

Accessibility – Accessibility (Drop Down List) ~Tooltip: Is the building handicapped accessible

- Yes
- No

Acres – Acres (Number) ~Tooltip: Number of acres

- Max Character Length: 9999

Air Cooled - Air Cooled (Radio Button) ~Tooltip: Is the unit air cooled?

- Yes
- No

Ammunition Specs - Ammunition Specs (Text) ~Tooltip: Detail the ammunition information

- Max Character Length: 1024

Armament – Armament (Text) ~Tooltip: Detail the armament information

- Max Character Length: 1024

Armored – Armored (Radio Button) ~Tooltip: Is the item armored

- Yes
- No

Articulation - Backrest - Articulation – Backrest (Text) ~Tooltip: Specify the backrest articulation specifications

- Max Character Length: 256

Articulation - Head Section - Articulation - Head Section (Text) ~Tooltip: Specify the head-section articulation specifications

- Max Character Length: 256

Artist – Artist (Text) ~Tooltip: Identify the artist

- Max Character Length: 1024

Available Dots - Available Dots (Number) ~Tooltip: Specify the available dots for the product

- Max Character Length: 9

Basement Specs - Basement Specs (Text) ~Tooltip: Detail the basement specifications

- Max Character Length: 1024

Battery Type - Battery Type (Text) ~Tooltip: Detail the battery type

- Max Character Length: 1024

Battery Compartment Size - Battery Compartment Size - inches LxWxH (Text) ~Tooltip: Specify the size LxWxH of the battery compartment in inches

- Max Character Length: 256

Bezel – Bezel (Text) ~Tooltip: Specify bezel information of the product

- Max Character Length: 256

Blade Size - Width of Blade (Text) ~Tooltip: Specify the blade size

- Max Character Length: 256

Body Height - Body Height – inches (Number) ~Tooltip: Specify the body height in inches

- Max Character Length: 4

Brake Type - Brake Type (Drop Down List) ~Tooltip: Specify the brake type

- Electromagnetic
- ABS

Bucket Size - Bucket Size (Text) ~Tooltip: Specify the bucket size

- Max Character Length: 256

Bucket Size - Back - Bucket Size - Back – Yards (Number) ~Tooltip: Specify the size of back bucket in yards

- Max Character Length: 4

Bucket Size - Front - Bucket Size - Front – Yards (Number) ~Tooltip: Specify the size of front bucket in yards

- Max Character Length: 4

Bucket Width - Back - Bucket Width - Back – Inches (Number) ~Tooltip: Specify the width of back bucket in inches

- Max Character Length: 4

Bucket Width - Front - Bucket Width - Front – Inches (Number) ~Tooltip: Specify the width of front bucket in inches

- Max Character Length: 4

Builder – Builder (Text) ~Tooltip: Identify the builder

- Max Character Length: 1024

Built-in Oxygen Monitor - Built-in Oxygen Monitor (Drop Down List) ~Tooltip: Does the equipment have built-in oxygen monitor

- Yes
- No

Capacity - Bed Size - Capacity - Bed Size (Text) ~Tooltip: Specify the maximum bed size

- Max Character Length: 256

Capacity - Lbs - Capacity - Lbs (Number) ~Tooltip: Specify the maximum capacity in lbs

- Max Character Length: 7

Capacity - Passengers - Nbr of Passengers (Number) ~Tooltip: Specify the maximum number of passengers

- Max Character Length: 3

Capacity - Printing - Printing capacity per cartridge (Number) ~Tooltip: Specify the printing capacity per cartridge

- Max Character Length: 4

Capacity - Usage - Capacity - Usage - cu ft (Number) ~Tooltip: Specify the maximum usage capacity in cubic feet

- Max Character Length: 9

C-arm Access - C-arm Access (Text) ~Tooltip: Specify the C-arm access specifications

- Max Character Length: 256

Charge Time - Charge Time (Text) ~Tooltip: Specify the charge time for the equipment

- Max Character Length: 256

Classification - Classification (Text) ~Tooltip: Detail the classification of the item

