Release 3.2.10 for the Defense Property Accountability System (DPAS) was released on January 29, 2016. This release corrects program deficiencies identified by the user community and through testing by the development teams. There is no action required by the user to receive the update.

**Warehouse Management Module:**

**This release contains the following Help Tickets:**

Set Kits Outfits (LPWHN41)

- o Corrected a deficiency that caused the Serial Update window to move the window down when expanding the Stock Number details in the grid (SAT 3.2.00 Defect #8).

Material Release Order (LPWHN35)

- o Corrected a deficiency that caused an error when printing the DD Form 1348 from the Material Release Order (MRO) grid (Help Ticket #6768).
- o Corrected a deficiency that prevented the user from completing the Pick for all required items from the MRO request (Help Ticket #6578, #5695).
- o Corrected a deficiency that required the user to repeat the Process flow process twice before being able to generate the required Picks (Help Ticket #6794, #6707).

Unit Issue Reconciliation (LPWHN69)

- o Corrected a deficiency that caused an invalid barcode character to be displayed on the Unit Issue Reconciliation export (Help Ticket #6518).

Stock Number Inventory Inquiry (LPWHQ46)

- o Corrected a deficiency that caused the Issue Qty field to not be populated on the Inquiry (Help Ticket #6536).

Inactive Users Report (LPSER02)

- o Corrected a deficiency that caused the the Inactive Users Report to in-correctly display the users (Help Ticket #6611).

Individual Issue (LPWHN32)

- o Corrected a deficiency that caused the user to be unable to adjust the Members sized items within Individual Issue grid (Help Ticket #6636).

- o Corrected a deficiency that caused a Members Prior Issue Qty to incorrectly display when generating a issue (Help Ticket #6696).
- o Updated the process to improve the processing time from start to beginning of the Individual Issue process flow (Help Ticket #6954).

Conduct Physical Inventory (LPWHN57)

- o Corrected a deficiency that caused the user to be unable to view the Remarks and History Remarks comments upon completion of the Physical Inventory (Help Ticket #6736).

Inventory Master Selector (LCGLM16)

- o Corrected a deficiency that caused the Available Quantity field to display a negative quantity when searching by Serial Number (Help Ticket #6762).

Member Profile AUD (LPWHN25)

- o Corrected a deficiency that caused a validation message error when attempting to upload a Member spreadsheet (Help Ticket #6815).

Receiving (LPWHN19)

- o Corrected a deficiency that caused the Date of Manufacturer field to change in-incorrectly based on the Timezone the user was located in (Help Ticket #6816).
- o Corrected a deficiency that caused the user to be unable to Accept the items within the Receiving process if they closed the Receipt prior to finishing the Accept step (Help Ticket #6838).

**This release contains the following System Change Requests (SCRs):**

N/A
