Defense Property Accountability System

Release 4.1.11   **23 August, 2016**
Release Notes

Release 4.1.11 for the Defense Property Accountability System (DPAS) was released on August 23, 2016. This corrects a program deficiency identified through testing by the development team. The update impacts the Warehouse Management module.

Warehouse Management (WM) Module

The following change to the Warehouse module has been released:

- Quality Control (LPWHN56)
    - Corrected a deficiency where calls to obtain the Quality Control Results and Inspection Results from the navigation properties off of the Quality Control Details within the section that sets an MRO item ready for release after the completion of QC yielded a critical error.