- Max Character Length: 1024

Cockpit Dimensions - Cockpit Dimensions (Text) ~Tooltip: Detail the dimensions of the cockpit

- Max Character Length: 1024

Color - Color (Text) ~Tooltip: Enter the color of the item

- Max Character Length: 256

Color Printing - Color Printing (Drop Down List) ~Tooltip: Does the product support color printing

- Yes
- No

Combat Radius - Combat Radius (Text) ~Tooltip: Specify the combat radius

- Max Character Length: 1024

Comments – Comments (Text) ~Tooltip: Enter any additional information about the product

- Max Character Length: 1024

Connectivity – Connectivity (Text) ~Tooltip: Specify the connectivity information of the product

- Max Character Length: 256

Continuous Power Rating - Continuous Power Rating (Text) ~Tooltip: Specify the continuous power rating of the unit

- Max Character Length: 1024

Convection Type - Convection Type (Drop Down List) ~Tooltip: Specify the convection type of the unit

- Electric
- Gas

Cooling System Specs - Cooling System Specs (Text) ~Tooltip: Detail the cooling system specifications

- Max Character Length: 256

Country – Country (Text) ~Tooltip: Specify the country of origin

- Max Character Length: 1024

CPUs – CPUs (Number) ~Tooltip: Enter CPUs information of the product

- Max Character Length: 3

Culture – Culture (Text) ~Tooltip: Identify the culture

- Max Character Length: 1024

Date – Date (Date) ~Tooltip: Specify the date manuscript was created

Depth - Depth – inches (Number) ~Tooltip: Specify the depth of the product in inches

- Max Character Length: 4

Depth - Base - Depth - Base – inches (Number) ~Tooltip: Specify the base depth of the equipment in inches

- Max Character Length: 5

Depth - Mattress - Depth - Mattress – inches (Number) ~Tooltip: Specify the mattress depth in inches

- Max Character Length: 5

Dimensions – Dimensions (Text) ~Tooltip: Specify the dimensions for the product

- Max Character Length: 256

Dimensions - w/o external paddles - Dimensions - w/o external paddles (Text) ~Tooltip: Specify the dimensions for the product

- Max Character Length: 256

Dimensions - with external paddles - Dimensions - with external paddles (Text) ~Tooltip: Specify the dimensions for the product

- Max Character Length: 256

Displacement Specs - Displacement Specs (Text) ~Tooltip: Detail the displacement specifications

- Max Character Length: 1024

Display - Dimensions - Dimension of screen display (Text) ~Tooltip: Specify the diagonal dimension of screen display

- Max Character Length: 256

Display - Resolution - Resolution of screen display (Text) ~Tooltip: Specify the resolution of screen display

- Max Character Length: 256

Display - Type - Type of screen display (Text) ~Tooltip: Specify the type of screen display, e.g. LCD, LED, etc

- Max Character Length: 256

Display - Wave Viewing Time - Wave Viewing Time of screen display (Text) ~Tooltip: Specify the wave viewing time of screen display

- Max Character Length: 256

Display Requirements - Display Requirements (Text) ~Tooltip: Detail the display requirements for the art piece

- Max Character Length: 1024

Door - Count - Door – Count (Number) ~Tooltip: Specify the number of doors available

- Max Character Length: 5

Door - Material - Door – Material (Text) ~Tooltip: Detail the door material

- Max Character Length: 1024

DuoFlow System - DuoFlow System (Drop Down List) ~Tooltip: Does the equipment have duoflow

- Yes
- No

Duplex Printing - Duplex Printing (Drop Down List) ~Tooltip: Does the product support duplex printing

- Yes
- No

eBook – eBook (Drop down List) ~Tooltip: Is eBook option available

- Yes
- No

Edition – Edition (Text) ~Tooltip: Identify the edition information

- Max Character Length: 1024

Electric Start - Electric Start (Radio Button) ~Tooltip: Does the unit have electric start

- Yes
- No

Energy Star Compliant - Energy Star Compliant (Drop Down List) ~Tooltip: Is the unit Energy Star compliant

- Yes
- No

Engine - Size - Engine – Size (Text) ~Tooltip: Specify the size of the engine

- Max Character Length: 256

Engine - Specs - Engine – Specs (Text) ~Tooltip: Detail the engine specifications

