Release Notes Overview

Release 5.2.10 for the Defense Property Accountability System (DPAS) was released on October 20, 2017.

This release includes corrections to program deficiencies identified by the user community. This update impacts Warehouse Management, Property Accountability, Maintenance and Utilization, and Materiel Management Modules.

Warehouse Management Module

System Change Requests

The following Warehouse Management System Change Requests were closed by this release:

- SCR 1029 – Allow assessments to be conducted on outstanding inventory that is currently issued out to a member

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Unit Issue (LPWHN34)

Help Ticket #18680

- Corrected a deficiency that caused the components to be displayed on the export page.

DD Form 1348 (LPWHR01)

Help Ticket #13639

- Corrected a deficiency that caused the bar codes to be displayed incorrectly on DD Form 1348.

Expiring Items Replacement Report (LPWHR74)

Help Ticket #19138

- Corrected a deficiency that caused the expiring items calculations to be incorrect between the report and the ICN Inventory Inquiry screen.

Unit Returns (LPWHN47)

Help Ticket #18800

- Corrected a deficiency that caused the DW Form 05U to display items that were marked as Not Returning.

Individual Returns (LPWHN46)

Help Ticket #188795, #19125

- Corrected a deficiency that caused the members' items that were marked "Return Later" to not be displayed when initiating a new return.

Materiel Release Order (LPWHN35)

Help Ticket #18896

- Corrected a deficiency that caused the Materiel Release Orders to be unable to be put in to a SH – Shipped status due to collateral.

Help Ticket #17579

- Corrected a deficiency that caused duplicate transactions to be generated upon completion of the Post M&U QC request.

Help Ticket #14889, #18204

- Corrected a deficiency where you could re-pick cancelled MRO's, also ensure the correct 940's and 945's were being sent for denials. Ensured cancelled transactions did not get their status changed to "In Transit" when the rest of the MRO was released.

Receiving (LPWHN19)

Help Ticket #18892

- Corrected a deficiency that caused the Owing DoDAAC on a Warehouse Transfer Due-in to default to the incorrect DoDAAC.

QC/QA Deficiency Report (LPWHR47)

Help Ticket #18587

- Updated the QC/QA Deficiency Report to include the same parameters as the Summary report.

Inventory Update (LPWHN52)

Help Ticket #18590

- Corrected a deficiency that caused the Project Code not to be passed to the kit components during update.

SKO Catalog (LPCTN06)

Release 5.2 SAT Defect #50

- Corrected a deficiency that caused the inventory of an unmanaged kit to be changed to G when a user modified the SKO Catalog record.

Quality Control (LPWHN56)

Help Ticket #18665

- Updated the QC/QA/Inspection Add screen to include the QA/QC Inspector field when an Inspection Type of Quality Assurance was selected.

Help Ticket #18581

- Updated the QC/QA/Inspection screen to include a Delete button after a Corrective Action is added but not yet saved.

Set Kit Outfit (LPWHN41)

Help Ticket #17478

- Corrected a deficiency that caused the kit components to not be displayed when viewing the kit through inquiry.

Temp Loan Return (LPWHN46.3)

Help Ticket #18793

- Corrected a deficiency that caused the members' Temp Loans to not be displayed when initiating a Return.

Inspection Due Report

Help Ticket #19007

- Updated the Warehouse Technician Role to include the Inspection Due Report through the Report Manager.

Maintenance and Utilization Module

Help Tickets

The following Maintenance and Utilization Module Help Tickets were closed by this release:

Maintenance Asset Utilization (WPMAN24)

Help Ticket #14576

- Corrected the deficiency where Maint Asset Utilization was throwing an 83 error. Schedule PM AUD.

Dispatch (WPMAN30)

Help Ticket #18828, #18912, #18887, #18950, #18984

- Corrected a deficiency causing unexpected errors on add or update of dispatch records.

Work Order AU (WPMAN12)

Help Ticket #18773, #18725, #18759, #18772, #18904, #19073

- Corrected the deficiency where the Print button did not appear on the Work Order Search Results screen.

Help Ticket #18798, #18782, #19063

- Corrected a deficiency that caused the attachments to appear deleted when a work order was closed. Now attachments are available after a work order is closed.

Asset Utilization (WPMAN24)

Help Ticket #18271

- Corrected a deficiency where Work Order was allowing the user to insert an asset utilization in the future based on the service end date of the sub work order.

File Upload (WPMAU02)

Help Ticket #18474

- Corrected a deficiency where the GSA File Upload was throwing an 83 error when uploading due to poor performance.

Schedule Preventative Maintenance AUD (WPMAn11)

Help Ticket #18414

- Corrected a deficiency that allowed user to select a Saturday/Sunday date for preventive maintenance without selecting the 'Schedule if Saturday/Sunday' checkbox.

Property Accountability Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Authorization AUD (WPAUN05)

Help Ticket #19102

- Updated the Authorization AUD process to include the new value '013 – Pending Funds' as an allowable selection.

CIP Funding AUD (WPAUN05)

Help Ticket #18771

- Corrected the deficiency where CIP Funding AUD was throwing an 83 error.

Asset Inquiry (WPHRQ14)

Help Ticket #18825, #18861, #18898, #18981, #18878

- Corrected a deficiency during Asset Inquiry that caused records for deleted assets to display "Yes" for attachments when attachments were not available in the attachments tab. Attachments remain available in the inquiry, attachments tab, and can be downloaded after an asset is disposed.

Asset Update (WPHRN51)

Help Ticket #18792, #19228

- Corrected a deficiency that caused the user to be unable to update Attributes on Asset Update.

Stock Nbr AUD (WPCTN01)

Help Ticket #18867, #18868, #18975, #18985, #19074

- Corrected a deficiency when ACC of P was selected, Attribute Template field was auto-populated, but was not populating the attribute template.

PDCD Software Download (WPSRN29)

Help Ticket #18863

- Corrected a deficiency that caused the download to error out.

Manage Inventories (WPHRN02)

Help Ticket #18856, #18832, #18891, #18900, #18914, #19004, #19026

- Corrected a deficiency where the user was unable to complete the reconciliation of inventory with the handheld.

UII Assignment (WPSAB30)

Help Ticket #18952, #18960, #18971, #19015

- Corrected a deficiency that caused the UII Registry Validation job to error out when attempting to run.

Materiel Management Module

Help Tickets

The following Materiel Management Help Tickets were closed by this release:

Inventory Control Point AUD (LPMCN01)

Help Ticket #18580

- Corrected a deficiency that caused the user to be able to enter an invalid DoDAAC by only entering 5 characters when DoDAACs should be 6 characters in length.
