

Defense Property Accountability System

Release 4.1.01

03 August, 2016

Release Notes

Release 4.1.01 for the Defense Property Accountability System (DPAS) was released on August 03, 2016. This release implements a number of System Change Requests and corrects a number of program deficiencies identified by the user community and through testing by the development team. The updates impact all 3 modules (Property Accountability, Maintenance and Utilization, and Warehouse Management).

Warehouse Management (WM) Module

The following Warehouse Help Tickets were closed by this release:

- Quality Control (LPWHN56)
 - Corrected a deficiency that the Preservation Level field does not display upon selecting the "Send to M&U" checkbox (SAT Defect #34).
 - Corrected a deficiency that caused the Work Order Reason to be set to "Other" for all Work Orders coming from the Quality Control process (SAT Defect #34).
- Set Kits Outfit (LPWHN41)
 - Corrected a deficiency that caused an error when trying to add a component to a kit (Help Ticket #10784).
- Inventory Update (LPWHN52)
 - Corrected a deficiency that caused the condition code to automatically change to "A" when transferring to a new location (Help Ticket #10778).
- DW Fm 05 Outstanding Returnable Items List (LPWHR11)
 - Corrected a deficiency that caused the list of Returnable Items on a Member Site to not display on a report (Help Ticket #10818, 10819, 10845, 10842, 10750).
