17 November 2017

Release Notes Overview

Release 5.2.20 for the Defense Property Accountability System (DPAS) was released on November 17, 2017.

This release includes corrections to program deficiencies identified by the user community. This update impacts Warehouse Management, Property Accountability, and Maintenance and Utilization Modules.

Warehouse Management Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Individual Item Return (LPWHN79)

Help Ticket # 19029
- Corrected a deficiency that caused the Individual Item Return process to error out when conducting a return.

DW Form 05 Outstanding Returnable Items (LPWHR11)

Help Ticket #19484
- Corrected a deficiency that caused non-returnable items to be displayed on a member's Outstanding Returnable Items form.

SKO Catalog (LPCTN06)

Help Ticket #19636, #19418, #19594
- Corrected a deficiency that caused the user to be unable to modify a SKO catalog record by adding an optional component to the record.

Receiving (LPWHN19)

Help Ticket #19426, #19666, #19367, #19667
- Corrected a deficiency that caused the inspection dates to not correctly display in Inventory Update after the receipt was completed.

Help Ticket #18958
Corrected a deficiency that cause the optional components of a kit to be autochecked and filled without allowing the user a way to remove the optional component.

QC/Inspection Result Inquiry (LPWHQ84)

Help Ticket N/A
- Updated the available column options to include the Last / Next Dates for records that are displayed.

Manage Physical Inventory (LPWHN53)

Help Ticket #18658
- Corrected a deficiency that caused the users to be unable to conduct a Location base Physical Inventory.

QA Deficiencies (LPWHN79)

Help Ticket #19013
- Updated the QA Deficiencies Report to include the "All" option in the Sort By field.

Quality Control (LPWHN79)

Help Ticket #18908
- Corrected a deficiency that caused the QA/QC Totals to be incorrect.

Help Ticket #19085
- Corrected a deficiency that caused the Last Updated field to be incorrectly updated upon completion of the request.

Unit Returns (LPWHN47)

Help Ticket #19423
- Corrected a deficiency that caused severe latency during the Unit Return process when navigating between the tabs.

Inventory Activity Inquiry (LPWHQ33)

Help Ticket #19873
- Corrected a deficiency that caused the inquiry to display incorrectly when a Container Warehouse Transfer was completed.

Materiel Release Order (LPWHN35)

Help Ticket #19483
- Corrected a deficiency in the MRO Process Flow tab preventing successful selection of assets prior to session timeout.

Help Ticket #19560
- Corrected a deficiency that caused the users to be unable to edit the MRO header information without error.

Maintenance and Utilization Module

System Change Request

The following Maintenance & Utilization Module System Change Requests were closed by this release:

SCR #1039
- The FAST Reportable fields within M&U were updated to match the Fiscal Year 17 version of FAST.

Help Tickets

The following Maintenance & Utilization Module Help Tickets were closed by this release:

Maint Asset Master (WPMAN10)

Help Ticket # 17868
- Corrected a deficiency where vehicle characteristics were deleted with the August 2017 update.

Asset Utilization Record/Update/Delete (WPUTN30)

Help Ticket # 19317, # 19329
- Corrected a deficiency where user was getting an 83 error during Maint Asset Util to Record Utilization. Now utilization records process correctly, or Error 13-Mandatory Entry is displayed if either Fuel Qty, Fuel Unit Cost, and/or Fuel State Cd are not populated.

Property Accountability Module

Help Tickets
The following Property Accountability Help Tickets were closed by this release:

Asset Transfer (WPHRN52)

Help Ticket #19050
- Corrected the deficiency that caused the user to be unable to sort by custodian during the transfer process.
