- 5. Enter the mandatory manufacturer data.
- 6. For non-accountable property, select the Non-Actbl checkbox.
- 7. When updating, you can set the status of the manufacturer to INACTIVE which prevents assignment of assets to that manufacturer without deleting the manufacturer.
- 8. When deleting, you cannot have on hand assets assigned to the manufacturer. Fields will be displayed only.
- 9. Select the **Add** button to complete the process.
