Web Release 2.1.00 for the Defense Property Accountability System (DPAS) effort was released on 10 April 2012. There is no action required by the user to receive the update.

---

System Change Request (SCR) in this release:

The following capabilities are being provided with this SCR:

DPAS - 00327 - UII Generation. This change modifies the values used in the formation of the UII that DPAS generates. DPAS will concatenate the Assigning DODAAC and a sequential Serial Number. Prior to this change, DPAS concatenated the Assigning DODAAC and the Asset Id of the asset. This methodology caused occasional conflicts when the user changes the Asset Id of an asset that DPAS has generated an UII for, then decides to assign the Asset Id to another asset, then wants to generate an UII for that asset. UIIs must be unique, which in this scenario would not have been, thus an UII could not be generated for the second asset. Remedy Tickets 97182 and 97748 were also addressed.

- **Generate UII - WPSAB30** - Generate UII.

The following capabilities are being provided with this SCR:

DPAS - 00327 - Authorizations/Cost Center. This modification provides added capabilities to support additional cost centers that may be required when managing assets to Authorizations for Army users.

- **Improvement Add/Update/Delete - WPACN02** - Process was modified to add the Owing Cost Center, changed the Cost Center to Funding Cost Center and incorporated the Cost Center Browse for all users.
- **Real Property Add/Update/Delete - WPACN11** - Process was modified to add the Owing Cost Center, rename Cost Center to Funding Cost Center and implement the Cost Center Browse for all users.
- **CIP Project Add/Update/Delete - WPACN15** - Process was modified to add the Owing Cost Center, changed the Cost Center to Funding Cost Center and incorporated the Cost Center Browse for all users.
- **Cost Center Add/Update/Delete - WPAUN17** - Added a new process for the user to create and manage Cost Centers that will now be table driven rather than a text entry field. Cost Centers can now have a maximum length of thirty (30) characters (up from eleven (11)), except when accounting system requirement requires something other than this.

DPAS will provide support for the following three types of Cost Centers:

1. Owing (Owng) - The organization currently responsible for the asset.
2. Funding (Fndng) - The organization that funded the purchase of the asset.
3. Depreciation (Deprn) - The organization that is to be charged for the Depreciation Expense of the asset.

Cost Centers can be established with a Beginning Date, Expiration Date and can be temporarily frozen should the need arise.

- **Asset Receiving/Asset Receiving Background - WPHRN11/WPSAB13** - Process was modified to add the Owing Cost Center, changed the Cost Center to Funding Cost Center and incorporated the Cost Center Browse for all users.
- **Asset Disposition - WPHRN29** - Process was changed to add the Owing Cost Center and LIN/TAMCN to the results display grid.
- **Asset Update/Asset Update Background State - WPHRN51/WPSAB17** - Process was modified to add the Owing Cost Center, changed Cost Center to Funding Cost Center and to add browses for the two Cost Centers.
- **Asset Transfer/Asset Transfer Background State - WPHRN52/WPSAB15** - Process was modified to add the Owing Cost Center, changed Cost Center to Funding Cost Center and to add browses for the two Cost Centers.
- **Disposition Reversal Background State - WPSAB21** - If the Cost Center for Re-Activated Asset is no longer active, Re-Activate Cost Center upon restore of the asset.
- **Auto Create Soft Improvements Batch - WPSAB46** - Process was modified to include the Owing Cost Center as part of the Improvement creation.
- **Cost Center Browse - WCGLM51** - Cost Center Browse was modified to support the Owing Cost Center and to provide support of all accounting system interfaces.
- **Cost Center Inquiry - WPHRQ38** - New inquiry to support viewing of Cost Centers.
- **User Preference Update - WPSSEN06** - Change "Cost Center" to "Fndng Cost Center" on the screen.

The following capabilities are being provided with this SCR:

DPAS-00327 - Maintenance and Utilization.

- **Maintenance Asset Profile Add/Update/Delete - WPMAN10** - The process was modified to add Dispatch Sub-Category, Dispatch Unavailable Code and modified the list of Dispatch Types by adding "No Dispatch". The modifications were made in preparation for the Dispatch module to be delivered in Release 2.2.00.
- **Dispatch Category Add/Update/Delete - WPMAN32** - New process that provides the user with the capability to manage User Defined Dispatch Categories and Sub Categories.
- **Maintenance Asset Inquiry - WPMAQ10** - Modified Asset Profile Inquiry to show the new fields that were added in support of the Dispatch Module.
- **Dispatch Category Inquiry - WPMAQ23** - New Dispatch Category Inquiry. The inquiry displays the fields: "MAINT ACTIVITY/OWNING UIC", "DISPATCH CTGRY", DISPATCH CTGRY DESC", "DISPATCH CTGRY LONG DESC", "SUB CTGRY" and "ASSET CNT".
- **Work Order Legacy History Inquiry - WPMAQ25** - New Work Order Legacy History Inquiry. It will be used to warehouse the Closed Work Orders that will be transistioned from GUI DPAS later this year.
- **Equipment Utilization Form Request / Equipment Utilization Form - WPMAR09 / WPMAR10** - New process that provides the user with the capability to request and print a Blank Utilization Form, Utilization Form with Asset Information, Utilization Form with Asset Information and the Inspection List or the Inspection List.

