the ELMS User Account Team
— DoDAACs; where the weapon physically resides.

Assets — created by the ELMS User Account Team
— Includes the history, where it is now, and where it is being shipped, etc.

Registry Key Functions

The main parts of the Registry module include:

- Registry Management, which includes:
 - Registry Asset Management
 - Account Management
 - In-Transit Management
 - Account Reconciliation
 - DLMS Transactions
- Inquiries
 - Registry Asset History
- Report Manager
 - View Reports

Registry User

Registry is role-based, similar to all other ELMS modules. Those roles include:

- **Registry Manager**— the all-encompassing role
- **Registry Administrator** — the utility role
- **Serialization Officer**— the role specific to a DoDAAC
- **Registry Inquiry** — the inquiry role
- **Agency Manager** — the most basic role

The security uses C.R.U.D. methodology:

- **Create**
- **Read (Inquiry)**
- **Update**
- **Delete**

Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Module Navigation

Overview

This page describes the primary features found on the Registry pages:

- Blue Menu Bar
- Menu Bar
- Instructions
- Help
- Search Criteria
- Results Grid
- Standard Buttons

Additional information about ELMS can be found at the ELMS Support Site.

Navigation

ELMS Small Arms / Light Weapons Registry Module > Any Process Page >  Help >

[View DPAS Help](#)

Blue Menu Bar

The Blue Menu bar is at the very top of the page.

The items on the left side are:

-  **ELMS logo** —
Returns to the home page.

- **Module Name** **Registry** ▾ —
Shows where the user is currently working. Opens to a drop-down list of available modules; select to open a different module.

The items on the right side are:

- **Element** **Element Spt Equip 01** —
Opens the Active Tier pop-up window. Shows the Forces available to the user.
- **User ID** **User ID GROCEBP** ▾ —
Opens the Log Out menu item.

Menu Bar

The Menu bar is between the Red Menu bar and the Process page. While each user's Menu Bar contains different items, they all work the same way to open a Process page. There are two methods to open a Process page: either the Menu item drop-down lists, or the Search field.

Use the Menu item drop-down lists

1. Hover the mouse over a Menu item drop-down list. *The drop-down list of the processes in that Menu item appears.*
2. Select a process from the drop-down list. *The Process page appears.*

Use the Search field

1. Select the down arrow in the Search field. *The complete list of all the Registry processes appears.*
2. Select a process from the drop-down list. *The Process page appears.*

OR

1. Start entering characters in the Process name in the Search field. *Using Intellisense, the Process names with those characters appear.*

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

2. Select a process from the drop-down list. *The Process page appears.*

Instructions

At the top of each Process page is a collapsed Instructions panel.

View the Instructions

- Select . The Instructions panel expands.
- The Instructions panel assists with various options on the Process page:

Help

At the bottom right of the Instructions panel is the Help button .

View the Help System

- Select . *The Help System opens in a separate tab.*
- The Help System is context-specific, and opens to the Overview topic for the current Process page.

Search Criteria

Most Registry Processes have a Search Criteria panel. *Use it to narrow the number of records in the Results Grid.*

Use the Search Criteria panel

1. Enter the available information in the fields.
2. Use the field assistance available:
 - Use the drop-down  to select the field entry.
 - Start entering characters in the fields with .

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

- Use  to open the Browse pop-up window.

Select  to perform the search, or select  to clear the fields.

Results Grid

Each Process page displays the corresponding data in a Results Grid. Each Results Grid has basic properties that are always the same.

Those include:

- **Title Bar** —

Shows the overall Results Grid buttons.

Help Reference Guide

- **Column Header —**

Shows the title of each column, along with the ability to sort and / or filter that column.

- **Individual Records —**

Shows the rows of data in the Results Grid.

- **Bottom Scroll —**

Standard Buttons

Each Registry process page has some basic buttons that are always the same. *Those include:*

Search Criteria

- **Search**  —
Searches the data within the process results grid.
- **Reset**  —
Erases the entered fields and starts over.
- **Scan CAC**  —
Opens the pop-up window containing the CAC field, ready for the scanned information.