- Max Character Length: 1024

Engine - Type - Engine – Type (Drop Down List) ~Tooltip: Specify the engine type

- Gasoline
- Diesel
- Digital
- Welding

Envelope Feeder - Envelope Feeder (Drop Down List) ~Tooltip: Does the product support envelop printing

- Yes
- No

Era – Era (Text) ~Tooltip: Identify the era of the art piece

- Max Character Length: 1024

Existing evidence - Existing evidence (Drop Down List) ~Tooltip: stone, wood or iron monuments, fences and occupational lines, witness trees, etc

- Yes
- No

Exterior Material - Exterior Material (Drop Down List) ~Tooltip: Specify the exterior material

- Vinyl
- Wood
- Shingles
- Panel
- Brick
- Stone/Masonry
- Mixed/Combination

External Controller - External Controller (Text) ~Tooltip: Specify external controller information of the product

- Max Character Length: 256

Eyepiece – Eyepiece (Text) ~Tooltip: Detail the eyepiece specifications

- Max Character Length: 1024

Finishing – Finishing (Text) ~Tooltip: Specify the finishing type of the unit

- Max Character Length: 256

Flooring - Material - Flooring – Material (Drop Down List) ~Tooltip: Specify the flooring material

- Carpet

- Vinyl
- Hardwood
- Concrete
- Tile
- Mixed/Combination

Focus Length - Focus Length – mm (Number) ~Tooltip: Specify the focus length of the equipment in millimeter

- Max Character Length: 5

Fork Height - Lowered - Lowered Fork Height – inches (Number) ~Tooltip: Specify the height when fork is lowered in inches

- Max Character Length: 4

Fork Height - Raised - Raised Fork Height – inches (Number) ~Tooltip: Specify the height when fork is raised in inches

- Max Character Length: 4

Fork Length - Fork Length – inches (Number) ~Tooltip: Specify the length of the Fork in inches

- Max Character Length: 4

Fork Thickness - Fork Thickness – inches (Number) ~Tooltip: Specify the thickness of the fork in inches

- Max Character Length: 4

Foundation – Foundation (Text) ~Tooltip: Detail the foundation specifications, e.g. poured concrete, dimension, etc

- Max Character Length: 1024

Frequency – Frequency (Text) ~Tooltip: Detail the frequency of the unit

- Max Character Length: 1024

Fuel - Capacity - Fuel - Capacity – gals (Number) ~Tooltip: Specify the maximum fuel capacity in gallons

- Max Character Length: 9

Fuel - Type - Fuel – Type (Text) ~Tooltip: Specify the fuel type

- Max Character Length: 1024

Garage Specs - Garage Specs (Text) ~Tooltip: Detail the garage specifications, e.g. dimension, material, etc

- Max Character Length: 1024

Generation – Generation (Text) ~Tooltip: Enter product generation information

- Max Character Length: 256

Genre – Genre (Text) ~Tooltip: Specify the genre

- Max Character Length: 1024

GVWR - Gross Vehicle (Number) ~Tooltip: Specify the GVWR

- Max Character Length: 7

Handle Width - Handle Width – inches (Number) ~Tooltip: Specify the width of the Handle in inches

- Max Character Length: 4

Hard Drive Config - Hard Drive Config (Text) ~Tooltip: Enter hard drive configuration of the product

- Max Character Length: 256

Headpiece – Headpiece (Text) ~Tooltip: Detail the headpiece specifications

- Max Character Length: 1024

Height - Height – inches (Number) ~Tooltip: Specify the height of the product in inches

- Max Character Length: 4

Height - Ceiling - Height - Ceiling – inches (Number) ~Tooltip: Specify the ceiling height in inches

- Max Character Length: 9

Height - Overall - Height – Overall (Text) ~Tooltip: Specify the overall height

- Max Character Length: 256

Horsepower - Shaft - Horsepower – Shaft (Number) ~Tooltip: Specify the shaft horsepower

