Release Notes Overview

Release 6.0.01 for the Defense Property Accountability System (DPAS) was released on January 26, 2018.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts the Maintenance & Utilization, Warehouse, and Property Accountability Modules.

Maintenance & Utilization (M&U) Module

Help Tickets

The following Maintenance & Utilization Help Tickets were closed by this release:

Maintenance Asset Master Update (WPMAN10)

Help Ticket #21028, #21068
- Corrected a deficiency where non-FAST Reportable Maintenance Assets were returning FAST Reportable errors.

Warehouse Management (WM) Module

Help Tickets
The following Warehouse Help Tickets were closed by this release:

Quality Control (LPWHN56)

Help Ticket #21056
- Corrected a deficiency that caused the Inspector field to be empty when the user attempted to assign the Inspector to the QC.

Help Ticket #21017
- Corrected a deficiency that caused the Stock Number field to return an invalid validation message when the user attempted to scan a label to generate a new QC request.

Receiving (LPWHN19)

Help Ticket #21011, #21053
- Corrected a deficiency where receiving could not close out documents when warehouse transferring from a manually managed DoDAAC and receiving under a DPAS managed DoDAAC.

Help Ticket #21019
- Corrected a deficiency that caused users to receive an invalid validation message when printing the 1348 in Receiving.

Property Accountability (PA) Module

Help Tickets
The following Property Accountability Help Tickets were closed by this release:

Asset Utilization (WPMAN24)

Help Ticket #21062
- Corrected a deficiency during Asset Utilization AUD that was caused by a primary key constraint violation.

Pending Transactions UD (WPHRN53)

Help Ticket #21117, #21126
- Corrected a deficiency that returned an error when selecting the Apply Checkbox on the Pending Transaction Search screen.
