18 February 2022

Release Notes Overview

Release 2021.4.3 for the Defense Property Accountability System (DPAS) was released on February 18, 2022.

This release includes System Change Requests and corrects program deficiencies identified by the user community. The update impacts Maintenance and Utilization, Property Accountability, and Warehouse Management modules.

Maintenance and Utilization (MU) Module

System Change Request (SCR)

The following feature, which is a part of Maintenance and Utilization SCR 01739, was implemented by this release:

SCR #01739 - Create M&U Role for Custodian-RO-RI

- Created a Role named M&U Custodian. With this role the user will be able to create and close out a WO, Update the WO, Create Warranties and create preventive maintenance schedules. However, this role is limited in the WO process as users will not have the ability to update the following Sub WO Tabs: Tasks, Parts, Tool/Equipment, and Certs.

Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

Asset Preventive Maintenance Schedule Inquiry (WPMAQ08)

Help Ticket #63100

- Corrected a deficiency where Schedule Maintenance Inquires were not populating Last Utilization Quantity.

Work Plan Id Browse (WCMAM13)

Help Ticket #60520

- Corrected a deficiency where the created Maintenance Schedules Work Plans were not returning in the search results box.

Maintenance Schedule AUD (WPMAN46)

Help Ticket #62694

- Corrected a deficiency where the deleted Schedules were still showing up under Assets.

DPAS Home (WPSEN01)

Help Ticket #61288

- Corrected a deficiency where the M&U bottom status bar was rendering mid-page after a time, even after the cache was cleared.

Work Order AU (WPMAN12)

Help Ticket #62919

- Corrected a deficiency where the users were not able to select a Required Delivery Date in the Parts Tab.

Help Tickets #63002, #61093

- Corrected a deficiency where the Work Orders were taking a long time to close out.

Property Accountability (PA) Module

System Change Request (SCR)

The following feature, which is a part of Property Accountability SCR 01619, was implemented by this release:

SCR #01619 – Project Planning – Planning Report

- Created a report that provides the user an overview of all their projects within Project Planning by POC, Status, Phase, and Installation.

Warehouse Management (WM) Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Help Ticket #54003

- Corrected a deficiency where filtering on Print Status with 'Not Yet Printed' was causing an error on Materiel Release Order.

Member Profile AUD (LPWHN25)

Help Ticket #60837

- Corrected a deficiency where My Query on Member Profile was missing.
