Release Notes Overview

Release 7.2.40 for the Defense Property Accountability System (DPAS) was released on January 31, 2020.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts eCatalog and Warehouse modules.

eCatalog

System Change Request (SCR)

The following feature which is a part of eCatalog SCR 1016 were implemented by this release:

SCR #1016 – DPAS eCatalog

- Established a new catalog data interface. Organizations can provide stock nbr data thru standard 832N DLMS transactions to be directly processed into a single DPAS catalog. This will initially be used by the AF-GFM group.

The following feature which is a part of eCatalog SCR 1016 were implemented by this release:

SCR #1573 – AEMM Bulk MGN

- Removed a business rule that was defaulting NULL serialization to Bulk for the AESIP Catalog interface. This will enable the DPAS catalogers the ability to determine how assets will be categorized - bulk or serial.

Help Tickets

The following eCatalog Help Ticket was closed by this release:

Stock Number AUD (LPCTN01)

Help Ticket #34299

- Corrected a deficiency where Asset transfers of bulk managed items were erroring.

Warehouse Management (WM) Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:
