

Effective Date

26 February 2021

Release Notes Overview

Release 2021.1.1 for the Defense Property Accountability System (DPAS) was released on February 26, 2021.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts Appointment Scheduler, eCatalog, Property Accountability and Warehouse Management modules.

Appointment Scheduler

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01622 – Notification, Notification Metrics

- Added Notification functionality to Appointment AUD
- Added Notification metrics to the Appointment Inquiry and Appointment Metrics report.

eCatalog

Help Tickets

The following eCatalog Help Ticket was closed by this release:

Stock Number AUD (LPCTN01)

Help Ticket #48232

- Corrected a deficiency where resurrected stock numbers were showing an incorrect unit price.

Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

IT Dashboard (WPITN04)

Help Ticket #42080

- Corrected a deficiency where the IT dashboard was not loading in a timely manner.

Close Inventory (WPHRN03)

Help Tickets #42140, #49375

- Corrected a deficiency where users closed an inventory and entered a Last Inventory Date, that last inventory date incorrectly updated to the current date.

Asset Transfer (WPHRN52)

Help Ticket #47234

- Corrected a deficiency when users attempted a bulk asset transfer, a process failed notification displayed.

Asset Receiving (WPHRN11)

Help Ticket #49254

- Created 2 Agency labels for DC-DECA under the Agency Tab:
 - Agency label 3 - Contract Number (field is 14 characters in length)
 - Agency label 4 - Order Number (field is 14 characters in length)

Agency Settings Update (WPUTN09)

Help Ticket #49625

- Corrected a deficiency where users were not able to change the Document Number successfully.

Warehouse Management (WM) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01610 – Physical Inventory Count 0

- Added new Action “UA – Unavailable for Inventory” to be displayed in Reconciliation when the Discrepancy Type = ‘SH – Shortage’ and Inventory Quantity = 0
- When “UA – Unavailable for Inventory” is used, the Date of Last Inventory (DOLI) will not be updated as a result of Reconciliation.

SCR #01630 – Include Safety Stock %

- Added Size and Size Category columns to LPWHR82 – Inventory Over Under Report.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Material Release Order (LPWHN35)

Help Ticket #38302

- Corrected a deficiency where a denied MRO that was created from a DLMS transaction was still appearing on the To Do list on the home page.

Individual Returns (LPWHN46.1)

Help Ticket #47083

- Corrected a deficiency where filtering the assets by Owning DoDAAC and using the Select All checkbox at the same time, still displayed the assets that were supposedly filtered out.

Appointment Inquiry (LPWHQ87)

Help Ticket #48493

- Warehouse Technician role is updated with Appointment Inquiry.

Electronic Signature Control (LCGLX18)

Help Ticket #42814

- Topaz Signature pads were not working in Google Chrome for all Issue and Return Processes. An alternative solution was put in place to utilize a mouse or stylus pen to sign within a signature block on the screen to complete the transaction.

Warehouse Receiving (LPWHN19)

Help Ticket #49046

- Corrected a deficiency when a Warehouse Transfer was cancelled from the Receiving (gaining) side, the reversal DLMS transaction was not sent to ICP to indicate the cancellation.

Unit Issue (LPWHN34)

Help Ticket #29560

- Corrected a deficiency where a Required Kit Verification would create conflicts with outstanding items.