The following capabilities are being provided with this SCR:

DPAS-00327 - SB700. This SCR provides support for the Army's SB700-20 Agency specific Catalog data. The DPAS user can determine if they wish to use this data or forgo using this data. The decision is based at the Catalog Name level.

- **Stock Number Add/Update/Delete / Stock Number Browse - WPCTN01 / WCGLM12** - Added a new tab to manage Agency Catalog fields that are being added in this release. For those sites that have selected to receive Agency Catalog data, the process will automatically read the Agency Catalog table on the "Add" action. When a matching Stock Number is found, it will retrieve the Agency values and disable the fields from update. As part of the "Add" action, the process will also automatically insert the corresponding LIN/TAMCN into the LIN/TAMCN table when it does not exist for the selected Stock Number. The Stock Number Browse was modified to allow the users who have selected the option of accepting an Agency Catalog feed to search/select Stock Number from their Agency's Catalog.
- **LIN/TAMCN Add/Update/Delete - WPCTN11** - The process was modified to allow retrieval of LIN/TAMCN and associated description supplied by the User Agency Catalog.
- **Stock Number Inquiry - WPCTQ01** - The process was modified to show the new "Agency" data fields.

- **Stock Number History Inquiry - WPCTQ02** - The process was modified to show the new "Agency" data fields.
- **Agency Catalog Inquiry - WPCTQ05** - New inquiry that will permit the user to query their Agency Catalog Information when their Agency provides a master feed of Agency Specific Catalog Data. Initially the Agency Catalog Inquiry will be used to view SB700-20 Catalog data.
- **Stock Number Mass Update Batch - WPSAB18** - Modified to support the additional Agency data fields that were added in this release.
- **SB700-20 Agency Catalog Import - WPSAB28** - New process that will read the inbound data and post it to the Agency Catalog Inbound table.  
Note: This background process will be transparent to the user.
- **SB700-20 Agency Catalog Stock Number Import - WPSAB39** - New process that will compare the newly supplied Agency Catalog Data to the previously supplied Agency Catalog data. Differences will be posted to the Agency Stock Numbers Table and will be used to update the User's Catalog when the user has requested their Catalog be updated using Agency Catalog data.
- **SB700-20 Agency Catalog LIN/TAMCN Import - WPSAB55** - New process that will compare the newly supplied LIN/TAMCN Agency Catalog Data to the previously supplied Agency Catalog data. New LIN/TAMCN will be inserted into the Agency LIN/TAMCN Table and description changes will be applied to the Agency LIN/TAMCN Table and will be used to update the User's Catalog when the user has requested their Catalog be updated using Agency Catalog data.
- **LIN/TAMCN Browse - WCGLM47** - Modified LIN/TAMCN Browse to query the Agency LIN/TAMCN table. The ability to query the Agency LIN/TAMCN table will only be available to those users who have requested their Catalog Utilize the Catalog data supplied by their Agency.

The following capabilities are being provided with this SCR:

DPAS-00523. This SCR provides the capability to display user roles for all DPAS applications.

- **User Status Inquiry - WPSEQ05** - Modified the process to display roles for all DPAS applications (Property Accountability, Supply Store and Maintenance and Utilization). Process was only displaying roles for the Property Accountability application prior to the change. This SCR also addressed Remedy Ticket 96719 and PTR 9679.

This release contains the following Program Trouble Reports (PTRs):

### **Accounting**

**Depreciation Update - WPACN10** - Corrected the Prior Depreciation process to adjust the accumulated depreciation properly for an asset. Process was modified to incorporate the Cost Center Browse for all accounting systems. Cost Center Edits will be based upon the Accounting System the Depreciation Expense is being reported to. Remedy Ticket 98525 applies. PTR 9878 applies.

**Cross Level Expenditure Data with Assets - WPSAB47** - Corrected the method of updating CIP Project Acquisition Total Cost when Project Type is "Average Cost, Single Asset". Acquisition Total Cost should be updated using the same formula that is being used to update CIP Project Acquisition Dollar Amount. PTR 9832 applies.

**Appropriation Browse - WCGLM57** - User reported that the functional requirements document states that the "\*" wildcard can be used to search in all fields. User received an error when searching by wildcard in the Subhead and Program Year. Process was corrected to allow wildcard search in the Subhead and Program Year. Remedy Ticket 97989 applies. PTR 9786 applies.

### **Asset Management**

**CIP Asset/Improvement Add/Update/Delete - WPACN16** - User reported missing update and delete hyperlinks for CIP Asset. The grid index was corrected to increment properly to display the update/delete hyperlinks. Remedy Ticket 95894 applies. PTR 9810 applies.

**CIP Attestation Add/Delete - WPACN22** - User reported a problem with the Attestation Certification Date showing the wrong Fiscal Year. Process was corrected to display the correct Fiscal Year. Remedy Ticket 97350 applies. PTR 9694 applies.

