

### **Zone Overview**

#### **Overview**

The Warehouse Management Module Zone process enable the user to auto-select storage locations from receipts within a facility. The use of Zones is optional unless you want use the autoselect feature. Zones can be made mandatory when creating Locations within a Facility. Zones are defined as either Stock Zone or Issue Zone.

A facility may or may not have Zones. Zones are intended to provide the capability to sub-divide a facility into smaller units. Zones must be established if the warehouse intends to utilize the Auto-Recommendation Location Store feature.
