

## Effective Date

21 September 2018

## Release Notes Overview

Release 6.2.20 for the Defense Property Accountability System (DPAS) was released on September 21, 2018.

This release includes corrected program deficiencies identified by the user community. The update impacts the Maintenance and Utilization, Property Accountability, and Warehouse Management Modules.

### Maintenance and Utilization (M&U) Module

#### Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

##### *Work Order (WPMAN12)*

###### Help Ticket #25252

- Corrected a deficiency where the Labor tab grid on the Sub Work Order tab was showing duplicated columns with duplicate data.

###### Help Ticket #25253

- Corrected a deficiency where October dates were incorrectly formatted.

##### *DLA File Upload (WPMAU02)*

###### Help Ticket #25291

- Corrected a deficiency where mileage was erroneously updated during DLA Fuel file upload.

##### *Asset Preventative Maintenance Schedule Inquiry (WPMAQ08)*

###### Help Ticket #25356

- Corrected a deficiency where Asset Preventative Maintenance Schedule Inquiry was timing out if total-util-qty was checked.

### Property Accountability (PA) Module

#### Help Tickets

The following Property Accountability Help Tickets were closed by this release:

##### *Real Property AUD (WPACN11)*

###### Help Ticket #21340

- Corrected a deficiency where the RPUID was returning incorrect records in specific circumstances.

### *Accounting Edits Common Function (WCGLX12)*

Help Ticket #25400

- Corrected a deficiency where Job Order Numbers were not accepted, even when they met the character requirements.

### *Asset Inquiry (QPHRQ14)*

Help Ticket #25360, #25413

- Corrected a deficiency that was causing the process queue to time out.

### *E-BIZ Interface (WPACI04)*

Help Ticket #25491

- Corrected a deficiency where the EBIZ sequence number was not updating properly to the next sequence number.

## **Warehouse Management (WM) Module**

### **System Change Request (SCR)**

The following Warehouse Management SCRs were completed in part or closed by this release:

SCR #1086 – Managing Service in Months

- Modified Managing Service Life from days to months.

SCR #1256 – Improve Assessment Capability

- Added Inspection Dashboard item and reworked Event Based Triggers functionality to update the Next Inspection Date of materiel upon a receipt or return. Additionally, added functionality to default the selection of inventory repair parts and building a Bill of Materiel (BOM).

SCR #1306 – Editable Service Life Expiration

- Provided the capability to edit the Service Life Expiration Date for Service Life Managed materiel.

### **Help Tickets**

The following Warehouse Management Help Tickets were closed by this release:

### *Materiel Release Order (LPWHN35)*

Help Ticket #23596

- Corrected a deficiency where DPAS was not always sending out the correct Document Identifier Code (DIC) when a MRO was rejected.

### *Warehouse Receiving (LPWHN19)*

Help Ticket #24022

- Corrected a deficiency where DPAS was doubling the acceptance of some Due-Ins in specific circumstances.

---

### *Matériel Forecast Report (LPWHR17)*

Help Ticket #24866

- Corrected a deficiency where some records were excluded from the counts on the Matériel Forecast report.

### *Inspection AUD (LPWHN88)*

Help Ticket #25219

- Corrected the Returnable checkbox to default to unchecked.

Help Ticket #25220

- Corrected the Inspection AUD to include the Requested Qty column and updated the Total Repairable Qty default.

### *Inventory Update Manager (LPWHN52)*

Help Ticket #25459

- Corrected a deficiency where the system was forcing users to change Cond Cds in order to move gear around the warehouse.

### *Roles Request Update – Updates to S.A.S and A.S.S Roles (N/A)*

Help Ticket #25470

- Updated the S.A.S. and A.S.S. roles to have full access to the Individual Item Return menu and updated the S.A.S. role to have full access to Warehouse Transfer.
