

REPORT NAME	DESCRIPTION
Utilization Report (WPMAR08)	This report will generate monthly utilization data.
Work Order (WPMAR04)	This process will generate a printable work order form. This form can be generated from either the Print Work Order Request or the Work Order Add/Update process. The user will be able to optionally select addendums that can be printed with the generated form.
Equipment Utilization Form (WPMAR10)	This process creates a printable Equipment Utilization form. When generated, this form can include the Form Only, Form with the Inspection List, Inspection List Only, or a Blank Form. The information on the form will include the asset identification, utilization related to the asset and the detailed Inspection List, if selected.
