Defense Property Accountability System

Release 4.0.11   **22 June, 2016**
Release Notes

Release 4.0.11 for the Defense Property Accountability System (DPAS) was
released on June 22, 2016. This release corrects program deficiencies
identified by the user community and through testing by the development teams.
There is no action required by the user to receive the update.

Property Accountability (PA)

The following System Change Requests (SCRs) were implemented for the Property Accountability module in this release:

N/A

The following PA Help Tickets were closed by this release:

- Asset Transfer (WPHRN52)
  - o Corrected a deficiency that caused Custodian-level users to be
    able to view other Custodian's data when searching within the
    Asset Transfer screen (Help Ticket #9736, 9737, 9751).

- Custodian AUD (WPHRN42)
  - o Corrected a deficiency that caused the user to receive an
    unexpected error when attempting to add a Sub-Custodian (Help
    Ticket #9493, 9507, 9637, 9817, 9859).

- User UIC Agency-Defined Report (WCUSS37)
    - Corrected a deficiency that caused the User UIC Agency-Defined
      Report to display incorrect results (Help Ticket #9367).

- View Forms/Reports (WPUTR01)
  - o Corrected a deficiency that prevented Custodian-level users from
    viewing generated forms and reports (Help Ticket #9237, 9645,
    9712, 9809, 9880, 9910).

Warehouse

The following System Change Requests (SCRs) were implemented for the Warehouse module in this release:

N/A

The following Warehouse Help Tickets were closed by this release:

- Disposition (LPWHN50)
    - o Corrected a deficiency that caused assets to be removed from Inventory through Disposition even though the COR Approval was not complete yet (Help Ticket #8029).

- Unit Returns (LPWHN47)
    - o Corrected a deficiency that caused the Unit Returnable List and Unit Returnable List by RO to display in-correctly based on the Unit Issue for the UIC (Help Ticket #9303).
    - o Corrected a deficiency that caused the Default Return Condition Code and Location to be populated when a Unit Return is generated (Help Ticket #9887).

- Unit Issue (LPWHN34)
    - o Corrected a deficiency that caused the DD Form 1348 to display duplicate data on the 1348 (Help Ticket #9542).

Maintenance and Utilization

The following System Change Requests (SCRs) were implemented for the Maintenance and Utilization module in this release:

N/A

The following Maintenance and Utilization Help Tickets were closed by this release:

- Work Order AU (WPMAN12)
  - Corrected a deficiency that caused slow performance when generating a management message for a Work Order (Help Ticket #8894).
  - Corrected a deficiency that caused Work Order Numbers to sometimes be set to '0' instead of the actual Work Order Numbers (Help Ticket #9514).