- Max Character Length: 9

Horsepower – Horsepower (Text) ~Tooltip: Specify the horsepower

- Max Character Length: 1024

Hull Type - Hull Type (Text) ~Tooltip: Specify the hull type

- Max Character Length: 1024

HVAC Specs - HVAC Specs (Text) ~Tooltip: Detail the HVAC specifications

- Max Character Length: 1024

Illumination – Illumination (Text) ~Tooltip: Detail the illumination specifications

- Max Character Length: 1024

Individual Fork Width - Individual Fork Width – inches (Number) ~Tooltip: Specify the width of individual fork in inches

- Max Character Length: 4

Input capacity, Max - Input capacity, Max (Text) ~Tooltip: Specify the maximum input capacity

- Max Character Length: 256

Input capacity, Min - Input capacity, Min (Text) ~Tooltip: Specify the minimum input capacity

- Max Character Length: 256

Insulation Type - Insulation Type (Text) ~Tooltip: Detail the type of insulation

- Max Character Length: 1024

Interior Light - Interior Light (Drop Down List) ~Tooltip: Does the unit has interior lights

- Yes
- No

Internal Controller - Internal Controller (Text) ~Tooltip: Specify internal controller information of the product

- Max Character Length: 256

Internal Optical Drive - Internal Optical Drive (Text) ~Tooltip: Specify internal optical drive information of the product

- Max Character Length: 256

ISBN – ISBN (Number) ~Tooltip: Identify the ISBN

- Max Character Length: 13

Landing - Ground Roll - Landing - Ground Roll – ft (Number) ~Tooltip: Specify the ground roll required for landing

- Max Character Length: 9

Languages – Languages (Text) ~Tooltip: Specify the languages available

- Max Character Length: 1024

Launching System - Launching System (Text) ~Tooltip: Detail the launching system

- Max Character Length: 1024

Length - Base - Length - Base – inches (Number) ~Tooltip: Specify the base length in inches

- Max Character Length: 5

Length - Mattress - Length - Mattress – inches (Number) ~Tooltip: Specify the mattress length in inches

- Max Character Length: 5

Length - Overall - Length – Overall (Text) ~Tooltip: Specify the overall length

- Max Character Length: 256

Length - Trolley - Length - Trolley – inches (Number) ~Tooltip: Specify the trolley length in inches

- Max Character Length: 5

Lens Diameter - Lens Diameter – mm (Number) ~Tooltip: Specify the lens diameter of the equipment in millimeter

- Max Character Length: 5

License Available - License Available (Number) ~Tooltip: Specify the number of available licenses

- Max Character Length: 4

Light Bar - Light Bar (Radio Button) ~Tooltip: Does the item have a light bar

- Yes
- No

Lighting - Count - Lighting – Count (Number) ~Tooltip: Specify the number of lights available

- Max Character Length: 5

Lighting - Type - Lighting – Type (Text) ~Tooltip: Specify the lighting type, e.g. ceiling, lamp, pendant, etc

- Max Character Length: 1024

Load Center - Load Center – Lbs (Number) ~Tooltip: Specify the maximum load center in lbs

- Max Character Length: 7

Main Rotor Blade Span - Main Rotor Blade Span (Text) ~Tooltip: Detail the main rotor blade span

- Max Character Length: 1024

Maneuverable – Maneuverable (Radio Button) ~Tooltip: Is the item maneuverable

- Yes
- No

Max Power Rating - Max Power Rating (Text) ~Tooltip: Specify the maximum power rating

- Max Character Length: 1024

Max Takeoff Weight - Max Takeoff Weight (Text) ~Tooltip: Specify the maximum takeoff weight

- Max Character Length: 1024

Max Lifting Speed - Loaded - Max Lifting Speed – Loaded (Number) ~Tooltip: Specify the lifting speed, when fully loaded, in inches per second

- Max Character Length: 7

Max Lifting Speed - UnLoaded - Max Lifting Speed – UnLoaded (Number) ~Tooltip: Specify the lifting speed, when empty, in inches per second

- Max Character Length: 7

Max Travel Speed - Loaded - Max Travel Speed – Loaded (Number) ~Tooltip: Specify the maximum travel speed, when fully loaded, in mph