Results Grid

- **Add**  —
Creates a new record in the process results grid.
- **Grid Options**  —
Changes the way information appears in the Results Grid. See Grid Options Overview for additional information.

Individual Records

- **Edit**  —
Revises a record in the process.
- **Delete**  —
Erases a record in the process.

- **History**  History —
Opens the History pop-up window, and shows the past edits of the record in the process.
- **Labels**  Labels —
Opens the Print Labels pop-up window, and prints the labels for that record in the process.

Procedures

ELMS Navigation Helpful Tips

Click the following link to display Registry Navigation Tips.

Search for a Registry Asset

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria panel, narrow the results by entering one or more of the following optional fields:.

Search Criteria ^

Stock Nbr	<input type="text"/>	DoDAAC	<input type="text"/>
Serial Nbr	<input type="text"/>	State	Active ▼
Item Desc	<input type="text"/>	Status	▼
Last Trans Dt From	<input type="text"/> 	Last Trans Dt To	<input type="text"/> 

- Enter the STOCK NBR in the field provided. *This is a 15 alphanumeric character field.*
- Enter the SERIAL NBR in the field provided. *This is a 30 alphanumeric character field.*
- Enter the ITEM DESC in the field provided. *This is a 256 alphanumeric character field.*
- Use  to select the LAST TRANS DT From, or enter the date (MM/DD/YYYY) in the field provided.
- Enter the DoDAAC in the field provided. *This is a 6 alphanumeric character field.*
- Use ▼ to select the State.
- Use ▼ to select the Status.
- Use  to select the LAST TRANS DT To, or enter the date (MM/DD/YYYY) in the field provided.

2. Select . *The results display in the Search Results grid.*

Attach a Document to a Record

Selecting  at any point of this procedure removes all revisions and closes the page. **Bold** numbered steps are required.

1. Click  to select the entry. The record is highlighted, and  becomes available.
2. Select  to add any additional files to the record. The **Attachments** pop-up window appears.

