Release Notes Overview

Release 6.1.30 for the Defense Property Accountability System (DPAS) was released on July 13, 2018.

This release includes corrected program deficiencies identified by the user community. The update impacts the Maintenance & Utilization, Property Accountability, and Warehouse Management Modules.

Maintenance & Utilization (M&U) Module

Help Tickets

The following Maintenance & Utilization Help Tickets were closed by this release:

Maintenance Asset Master Update (WPMAN10)

Help Ticket #24111

- Corrected a deficiency where changing the WO Util Required drop down resulted in an unexpected error.

Maintenance Asset Inquiry (WPMAQ10)

Help Ticket #24128

- Corrected a deficiency that was preventing Lifetime Cost from calculating.

Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Asset Disposition (WPHRN29)

Help Ticket #24258

- Corrected a deficiency where the grid was not populated during the disposition process.

Asset Inquiry (WPHRQ14)

Help Ticket #24154

- Corrected a deficiency that caused the labels for CLIN and ACRN to be swapped.

Pending Transactions UD (WPHRN53)

Help Ticket #24324

- Corrected a deficiency that resulted in a submission error despite all fields being completed.

Asset Update (WPHRN51)

Help Ticket #24234

- Corrected a deficiency that caused an error when using Agency Defined/Agency Field Value search criteria.

Help Ticket #23251

- Corrected a deficiency where deletion of an asset was prevented due to an issue with the loan code dropdown.

Increase Decrease Actions Report (WPHRR06)

Help Ticket #23884

- Corrected a deficiency where performing a relocation of an asset using a handheld was showing on the Increase Decrease Actions Report.

Reconcile Inventory Data (WPHRN71)

Help Ticket #23823

- Corrected a deficiency where creating a Due-In record was timing out and resulting in an unexpected error.

Warehouse Management (WM) Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Quality Control Mgmt (LPWHN56)

Help Ticket #24360

- Corrected a deficiency where a 527R D4 was not generating when passing inspection.

Help Ticket #23887, #24036, #24346

- Corrected a deficiency where condition code changes were now allowing inspections to be completed.

Inventory Update User (LPWHN51)

Help Ticket #24257

- Corrected a deficiency where a bad data scenario displayed an error when trying to conduct a re-identification of a MFR Contract.

Warehouse Receiving (LPWHN19)

Help Ticket #24312

- Corrected a deficiency where an error was triggered when trying to receive a serialized kit.

Help Ticket #23666

- Corrected a deficiency where verifying items and then cancelling a document still added the verified items into inventory.

Inventory Update Manager (LPWHN52)

Help Ticket #24273, #24256

- Corrected a deficiency that prevented users from updating inspection dates for an item in a container.

Help Ticket #N/A

- Corrected a deficiency that prevented users from updating the location for a kit with an expired component.

User AUD Program (LPSEN05)

Help Ticket #24266

- Corrected a deficiency where the Warehouse Technician role had more than read-only access to the Shelf Life Extension AUD.

Inspection Due Report (N/A)

Help Ticket #24231

- Corrected a deficiency where the Inspection Due Report did not contain the Container column.

Real-Time Reports (LPUTR02)

Help Ticket #23907

- Corrected a deficiency where invalid sort/filter selections were allowed on columns they did not apply to, causing issues when running reports.

Asset Receiving (WPHRN11)

Help Ticket #23842

- Corrected a deficiency where receiving a warehouse transfer of serialized kits that had been in the warehouse before would sometimes not update the quantity correctly, resulting in an 83 error.