- Max Character Length: 7

Max Travel Speed - UnLoaded - Max Travel Speed – UnLoaded (Number) ~Tooltip: Specify the maximum travel speed, when empty, in mph

- Max Character Length: 7

Media Types - Media Types (CheckBox) ~Tooltip: Specify the supported scan media types

- Paper – Plain
- Paper – Inkjet
- Envelopes
- Labels, Cards

Medium/Material - Medium/Material (Text) ~Tooltip: Detail the medium/material used

- Max Character Length: 1024

Memory – Memory (Text) ~Tooltip: Specify memory information of the product

- Max Character Length: 256

Min System Requirements - Min System Requirements (Text) ~Tooltip: Specify the minimum system requirements for the product

- Max Character Length: 1024

Min Aisle Width - Minimum Aisle Width – inches (Number) ~Tooltip: Specify the minimum required aisle width in inches

- Max Character Length: 7

Min Ground Clearance - Minimum Ground Clearance – inches (Number) ~Tooltip: Specify the required minimum ground clearance in inches

- Max Character Length: 4

Min Turning Radius - Minimum Turning Radius – inches (Number) ~Tooltip: Specify the minimum required turning radius in inches

- Max Character Length: 5

Multifeed – Multifeed (Drop Down List) ~Tooltip: Does the product support multifeed

- Yes
- No

Nationality – Nationality (Text) ~Tooltip: Identify the nationality of the art piece

- Max Character Length: 1024

Network Adaptor - Network Adaptor (Text) ~Tooltip: Specify network adaptor information of the product

- Max Character Length: 256

Night Vision - Night Vision (Drop Down List) ~Tooltip: Does the equipment have night vision

- Yes
- No

Nosepiece – Nosepiece (Text) ~Tooltip: Detail the nosepiece specifications

- Max Character Length: 1024

Nbr of Axles - Nbr of Axles (Number) ~Tooltip: Specify the number of available axles

- Max Character Length: 4

Nbr of Crews - Nbr of Crews (Number) ~Tooltip: Specify the number of available crews

- Max Character Length: 9

Nbr of Floors - Nbr of Floors (Number) ~Tooltip: Specify the number of floors in building

- Max Character Length: 4

Nbr of Gas Tanks - Nbr of Gas Tanks (Number) ~Tooltip: Specify the number of available gas tanks

- Max Character Length: 9

Nbr of Revolving Machine Guns - Nbr of Revolving Machine Guns (Number) ~Tooltip: Specify the number of revolving machine guns

- Max Character Length: 9

Nbr of Rooms - Nbr of Rooms (Number) ~Tooltip: Specify the number of rooms

- Max Character Length: 4

Nbr of Wheels - Nbr of Wheels (Number) ~Tooltip: Specify the number of wheels

- Max Character Length: 4

Operating System - Operating System (Text) ~Tooltip: Enter operating system information of the product

- Max Character Length: 256

Operating Temperature - Operating Temperature (Text) ~Tooltip: Specify the operating temperature for the product

- Max Character Length: 256

Operating Type - Operating Type (Drop Down List) ~Tooltip: Specify the operating type of the equipment

- Automatic
- Manual

Output capacity, Max - Output capacity, Max (Text) ~Tooltip: Specify the maximum output capacity

- Max Character Length: 256

Output capacity, Min - Output capacity, Min (Text) ~Tooltip: Specify the minimum output capacity

- Max Character Length: 256

Output Energy - Output Energy (Text) ~Tooltip: Detail the output energy of the equipment

- Max Character Length: 1024

Overall Body Length - Overall Body Length – inches (Number) ~Tooltip: Specify the overall body length in inches

- Max Character Length: 4

Overall Body Width - Overall Body Width – inches (Number) ~Tooltip: Specify the overall body width in inches

- Max Character Length: 4

Paper Feed Method - Paper Feed Method (Text) ~Tooltip: What is/are the paper feed method of the product

- Max Character Length: 256

Patient Impedance - Max - Patient Impedance – Max (Text) ~Tooltip: Specify the maximum patient impedance level in Ohm