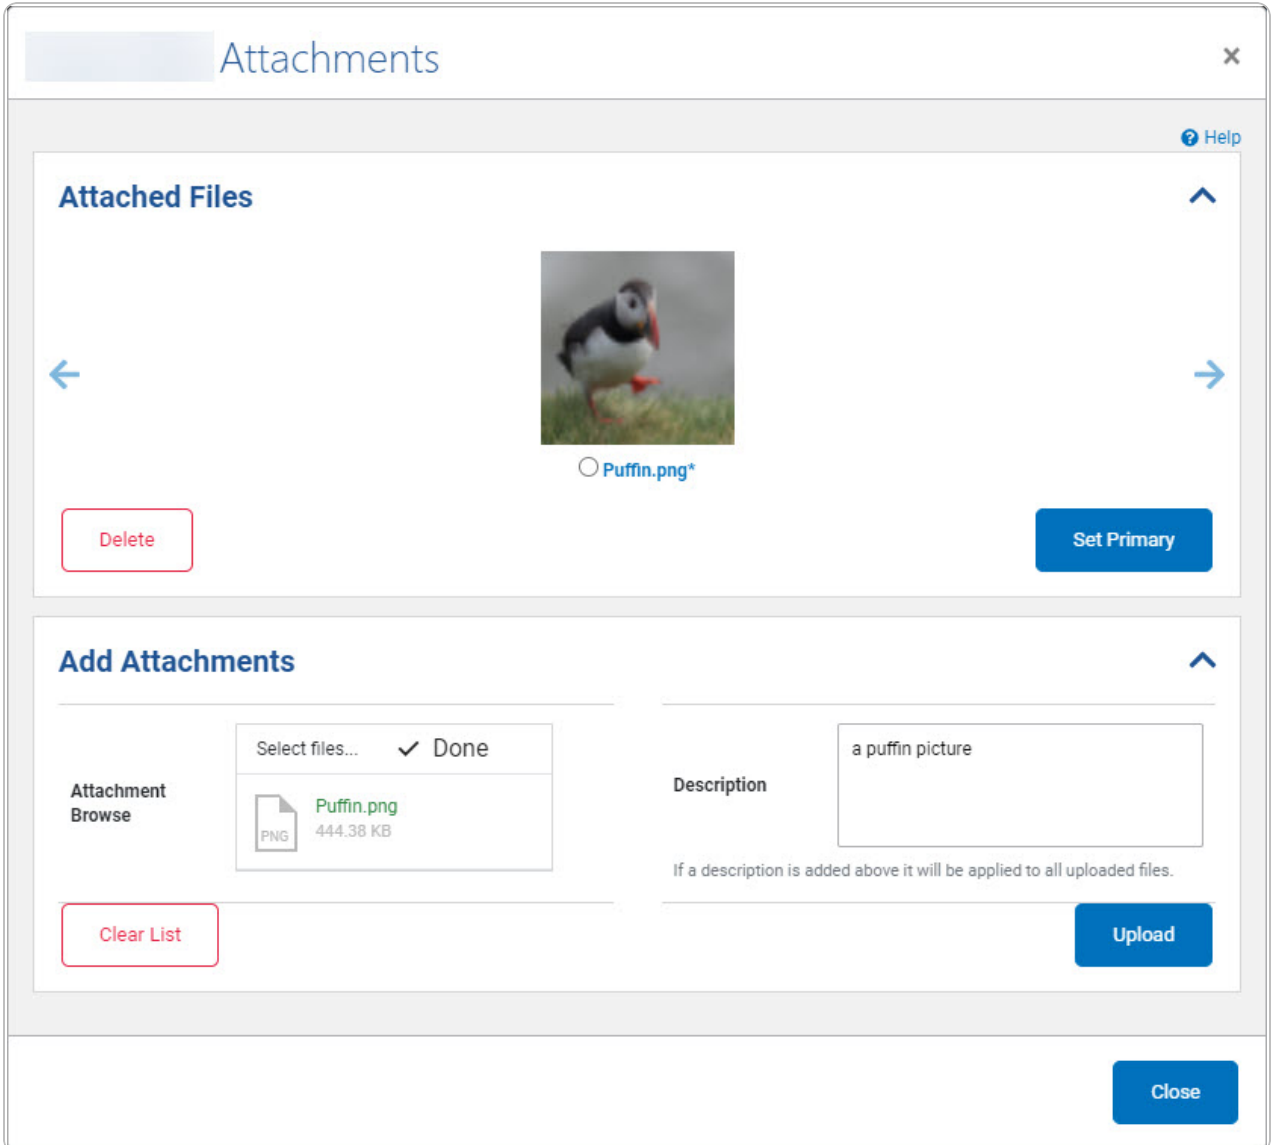

The screenshot shows the 'Attachments' pop-up window. At the top, there is a title bar with 'Attachments' and a close button (X). Below the title bar is a 'Help' icon. The main content area is titled 'Add Attachments' and contains two main sections: 'Attachment Browse' and 'Description'. The 'Attachment Browse' section has a 'Select files...' button. The 'Description' section has a text input field and a note: 'If a description is added above it will be applied to all uploaded files.' At the bottom left of the main content area is a 'Clear List' button, and at the bottom right is an 'Upload' button. At the very bottom of the window is a 'Close' button.

3. Select  within the Attachment Browse field. The Windows **Choose File to Upload** pop-up window appears.
4. Choose the file to attach, and select it.
5. Select . The **Choose File to Upload** pop-up window closes, and the file name appears in the Attachment Browse panel.
6. Enter the Description in the field provided. This is a 1024 alphanumeric character field.

7. Select . The file uploads and appears in the Attached Files panel.

The screenshot shows a window titled "Attachments" with a close button (X) in the top right corner. Below the title bar is a "Help" icon. The main content area is divided into two sections: "Attached Files" and "Add Attachments".