**Inventory Management Plan Update - WPHRN01/WPHRN05** - User reported receiving Error 83 when updating the Inventory Management Plan. Process was corrected to process transactions properly. Remedy Ticket 97720 applies. PTRs 9730 and PTR 9739 apply.

**Asset Update - WPHRN51** - User reported receiving error "object reference not set to an instance of an object" while trying to process Location Update for Bulk Assets. The process was corrected to allow the location update for bulk assets. Remedy Ticket 98353 applies. PTR 9841 applies.

**Asset Disposition Background - WPSAB29** - User reported receiving an error when designating an asset for Turn-In. Process was corrected to handle the Turn-In correctly. Remedy Ticket 98489 applies. PTR 9890 applies.

### **Real Property**

**Real Property Add/Update/Delete - WPACN11** - User reported receiving Error 83, Unexpected Error during a transfer of Real Property. Corrected the process

to send the "To UIC" to the Cost Center Browse program. Remedy Ticket 98186 applies. PTR 9910 applies.

### **Automated Information Technology**

#### **Print AIT Labels/AIT Label Format Add/Update/Delete - WPAIN06/WPUTN11/WPSRN05**

- User reported printing error after installing universal print drivers. User is utilizing IE9 web browser. Process was corrected to use alternate start/stop sequences in generating the Zebra and Intermec printers when the user's browser is IE9 or greater. Implemented a standard style sheet. Remedy Ticket 96942 applies. PTRs 9809, 9735 and 9736 apply.

### **Maintenance and Utilization**

**Equipment Pool Add/Update/Delete - WPMAN06** - Validation Error was occurring when adding new addresses. Corrected the process by removing mandatory validation of State Code when a state code is entered for the condition "State Code Not Applicable". PTR 9780 applies.

**Audit Viewer - WPMAN21** - Redesigned the Audit process so that the initial return of data lists only one entry per transaction identification. Upon clicking the record listed, the next screen will show all records related to that transaction. PTR 9741 applies.

**Journal Viewer - WPMAN22** - Corrected the process to allow the search values for the Transaction Journal to reflect the access assigned to the user and allow the inquiry to show all Agency access activities. Remedy Ticket 97319 applies. PTR 9675 applies.

**AIRRS Utilization Interface Import - WPUTI01** - The inbound file was failing to process. Corrected the process was by redefining the Type Designation data field in the database. PTR 9854 applies.

**Utilization Service Life Import Update - WPUTI04** - Process was corrected to verify that the "New" Service Life is at least as great as the Depreciation Utility Last Re-baseline Quantity. PTR 9747 applies.

**Asset Utilization Add/Update/Delete - WPUTN30** - Made font smaller, made the Fuel Cost field optional, moved the Meter field and reordered fields on the single and multi transaction screens. Remedy Ticket 98121 applies. PTR 9657 applies.

### **Security**

**Security Login Validation - WPSEN01** - User reported receiving an error message when a new user authenticates and logs in. Process was corrected to allow the user to authenticate and log in. Remedy Ticket 97621 applies. PTR 9783 applies.

**User Supply Add/Update/Delete - WPSEN23** - The user reported that they are unable to delete Supply Store Roles for Enterprise users. Process revised to treat Enterprise Users like any other user in Supply Store Application. Remedy Ticket 97160 applies. PTR 9655 applies.

**Inactivated/Cancelled User Login Report - WPSE01** - User reported that the section of the Report showing sixty day deletions is not listing users who have been deleted after sixty days of not activation a new account. Process was corrected to list deleted users on the report. Remedy Ticket 97851 applies. PTR 9826 applies.

**User Add/Update/Delete - WPSN24** - User reported that the Audit Reports do not show the "Last Updated By" information. Process corrected to display the user id in the "Last Updated By" field. Remedy 98173 applies. PTR 9920 applies.

### **System Administration**

**DPAS Version Number File - WPSAN29** - Change Web Version Number on footer to 2.1.00. PTR 8458 applies.

### **Miscellaneous**

**User UICS - WCUS37** - User requested that the User UIC Report under Agency Pre-Defined reports be modified to filter off those users that have the Manager's Box set to Y. Report was corrected as requested. Remedy Ticket 97149 applies. PTR 9785 applies.

### **Points of Contact for this Release**

- a. DPAS Support Site: - <http://dpassupport.golearnportal.org/>
- b. Questions / Problems encountered during processing:
  - DPAS Call Center: [CCO-CCC@dfas.mil](mailto:CCO-CCC@dfas.mil)
  - Phone: 614-693-0888, DSN 869-0888 or 1-866-498-8687
- c. Questions regarding DPAS Training Content:
  - Ms. Tina Frazier, Email address [tina.frazier@dfas.mil](mailto:tina.frazier@dfas.mil)
- d. General questions regarding the release:
  - Mr. Eric Nimtz, Email address [eric.nimtz@navy.mil](mailto:eric.nimtz@navy.mil)
