

## SKO Catalog

### Overview

The WAREHOUSE MGMT module SKO Catalog process provides the ability to create and manage custom Sets, Kits, and Outfits (SKOs) records within an Enterprise Catalog. SKO records are commonly referred to as "Kits". Kits are identified by a stock number, which is set up first in the Stock Number Catalog. Once created, the Kit's stock number is used within the SKO Catalog process as the Kit Header. The SKO record includes the components that make up the kit as well as the stock number that identifies the kit as a whole. Users can also determine how to manage the kit within the warehouse once it is assembled.

### Navigation

### Procedures

#### Search For a SKO Entry

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields.

The screenshot shows a 'Search Criteria' form with the following fields:

Stock Nbr	<input type="text"/>	SKO Type	All
Item Desc	All	Serially Managed	All
LIN/TAMCN	<input type="text"/>		

Buttons:  

2. Select . The Search Results are displayed in the SKO Catalog grid.

**Search Results**

## Print SKO Catalog Details

The DW Form 08 provides details on the selected SKO Catalog record.

- Click  to select the desired entry. The SKO Catalog row is highlighted, and , , , , and  become available.
- Select . The  appears.
-  appears. The Windows **Save As** pop-up window appears at the same time.
- Select . The form is saved and ready for printing.

## Add a SKO Catalog

### Navigation

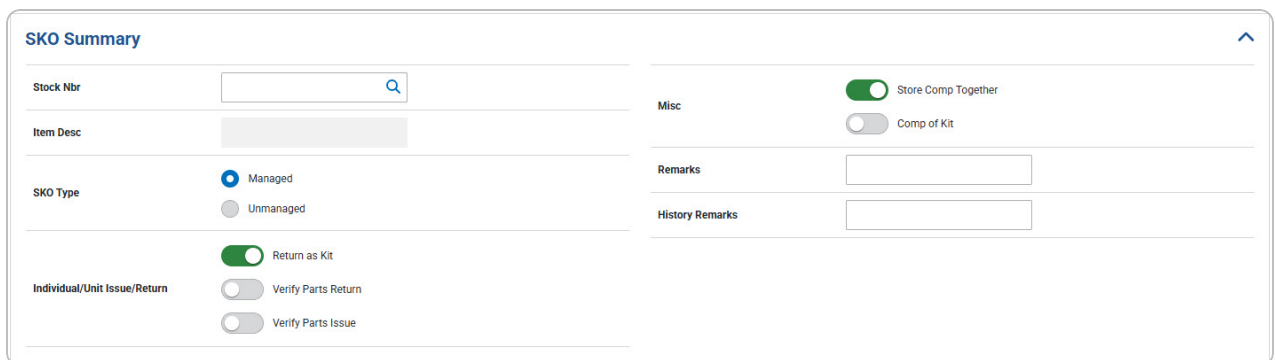

CATALOG MGMT > SKO Catalog >  > Add SKO Catalog page

### Procedures

#### Add a SKO Catalog Record

Selecting  at any point of this procedure removes all revisions and closes the page.

1. Select . The **Add SKO Catalog** page appears.

The screenshot shows the 'SKO Summary' form with the following fields and controls:

- Stock Nbr: Text input field with a search icon.
- Item Desc: Text input field.
- SKO Type: Radio buttons for 'Managed' (selected) and 'Unmanaged'.
- Return as Kit: Toggle switch (checked).
- Individual/Unit Issue/Return: Section with two toggle switches: 'Verify Parts Return' (unchecked) and 'Verify Parts Issue' (unchecked).
- Misc: Section with two toggle switches: 'Store Comp Together' (checked) and 'Comp of Kit' (unchecked).
- Remarks: Text input field.
- History Remarks: Text input field.

2. Enter the STOCK NBR, or use  to browse for the entry. *This is a 15 alphanumeric character field.*
3. Select  next to the SKO Type.
4. Select either  or  to add an item to the SKO Component List.

### Add Component(s)

1. Select Component(s) 2. Configure
