

## Effective Date

30 August 2019

## Release Notes Overview

Release 7.1.20 for the Defense Property Accountability System (DPAS) was released on Aug 30, 2019.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts eCatalog, Property Accountability, Registry and Warehouse modules.

### eCatalog

#### System Change Request (SCR)

The following feature which is a part of eCatalog SCR 1377

was implemented by this release:

##### SCR #1377 – Daily FLIS Updates

- Activated FLIS web service to retrieve daily catalog updates. This will establish/maintain current catalog data within DPAS.

#### Help Tickets

The following eCatalog Help Tickets were closed by this release:

#### *Stock Number AUD (LPCTN01)*

##### Help Ticket #30434

- Reactivated previously deleted stock numbers in PA and changed Cancel button to OK button.

### Property Accountability (PA) Module

#### System Change Request (SCR)

The following feature which is a part of SCR 1148 was implemented by this release:

##### SCR #1148 – GCSS-AF LIMS-EV Data Services Interface Modification

- Modified existing interface to include data related to equipment management and additional vehicle information.

### Registry

#### System Change Request (SCR)

The following feature which is part of Registry SCR 1303 was implemented by this release:

##### SCR #1303 – Add Capabilities for Report Manager

- DPAS Registry will send a Receipt Follow-Up (140A) to Component Registries that have a Past Due Receipt.

## Warehouse Management (WM) Module

### System Change Request (SCR)

The following feature which is a part of SCR 1479 was implemented by this release:

SCR #1479 – Individual Issue/Return Technician

- Created a role to provide access to only the Individual Issue and Return processes, and related reports or inquiries.

The following feature which is a part of SCR 1480 was implemented by this release:

SCR #1480 – Individual Sales Analyst Role

- Created a role that grants read-only access to the Member Sales Report.

The following feature which is a part of SCR 1162 was implemented by this release:

SCR #1162 – Editable Unit Cost in WH Maint Issue

- Added ability to make Unit Cost editable in Maint Issue for customer parts ordered.

### Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

#### *Shelf Life Condition Code Determination Common Control (LCGLX23)*

Help Ticket #25530

- Corrected a deficiency where an item in a kit was downgrading the overall kit to G rather than setting it to the correct condition code.

#### *Inspection AUD (LPWHN88)*

Help Ticket #27033

- Corrected a deficiency where Next Inspection Date was disappearing when updating Kit components, or selecting items for inspection.

#### *Materiel Release Order (LPWHN35)*

Help Ticket #31025

- Corrected a deficiency wherein when shipping kits through MRO, if the items were sent to QC after the pick to move them into the issue location, the new location for the components of the kit was not reflected in QC, causing a “Source Inventory Not Found” error on completing the QC.

#### *Manage Physical Inventory (LPWHN53)*

SAT Defect #19

- Corrected a deficiency where a filter was applied and Apply All was selected, all inventory was selected, including items that should have been filtered out.

### *Warehouse Receiving (LPWHN19)*

Help Ticket #30271

- Corrected a deficiency where receiving was erroring when DoDAAC was not changed.

The following help desk ticket, which was originally part of rel 7.1.10, was rereleased as part of 7.1.20 release.

### *Stock Number AUD (LPCTN01)*

Help Ticket #28495

- Corrected a deficiency where the reportable code in eCatalog was uneditable.
