

SKO Serial Update

Overview

The Warehouse Management module Sets, Kits, and Outfits (SKO) Serial Update process updates Serial kits by moving, removing, and replacing components that are needed to complete a kit.

Navigation

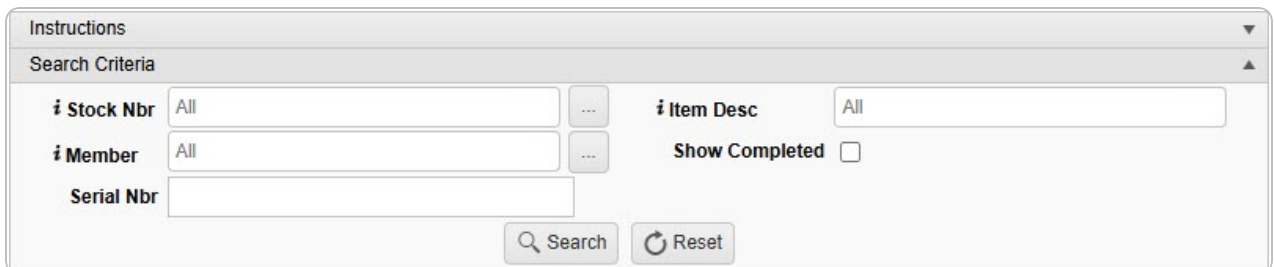

Material MGMT > Set Kit Outfit > Serial Update > Serial Update page

Procedures

Search for a SKO Serial Update Record

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting  at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one or more of the following optional fields.

The screenshot shows a search criteria form with the following fields and controls:

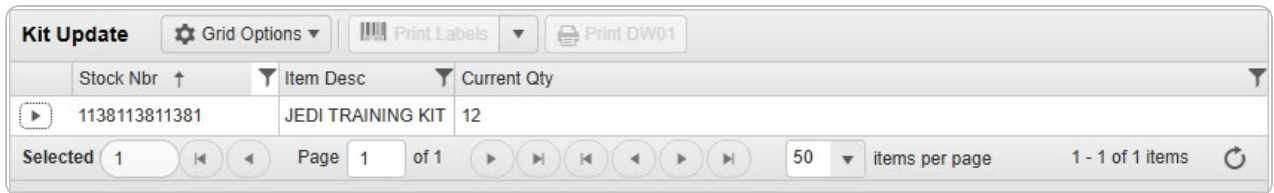

- Instructions**: A dropdown menu.
- Search Criteria**: A section header with a dropdown arrow.
- Stock Nbr**: A text input field with a value of "All" and a help icon (i) and a dropdown arrow (...).
- Member**: A text input field with a value of "All" and a help icon (i) and a dropdown arrow (...).
- Serial Nbr**: A text input field.
- Item Desc**: A text input field with a value of "All" and a help icon (i).
- Show Completed**: A checkbox.
- Search**: A button with a magnifying glass icon.
- Reset**: A button with a circular arrow icon.

2. Use  or  to assist with the STOCK NBR entry. *This is a 15 alphanumeric character field.*
3. Use  or  to assist with the Member entry. *This is a 50 alphanumeric character field.*
4. Enter the Serial Number in the field provided. *This is a 30 alphanumeric character field.*

- Enter the ITEM DESC, using  to assist with the entry. *This is a 256 alphanumeric character field.*
- Click to select Show Completed. *This displays kits with a SKO build status of "Completed."*
- Select . *The results display in the Kit Update grid below.*
