Release 3.2.22 for the Defense Property Accountability System (DPAS) was released on March 4, 2016. This release corrects program deficiencies identified by the user community and through testing by the development teams. There is no action required by the user to receive the update.

## **Warehouse Management Module:**

### **This release contains the following Help Tickets:**

#### **DLMS File Inbound Processor (LPWHI01)**

- o Corrected a deficiency that was preventing a completed physical inventory from generating a DZH transaction back to the ICP. (Help Ticket #7834).

#### **Individual Issue (LPWHN32)**

- o Corrected a deficiency that was causing the Individual Issue process to error out when attempting to sign the Members Issue.

#### **Stock Nbr Inventory Inquiry (LPWHQ46)**

- o Corrected a deficiency that caused the Issue Qty column to not correctly increase after a Individual Issue was complete resulting in the in-correct Issue Qty being displayed.

#### **Issue/Return Activity Inquiry (LPWHQ32)**

- o Corrected a deficiency that caused a Kits components to be displayed in the inquiry when previously only the Set Kit Outfit header stock number displayed without the components.

### **This release contains the following System Change Requests (SCRs):**
