Release Notes Overview

Release 6.0.10 for the Defense Property Accountability System (DPAS) was released on February 9, 2018.

This release includes corrected program deficiencies identified by the user community. The update impacts the Maintenance & Utilization, Warehouse, and Property Accountability Modules.

Maintenance & Utilization (M&U) Module

Help Tickets

The following Maintenance & Utilization Help Tickets were closed by this release:

Operator/Technician AUD (WPMAN04)

Help Ticket #20505

- Corrected a deficiency where the Operator/Technician AUD excluded previous removed User Ids within the User Id field drop-down when trying to readd Op/Tech records.

Asset Utilization Inquiry (WPUTQ09)

Help Ticket #21177

- Corrected a deficiency where the Asset Utilization Inquiry returned 'Process Failed' error after submitting the inquiry for processing.

Warehouse Management (WM) Module

Help Tickets

The following Warehouse Help Tickets were closed by this release:

Stock Number AUD (LPCTN01)

Help Ticket #21266, #21297, #21353
- Corrected a deficiency that returned an 83-error when updating an item description of stock number records.

Receiving (LPWHN19)

Help Ticket #19223, #19593
- Corrected a deficiency that caused an error when receiving transferred items.

Help Ticket #20863
- Corrected a deficiency that caused a suffix code error during the receiving process.

Individual Issue (LPWHN32.1)

Help Ticket #21055
- Corrected a deficiency that caused incorrect validation on the master issue list.

Inventory Update Manager (LPWHN52)

Help Ticket #20985
- Corrected a deficiency that caused an altered serial number to not display universally.

Help Ticket #21153, #21401
- Corrected a deficiency that prohibited change to serial numbers when new SN contained lowercase letters. Now an alphanumeric SN may be used, and lowercase letters are changed to uppercase letters.

Issue – Warehouse (LPWHN73)

Help Ticket #21335
- Corrected a deficiency that

Individual Item Return (LPWHN79)

Help Ticket #21138
- Corrected deficiencies that caused non-loans to display loan dates, as well as errors during item return.

Stock Nbr Inventory Inquiry (LPWHQ46)

Help Ticket #21318
- Corrected a deficiency that resulted in a Javascript error when processing the inquiry.

CBRN Inventory Report (LPWHR81)

Help Ticket #20984
- Corrected a deficiency that caused the Issued UIC to not populate in the report. Also, the warehouse column was added to the summary tab of the CBRN Gear Report, and the word 'CETAV' was removed from the report header.

My Queries - User Missing Saved Query after Release

Help Ticket #21029
- Corrected a deficiency that resulted in an inaccessible query.

Disposition Services Report (LPWHR62)

SAT Defect Release 6.0
- Corrected a deficiency that did not allow the user to select a specific day to run the report on but required users to search only by month. Users now can search on a specific single date.

Fiscal Year Report (LPWHR15)

SAT Defect Release 6.0
- Updated the Fiscal Year report to allow collaposable grid options for each commodity type.

Material Forecast Report (LPWHR17)

SAT Defect Release 6.0
- Corrected a deficiency that did not allow the user to schedule a report for historicial data.

Individual Return (LPWHN46)

SAT Defect Release 6.0
- Corrected deficiencies that caused the in-correct Condition Code to display on the Return grid when an item was marked "Return Later".

Project Mgmt (LPWHN14)

SAT Defect Release 6.0
- Corrected deficiencies that caused an in-correct validation to be present to the user when attempting to add an address outside the United States.

Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Print Forms Request (WPHRR29)

Help Ticket #10461, #18992
- Replaced the old DD1149 Jul 2006 Version with the newer Jan 2016 version

Real Property Capital Asset Inquiry (WPACQ14)

Help Ticket #21024
- Corrected a deficiency that resulted in 83-error when initiating the Real Property Capital Asset Inquiry when selecting a Depreciation Status field.
