

Effective Date

15 July 2022

Release Notes Overview

Release 2022.1.6 for the Defense Property Accountability System (DPAS) was released on July 15, 2022.

This release corrects program deficiencies identified by the user community. The update impacts the Catalog and Warehouse Management module.

Catalog Module

Help Tickets

The following Catalog Help Tickets were closed by this release:

Stock Number (AUD) (LPCTN01)

Help Ticket #64938

- Corrected a deficiency where the “X” used to clear the Stock Number and Description fields was not functioning.

Warehouse Management (WM) Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

ICN Inventory Inquiry (LPWHQ47)

Help Ticket #62852

- Corrected a deficiency where a Critical Error would occur during the ICN Inventory Inquiry when the Show Components checkbox was checked.

Help Tickets #30072, #25736

- Corrected a deficiency when pulling an Enterprise ICN Inventory, the system would become unresponsive and eventually generate an Unexpected Error message.

Member Profile (AUD) (LPWHN25)

Help Ticket #69163

- Corrected a deficiency where access to the MCTFS file was not functioning properly.

DLMS 846R - Location Reconciliation Report (LPGLM30)

Help Ticket #69081

- Corrected a deficiency where the Logistics Data Gateway (LDG) wasn’t displaying the DPAS outbound 846R/DZHs.

The following internal reported deficiency was corrected:

Inventory Adjustment Activity Review Report (LPWHN97)

TFS ID #93601

- Corrected a deficiency where the report date did not accurately reflect the transaction date of the data presented.
