Release Notes Overview

Release 2021.1 for the Defense Property Accountability System (DPAS) was released on February 5, 2021.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts Appointment Scheduler, eCatalog, Property Accountability, Maintenance and Utilization, Materiel Management and Warehouse Management modules.

Appointment Scheduler

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01470 – Unit Scheduling Capability

- Added capability for unit custodians to log in and schedule appointments for unit issues and returns.
 1. Added ability to choose the type of service, i.e. Unit Issue and Unit Return.
 2. Unit custodians can schedule and update appointments for their unit(s) through Member Access.

eCatalog

Help Tickets

The following eCatalog Help Ticket was closed by this release:

Stock Number AUD (LPCTN01)

Help Ticket #45351

- Enhanced Part Number to accept 5 characters, instead of the usual 6-character requirement.

Maintenance and Utilization (M&U) Module

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01532 – Centralized Work Order Creation

- The Maintenance Schedule ID Prefix AUD is a part of the larger feature for Schedule Preventive Maintenance that will be released at a later date. The Prefix will not yet affect any other process.

Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

Work Order AU (WPMAN12)

Help Ticket #45283

- Corrected a deficiency where the wrong M&U work order parts records were updated from maintenance issue deferred parts records in Warehouse, after the deferred parts were re-ordered in a new work order and issued from maintenance issue in Warehouse.

Help Ticket #45378

- Corrected a deficiency where a part ordered from Warehouse in M&U Work Order was back-ordered or partially back-ordered in Warehouse Maintenance Issue, upon deferring the part, the maintenance issue status was incorrectly set.

Materiel Management (ICP) Module

Help Tickets

The following Materiel Management Help Tickets were closed by this release:

CFO Accounting Report (LPMAR03)

Help Ticket #40907

- Corrected a deficiency where duplicate transactions were displaying on the CFO Report.

Help Ticket #48870

- Corrected a deficiency where changing the UI type while cataloging new stock cards was causing an error.

Property Accountability (PA) Module

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01177 – Generate Outbound 527Rs from PA

- The Property Accountability module is able to send a 527R transaction from a Locally Created Due-In that was initiated from the Requisition process in ICP. Under this scenario, the PA module will send a 527R receipt to the ICP and a 527R MRA to the Source of Supply.

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Asset Inquiry (WPHRQ14)

Help Ticket #31559

- Corrected a deficiency where users were not able to view attachments in Chrome.

Help Ticket #28564

- Corrected a deficiency where the attachment viewer was not displaying a pop-up window in Chrome.

FSM Asset Authorization Report (WPAUR24)

Help Tickets #47204, #48394

- Corrected a deficiency where FSM Asset Authorization Report was erroring for certain AUIC's in FSM.

Warehouse Management (WM) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01375 – ICN Inquiry - Issued To Inquiry

- Enhanced serialized assets to include the issue type as 'Individual' or 'Unit', then identify the UIC it was issued to, then identify the member associated with the issue.

SCR #01639 – Lock down adding ability to Attributes for Warehouse Officer only

- Moved the creation and editing of Member Attribute Groups and Attribute Names to a specific role only.

SCR #01567 – Add columns to the DLMS Transaction Inquiry

- Added the following columns to Inventory Activity: Stores Account Code (SAC), Warehouse DoDAAC, Transaction ID, Extended Price, Changed Quantity, Location Type Code, and Recover Code.

SCR #01378 – Add Additional Fields To Receive Screen

- Added the Stock Number Item Description to the Verified and Accept steps of the Receiving pop-up window in Warehouse Receiving.

SCR #01645 – DLA Required Changes for VA PPE Mgmt

- Expanded the Special Instructions field from 30 to 1,024 characters.

SCR #01597 – Materiel Movement - Header Updates & Camera Scanning

- The following enhancements were implemented to the Materiel Movement (AIT) process:
 1. Added 'Unplanned Move' to AIT menu navigation path.
 2. Loaded the Warehouse Menu.
 3. Included UserID/Open Action Links & DPAS Home shortcut.
 4. Enabled Camera Scanning.

SCR #01643 – Generate DLMS 867I For Materiel Release Order

- Users are now able to request an additional 867I DLMS Transaction to be sent alongside a 945A when a Materiel Release Order is shipped. Users can identify the owning DoDAACs that require the 867I, and identify the Product Transfer Type code that will be on the 867I through a DoDAAC Series, Product Transfer Type Code association that references the Document number of the MRO.

SCR #01622 – Check-In KIOSK – Preliminary Setup

- Appointment-metric related parameters were added to the Appointment Inquiry, and a new Appointment Metrics Report was added that summarizes the metrics data for appointments within a specified date range.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Unit Issue (LPWHN34)

Help Ticket #47881

- Corrected a deficiency where DD 1348-1A was not exporting for Unit Issue Requests.

Individual Returns (LPWHN46.1)

Help Ticket #47083

- Corrected a deficiency where filtering the Individual Return grid and using the Select All checkbox now only selects the records resulting from the grid filter.

Manage Physical Inventory (LPWHN53)

Help Ticket #46882

- Corrected a deficiency when users trying to complete the physical inventory process received an error message.

Maintenance Issue Inquiry (LPWHQ86)

Help Ticket #44714

- Corrected a deficiency where Maintenance Issue Inquiry was taking too long to bring back the results.
- Enhanced performance on populating the expanding details and results on Maintenance Issue Inquiry.

Quality Control Management (LPWHN56)

Help Ticket #47731

- Corrected a deficiency where Inventory Activity Inquiry was not displaying the correct Condition Code when performing a bulk Stock Number location move.

Maintenance Issue (LPWHN71)

Help Ticket #42770, #42840

- Corrected a deficiency where the deferred parts were not making it change to an inactive maintenance issue.

Warehouse Receiving (LPWHN19)

Help Ticket #43728

- Corrected a deficiency where Due-In Records were not generating for documents that are shared between NSWC and SOCOM.

Unit Issue (LPWHN34)

Help Ticket #47881

- Corrected a deficiency where DD 1348-1 was not exporting for Unit Issue Requests.