- Max Character Length: 256

Patient Impedance - Min - Patient Impedance – Min (Text) ~Tooltip: Specify the minimum patient impedance level in Ohm

- Max Character Length: 256

Portable – Portable (Radio Button) ~Tooltip: Is the unit portable

- Yes
- No

Ports Qty - Ports Qty (Number) ~Tooltip: Enter number of ports available of the product

- Max Character Length: 3

Power Supply - Power Supply (Text) ~Tooltip: Enter power supply information for product

- Max Character Length: 256

Power to Weight Ratio - Power to Weight Ratio (Text) ~Tooltip: Specify the Power-to-Weight ratio

- Max Character Length: 1024

Power Type - Power Type (Drop Down List) ~Tooltip: Specify the power type of the product

- Battery
- Gas
- Electric

Pressure Modes - Pressure Modes (Text) ~Tooltip: Detail the pressure modes

- Max Character Length: 256

Print Colors - Print Colors (Text) ~Tooltip: Specify the colors the product supports

- Max Character Length: 256

Processor – Processor (Text) ~Tooltip: Specify processor information of the product

- Max Character Length: 256

Product Line - Product Line (Text) ~Tooltip: Enter product line information

- Max Character Length: 256

Products – Products (CheckBox) ~Tooltip: Specify the Products include within the Suite

- Word
- Excel
- PowerPoint
- Visio
- SharePoint
- Publisher
- Project
- Outlook
- OneNote
- InfoPath
- Access

Propulsion Specs - Propulsion Specs (Text) ~Tooltip: Detail the propulsion specifications

- Max Character Length: 1024

Publisher – Publisher (Text) ~Tooltip: Detail the publisher information

- Max Character Length: 1024

Purpose – Purpose (Text) ~Tooltip: Detail the purpose of use for this equipment

- Max Character Length: 1024

Rack Units - Rack Units (Number) ~Tooltip: Enter number of rack units of the product

- Max Character Length: 3

Radar Specs - Radar Specs (Text) ~Tooltip: Detail the radar specifications

- Max Character Length: 1024

RAM – RAM (Text) ~Tooltip: Enter RAM information of the product

- Max Character Length: 256

Range - Range – nm (Number) ~Tooltip: Specify the range in nm

- Max Character Length: 9

Rate of Climb - Rate of Climb – fpm (Number) ~Tooltip: Specify the rate of climbs in feet per minute

- Max Character Length: 9

Rated amps - Rated amps (Text) ~Tooltip: Specify the rated amps

- Max Character Length: 1024

Record of Survey Plat - Record of Survey Plat (Drop Down List) ~Tooltip: filed with the Country Surveyor in the county where your property is located

- Yes
- No

Redundant Power - Redundant Power (Drop Down List) ~Tooltip: Does product support redundant power

- Yes
- No
- N/A

Resolution, Max - Max Resolution – psi (Number) ~Tooltip: Specify the maximum resolution of the product

- Max Character Length: 9

Resolution, Min - Min Resolution – psi (Number) ~Tooltip: Specify the minimum resolution of the product

- Max Character Length: 9

Roofing – Roofing (Text) ~Tooltip: Detail the roofing specifications

- Max Character Length: 1024

Rotor Mast - Rotor Mast (Text) ~Tooltip: Detail the rotor mast

- Max Character Length: 1024

Rotor Span - Rotor Span (Text) ~Tooltip: Specify the rotor span

- Max Character Length: 256

Run Flat Tires - Run Flat (Radio Button) ~Tooltip: Is the tire of the item flat

- Yes
- No

Run Time - Run Time (Text) ~Tooltip: Detail the run time information

- Max Character Length: 1024

Scan File Format - Scan File Format (CheckBox) ~Tooltip: Specify the supported scan file formats