Attached Files

This section contains a single file entry for "Puffin.png*". The entry includes a thumbnail image of a puffin, a radio button, and the filename. Below the entry are two buttons: "Delete" (red) and "Set Primary" (blue). Navigation arrows are visible on the left and right sides of the file entry.

Add Attachments

This section is used to upload new files. It includes an "Attachment Browse" area with a "Select files..." button and a "Done" button. A file named "Puffin.png" (444.38 KB) is shown in the list. Below the list is a "Clear List" button (red). To the right is a "Description" text area containing "a puffin picture". Below the description is a note: "If a description is added above it will be applied to all uploaded files." and an "Upload" button (blue).

At the bottom right of the window is a "Close" button (blue).

8. Repeat Steps 2 - 6 to attach multiple documents.
9. Select  beneath the main attachment.
10. Select . The attachment is marked as the main attachment to the record.

Remove an Attachment

- A. Select  beneath the desired attachment.
 - B. Select . *The attachment is removed permanently from the record.*
11. Select . *The **Attachments** pop-up window closes, and the file appears in the Attachments field of the Search Results grid.*

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 – No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
161 – Remarks must be alphanumeric with supported special character(s) \$, -, /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, -, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
349 – "Add Attachment" supports only JPG, JPEG, GIF, and PDF files.	Invalid Entry. Only JPG, JPEG, GIF, and PDF files are supported, and no other file types are attachable. Attach a correctly formatted file.
1004 – Attachment file size exceeds the maximum of (Size from table) for this file	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

type. "Attachment" file size is (size).

353 – Attachment file size exceeds the maximum of 1MB. The selected file size is {x}.

Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

- Contract Nbr:** TESTTT44HELP2
- *File Path:** A text field with a "Choose File" button and the text "No file chosen".
- *Desc:** A large text area for description.
- Primary:** A checkbox that is currently unchecked.
- Buttons:** "Add" (blue), "Cancel" (white), and "Attach" (blue).

Below the form is a section titled "Temporary Attachments" which is currently empty.

- A. The **CONTRACT NBR** automatically populates and is not editable.
- B. Select  in the File Path field. The Windows **Choose File to Upload** pop-up window appears.
- C. Choose the file to attach, and select it.

- D. Select . The **Choose File to Upload** pop-up window closes, and the file name appears in the File Name field.
- E. Enter the DESC in the field provided. This is a 1024 alphanumeric character field.
- F. Click to select the Primary. This indicates which attachment the system should open first if there are multiple documents.
- G. Select . The file appears in the Temporary Attachments grid.

Temporary Attachments			
	Desc	Size	Type
Remove	Document 4 Test	17.68KB	DOCX

- H. Repeat Steps B-G to attach multiple documents.

Remove an Attachment

Select the Remove hyperlink next to the desired document. *The document is deleted from the grid.*

2. Select . The Attachment appears in the previous page under the Attachment(s) field.

Common Errors

The table below provides a list of common errors and possible solutions. There may be more than one solution to a given error.

Error	Solution
125 – No record(s) match search criteria or you do not have the appropriate security access.	Invalid Entry. Results for the search criteria entered do not exist or Incorrect security access. Enter different Search Criteria and try the Search again.
13 – Mandatory Entry: FILE	Missing Entry. Enter the appropriate information

PATH.	
13 – Mandatory Entry: DESC.	in the desired field.
161 – Remarks must be alphanumeric with supported special character(s) \$, -, /, #, &, comma, period, and space.	Invalid Characters Entered in the Remarks field. Enter alphanumeric characters, or the following permitted special characters: \$, -, /, #, &, comma, period, and space. Special characters like ! or @ are prohibited.
349 – "Add Attachment" supports only JPG, JPEG, GIF, and PDF files.	Invalid Entry. Only JPG, JPEG, GIF, and PDF files are supported, and no other file types are attachable. Attach a correctly formatted file.
1004 – Attachment file size exceeds the maximum of (Size from table) for this file type. "Attachment" file size is (size).	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.
353 – Attachment file size exceeds the maximum of 1 MB. The selected file size is {x}.	Invalid File Size. The file size is too large. Reduce the file size and attach the file again.

