

Collateral Item

Overview

The WAREHOUSE MGMT module Collateral Item process provides the ability to associate one or more collateral items with its Parent Item (STOCK NBR), which integrates into the responsibility of maintaining the User Catalog that is associated with the Logistics Program.

The process views what items are associated with another item. For example, when someone requests to be issued skis, the warehouse clerk uses this process to view what collateral items may need to be issued to outfit the requester such as boots, poles, bindings, etc.

Search for a Collateral Item

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one of the following optional fields.

The screenshot shows a 'Search Criteria' form with the following fields and controls:

- Stock Nbr:** A text input field with 'All' entered. To its right is an information icon (i) and a dropdown arrow (...).
- Collateral Stock Nbr:** A text input field with 'All' entered. To its right is an information icon (i) and a dropdown arrow (...).
- Item Desc:** A text input field with 'All' entered. To its left is an information icon (i).
- Collateral Item Desc:** A text input field with 'All' entered. To its left is an information icon (i).
- At the bottom of the form are two buttons: 'Search' (with a magnifying glass icon) and 'Reset' (with a circular arrow icon).

- Use  or  to assist with the STOCK NBR entry. This is a 15 alphanumeric character field.
- Use  or  to assist with the COLLATERAL STOCK NBR entry. This is a 15 alphanumeric character field.

- Enter the ITEM DESC, using  to assist with the entry. *This is a 256 alphanumeric character field.*
- Enter the COLLATERAL ITEM DESC, using  to assist with the entry. *This is a 256 alphanumeric character field.*

2. Select  . *The Search Results are displayed in the Collateral Item grid.*