- PDF
- TIFF
- G3
- G4
- LZW
- JPG
- BMP
- PNG
- DOC
- RTF
- TXT
- WPD
- XLS
- HTML
- OPF
- UNICODE
- XML
- XPS

Scan Size, Max - Scan Size, Max (Text) ~Tooltip: Specify the maximum scan size

- Max Character Length: 256

Scan Size, Min - Scan Size, Min (Text) ~Tooltip: Specify the minimum scan size

- Max Character Length: 256

Screen size - Screen size (Text) ~Tooltip: Specify the screen size

- Max Character Length: 256

Series – Series (Text) ~Tooltip: Specify the product series

- Max Character Length: 256

Service Ceiling - Service Ceiling (Text) ~Tooltip: Detail the service ceiling

- Max Character Length: 1024

Shape – Shape (Text) ~Tooltip: Shape of land

- Max Character Length: 1024

Shock Delivery - Shock Delivery (Text) ~Tooltip: Specify the type of shock delivery, e.g. Pads, Paddles, etc

- Max Character Length: 1024

Size – Size (Drop Down List) ~Tooltip: Specify the size

- XS
- S
- M
- L
- XL
- XXL
- XXXL

Sleeper Cab - Sleeper Cab (Radio Button) ~Tooltip: Does the item have a sleeper cab

- Yes
- No

Solid Resistance - Solid Resistance (Text) ~Tooltip: Specify the solid resistance requirement

- Max Character Length: 256

Speed - Cruise - Speed - Cruise- Knots (Number) ~Tooltip: Specify the cruise speed in Knots

- Max Character Length: 9

Speed - Max - Speed - Max – Knots (Number) ~Tooltip: Specify the maximum speed in Knots

- Max Character Length: 9

Speed - Stall - Speed - Stall – Knots (Number) ~Tooltip: Specify the stall speed in Knots

- Max Character Length: 9

Square Footage - Square Footage (Number) ~Tooltip: Specify the square footage

- Max Character Length: 9

Stabilizer Specs - Stabilizer Specs (Text) ~Tooltip: Detail the stabilizer specifications

- Max Character Length: 1024

Storage Temperature - Storage Temperature (Text) ~Tooltip: Specify the storage temperature requirement

- Max Character Length: 256

Style – Style (Drop Down List) ~Tooltip: Specify the unit style

- French Door
- Side-by-Side
- One Unit

Substage – Substage (Text) ~Tooltip: Detail the substage specifications

- Max Character Length: 1024

Suite – Suite (Drop Down List) ~Tooltip: Specify the Suite type of the product

- Professional
- Standard

Support Capabilities - Support Capabilities (CheckBox) ~Tooltip: Specify the support capabilities

- Anti-Air
- Anti-Surface
- Anti-Submarine
- Electronic Warfare
- Special Operations

Surround Air Flow - Surround Air Flow (Drop Down List) ~Tooltip: Does the unit has surround air flow

- Yes
- No

Suspension Specs - Suspension Specs (Text) ~Tooltip: Detail the suspension specifications, e.g. floorstand, etc

- Max Character Length: 1024

Takeoff - Ground Roll - Takeoff - Ground Roll – ft (Number) ~Tooltip: Specify the ground roll required for take-off

- Max Character Length: 9

Tank Size - Tank Size (Text) ~Tooltip: Specify the tank size

- Max Character Length: 1024

Tape Backup Software - Tape Backup Software (Text) ~Tooltip: Specify the tape backup software of the product

- Max Character Length: 256

Terrain – Terrain (Text) ~Tooltip: Describe terrain of land

- Max Character Length: 1024

Tilt - Lateral - Tilt – Lateral (Text) ~Tooltip: Specify the lateral tilt specifications

- Max Character Length: 256

Tire Size - Tire Size (Text) ~Tooltip: Specify the size of tires

- Max Character Length: 256

Transmission Type - Transmission Type (Drop Down List) ~Tooltip: Specify the type of transmission

- Automatic
- Manual

Traverse - Foot End - Traverse - Foot End – inches (Number) ~Tooltip: Specify the foot-end traverse in inches

- Max Character Length: 5

Traverse - Head End - Traverse - Head End – inches (Number) ~Tooltip: Specify the head-end traverse in inches

- Max Character Length: 5

Trendelenburg – Trendelenburg (Text) ~Tooltip: Specify the trendelenburg specifications