Browse for a Warehouse Stock Number

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

Selecting  at any point of this procedure removes all revisions and closes the page. **Bold** numbered steps are required.

1. Select . The **WAREHOUSE STOCK NBR Browse** pop-up window appears.

The screenshot shows a pop-up window titled "WarehouseStockNbrBrowse" with a "close or Esc Key" link in the top right. The window contains a "Search By" section with three radio button options: "Stock Nbr" (selected), "Item Desc", and "FSC" (with a dropdown menu). To the right is an "Additional Search Criteria" section with a "LIN/TAMCN" label and an input field. At the bottom right are "Search", "Reset", and "Cancel" buttons.

2. Select next to the desired Search By Criteria. Depending upon what is chosen:

Note

Only choose one of the three options. STOCK NBR is the default option.

Help Reference Guide

- Enter the STOCK NBR in the field provided. *This is a 15 alphanumeric character field.*
 - Enter the ITEM DESC in the field provided. *This is a 1024 alphanumeric character field.*
 - Use to select the FSC.
3. Enter any desired additional search criteria.
 - Enter the LIN/TAMCN in the field provided. *This is a 10 alphanumeric character field.*
 4. Select . *The Search Results display in the Warehouse STOCK NBR Grid below.*

Browse for a Work Plan Identifier

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. Select . The **Select Work Plans** pop-up window appears.

The screenshot shows the 'Select Work Plans' pop-up window. It has a title bar with a close button (X). The window is divided into two main sections: 'Search Criteria' and 'Search Results'.
Search Criteria: This section contains several input fields and dropdown menus:

- Plan Id: Text input field.
- Plan Name: Text input field.
- Central Work Plan: Dropdown menu with 'Both' selected.
- Plan Type Cd: Dropdown menu with 'All Plan Types' selected.
- Maintenance Activity: Dropdown menu with 'BROOKS MA' selected.
- Plan Selection: Dropdown menu with 'My Activity Plans' selected.

At the bottom right of this section are 'Reset' and 'Search' buttons.

Search Results: This section has two tabs: 'Available' (selected) and 'Selected'. Below the tabs is a table header with columns: Plan Id, Plan Type, Plan Name, Plan Descrip..., Maint Activity, Public, and Central Work... Below the header is a message box with an information icon and the text 'No Data'. At the bottom of the window are 'Cancel' and 'Save' buttons.

2. In the Search Criteria grid, narrow the results by entering one or more of the following optional fields:.

Accessibility

The pages on the Enterprise Logistics Management System (ELMS) web-site are developed to be accessible to individuals with disabilities, in accordance with Section 508 of the Rehabilitation Act of 1973, as amended-29 U.S.C. § 794.

Specifically, the pages have been developed to comply with the following 508 web site accessibility requirements developed by the Architectural and Transportation Barriers Compliance Board (The Board) and published by the W3C as worldwide accessibility standards.

These requirements are based upon the Final Rule as Published in the Federal Register on December 21, 2000 at 36 CFR Part 1195 [Docket No. 2001-01] RIN 3014-AA25 and as published in The Board's on-line guide to the standards for Web-based Intranet and Internet Information and Applications (1194.22).

These requirements include the following:

A text equivalent for every non-text element shall be provided (e.g., via "alt," "longdesc," or in element content).

Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.

Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.

Documents shall be organized so they are readable without requiring an associated style sheet.

Redundant text links shall be provided for each active region of a server-side image map.

Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.

Row and column headers shall be identified for data tables.

Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

Frames shall be titled with text that facilitates frame identification and navigation.

Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.

A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of these standards, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.

When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.

When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).

When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

A method shall be provided that permits users to skip repetitive navigation links.

When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

If you have trouble using this site, report the issue to the point of contact listed on the Contact Us page.

Consent To Monitoring

This is a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the USG may inspect and seize data stored on this IS.

Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.

This IS includes security measures (e.g., authentication and access controls) to protect USG interests — not for your personal benefit or privacy.

Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants.

Such communications and work product are private and confidential.
See User Agreement for details.
