2 July 2021

Release Notes Overview

Release 2021.2.2 for the Defense Property Accountability System (DPAS) was released on July 2, 2021.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts eCatalog, Maintenance and Utilization, Materiel Management, Property Accountability, and Warehouse Management modules.

eCatalog Module

Help Tickets

The following eCatalog Help Tickets were closed by this release:

Stock Number AUD (LPCTN01)

Help Ticket #42670

- Corrected a deficiency where a period (.) could not be utilized in a Stock Number.

AESIP Catalog Data Validation and Staging (LPCTI28)

Help Tickets #53057, #54170

- Corrected a deficiency where the AESIP Catalog Data Validation and Staging / Update of interfaced Manufacturer Part Number information would not update correctly.

Maintenance and Utilization (M&U) Module

System Change Request (SCR)

The following feature, which is a part of Maintenance and Utilization SCR 01532, was implemented by this release:

SCR #01532 - Additional User Functionality to Schedule Preventive Maintenance

- Additional User Functionality to Schedule Preventive Maintenance is adding two things to the functionality:
  - Tier selector on the header of the new pages.
  - Adding the Work Plan field to the Maintenance Schedule search criteria.

Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

Requisition (LPRMN01)

Help Ticket #54699

- Corrected a deficiency where Intellisense does not populate the document number.

Help Ticket #54704

- Corrected a deficiency where filtering by "ends with" required whole word or string of numbers.

Help Ticket #54706

- Corrected a deficiency where the ordered date query displayed no results when using 'equal to' with the current date.

Help Ticket #54710

- Corrected a deficiency to update the Priorities Lookup Table for ILS-S to use their Priority Codes rather than the Requisition Priority Codes.

Help Ticket #54713

- Corrected a deficiency where the ILS-S Field is titled "Base Supply/Deployed SRAN", thereby replacing "Base Supply DoDAAC".

Help Tickets #54997, #55000

- Corrected a deficiency where Draft Ordered Date/Time was being saved as Ordered Date when the Requisition is submitted days later.

Materiel Management (ICP) Module

System Change Request (SCR)

The following feature, which is a part of Materiel Management SCR 01706, was implemented by this release:

SCR #01706 – ICP Catalog Roles

- DPAS added a new role to the ICP that allows users to access the Catalog Management related screens. These screens will permit access for catalogers while logged into the ICP.

Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Address Directory AUD (WPUTN13)

Help Ticket #54297

- Corrected a deficiency where adding an address displays an "83 unexpected" error.

Depreciation Forecast Report (WPACR42)

Help Tickets #51394, #52308

- Corrected a deficiency where the Depreciation Forecast Report Detail by Asset would resolve to an error status.

Warehouse Management (WM) Module

System Change Request (SCR)

The following feature, which is a part of Warehouse SCR 01643, was implemented by this release:

SCR #01643 – Logistics Program DoDAAC Series

- Provided capability to add a Fund Code to a DoDAAC Series Product Transfer Type Code association for a BJ - Relocation (D7K).

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Document Inquiry (LPWHQ79)

Help Ticket #51926

- Corrected a deficiency where Document Inquiry / Search Criteria for Document Type does not include all values.

Help Ticket #51045

- Corrected a deficiency where Requesting Dispositions Inquiry output did not provide a column for "Disposal Date".