- Max Character Length: 256

Trendelenburg - Reverse - Trendelenburg – Reverse (Text) ~Tooltip: Specify the reverse trendelenburg specifications

- Max Character Length: 256

Trunk Size - Size of Trunk (Text) ~Tooltip: Specify the size of trunk

- Max Character Length: 256

Turbocharged – Turbocharged (Drop Down List) ~Tooltip: Is the equipment turbocharged

- Yes
- No

Type of Ship - Type of Ship (Text) ~Tooltip: Specify the type of ship

- Max Character Length: 1024

Type of Track - Type of Track (Text) ~Tooltip: Specify the type of track

- Max Character Length: 1024

USB Port - USB Port capable (Drop Down List) ~Tooltip: Does the product USB connection

- Yes
- No

USB Port Qty - USB Port Qty (Number) ~Tooltip: Identify the number of available USB ports

- Max Character Length: 2

Vegetation – Vegetation (Drop Down List) ~Tooltip: Is there trees, bushes, etc

- Yes
- No

Version – Version (Text) ~Tooltip: Specify the version of the product

- Max Character Length: 256

Voltage – Voltage (Text) ~Tooltip: Specify the operating voltage for the product

- Max Character Length: 256

Volume Modes - Volume Modes (Text) ~Tooltip: Detail the volume modes

- Max Character Length: 256

Wall Specs - Wall Specs (Text) ~Tooltip: Detail the wall specifications

- Max Character Length: 1024

Water Resistance - Water Resistance (Text) ~Tooltip: Specify the water resistance requirement

- Max Character Length: 256

Water/Ice Dispenser - Water/Ice Dispenser (Drop Down List) ~Tooltip: Does the unit has water/ice dispenser

- Yes
- No

Waveform – Waveform (Text) ~Tooltip: Detail the waveform information of the equipment

- Max Character Length: 256

Weight - Weight – Lbs (Number) ~Tooltip: Specify the weight of the product in lbs

- Max Character Length: 4

Weight - Empty - Weight - Empty – lbs (Number) ~Tooltip: Specify the empty weight in lbs

- Max Character Length: 9

Weight - Gross - Weight - Gross – lbs (Number) ~Tooltip: Specify the gross weight in lbs

- Max Character Length: 9

Weight - Trolley - Weight - Trolley – lbs (Number) ~Tooltip: Specify the trolley weight in Lbs

- Max Character Length: 5

Weight Limit - Max - Weight Limit - Max – lbs (Number) ~Tooltip: Specify the maximum weight limit in Lbs

- Max Character Length: 5

Wheel Size - Wheel Size (Text) ~Tooltip: Detail the wheel size

- Max Character Length: 1024

Wheels – Wheels (Radio Button) ~Tooltip: Are wheels available on the unit

- Max Character Length: 9999
- Yes
- No

Width - Width – inches (Number) ~Tooltip: Specify the width of the product in inches

- Max Character Length: 4

Width - Base - Width - Base – inches (Number) ~Tooltip: Specify the base width of the equipment in inches

- Max Character Length: 5

Width - Brake - Width - Brake – inches (Number) ~Tooltip: Specify the brake (off) width in inches

- Max Character Length: 5

Width - Cotside - Width - Cotside – inches (Number) ~Tooltip: Specify the cotside width in inches

- Max Character Length: 5

Width - Mattress - Width - Mattress – inches (Number) ~Tooltip: Specify the mattress width in inches

- Max Character Length: 5

Width - Overall - Width – Overall (Text) ~Tooltip: Specify the overall width

- Max Character Length: 256

Width - Side Rail - Width - Side Rail – inches (Number) ~Tooltip: Specify the side rail width in inches

- Max Character Length: 5

Window - Count - Window – Count (Number) ~Tooltip: Specify the number of windows available

- Max Character Length: 5

Window - Material - Window – Material (Text) ~Tooltip: Detail the window material

- Max Character Length: 1024

Window - Type - Window – Type (Text) ~Tooltip: Detail the window type, e.g. pull up, tilt, etc

- Max Character Length: 1024

Wing Span - Wing Span (Text) ~Tooltip: Detail the wing span

- Max Character Length: 1024
