Select the **Verify Parts Rqd** (Verify Parts Required) to indicate all the parts are to be verified upon the return of the item. This checkbox is only available for component lists.

Only Stock Numbers which have a **SKO Type** of *SKO-Set Kit Outfit* will flag the Stock Number as a "*SKO Stock Nbr?*" on the **Characteristics** tab of the **Stock Number** process.

Adding Stock Numbers to a SKO Catalog Entry

- 6. Select the **Add** button A Stock Number row displays.
- 7. Select the **Stock Nbr Browse (...)** button to select the first stock number to be included in the kit.
- 8. Change the **Required Qty** and/or the **Display Order** fields.
- 9. Repeat the steps until all stock numbers have been added.
- 10. Select the Save Changes button to update the items in the kit.
- 11. Select the **Add** button to the left of the **Print** checkbox.

The quantity entered determines how many of each stock number is required and the **Display Order** value controls the position the stock number appears in the list.

Select the Print checkbox to print a Pick List of the items in the kit.

Deleting a Kit Item

- 1. In the DPAS Warehouse Management module, navigate to **SKO Catalog** from the **Catalog Mgmt** menu.
- 2. Select the Expansion Arrow to the left of the record.
- 3. Choose the **Mark Deleted** button for the record to be removed The **Confirm Delete** pop-up displays.
- 4. Select the **Delete** button.
- 5. Select the **Save Changes** button.

It is important to select the **Save Changes** button to complete the removal of the record. Selecting the **Mark Deleted** button only flags it for deletion.
