Release 3.2.30 for the Defense Property Accountability System (DPAS) was released on March 25, 2016. This release corrects program deficiencies identified by the user community and through testing by the development teams. There is no action required by the user to receive the update.

Warehouse Management Module:

This release contains the following Help Tickets:

Quality Control (LPWHN56)

- o Corrected a deficiency that caused the user to receive an error when attempting to submit a Quality Control request for a SKO Catalog record with missing components (Help Ticket #7531).

Individual Returns (LPWHN46)

- o Corrected a deficiency that caused the a Member to become disabled in the Exchange status after completing an Exchange using the Individual Return process (Help Ticket #7915, #8226).

Receiving (LPWHN19)

- o Corrected a deficiency that was improperly allowing the user to complete a partial receipt through the Receiving process (Help Ticket #7949).
- o Corrected a deficiency that caused the user to receive the Verified Transactions Not Found message when attempting to complete a Receipt (Help Ticket #8135).

Stock Item Individual Issue Location (LPWHN30)

- o Corrected a deficiency that cause the user to be unable to create a new Stock Item IssueLocation for a Stock Number after the initial Individual Issue location was deleted (#7981).

Warehouse Replenishment (LPWHN45)

- o Corrected the program so that the Warehouse Replenishment process would not generate a Pick/Plan if the Issue Location was empty (#7933).

ICN Inventory Inquiry (LPWHQ47)

- o Corrected a deficiency that cause the Inventory Control Number record to display a missing build record when attempting to view the components of the kit through the inquiry (#8108).

Unit Issue (LPWHN34)

- o Corrected a deficiency that caused issued items to display against the wrong warehouse which were issued out through the Unit Issue process(#8296).
