

Search for an Inventory Activity

Overview

The Warehouse Management module Inventory Activity Inquiry process provides the ability to inquire about Inventory Master Records within an individual Warehouse, using either Inventory Changes or Inventory Actions.

Note

Both Inventory Change and Inventory Actions require background jobs to complete before viewing. Expect latency in viewing the information.

With the Enterprise Rollup, searches can be focused within a particular Logistics Programs, Regions, Sites, or Warehouse.

Navigation

Inquiries > Inventory > Inventory Activity > Inventory Activity Inquiry page

Procedures

Search for an Inventory Activity Inventory

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

Selecting  at any point of this procedure removes all revisions and closes the page. **Bold** numbered steps are required.

Inventory Changes

1. In the Search Criteria section, narrow the results by entering one or more of the following fields.
