Release 2.7.01 for the Defense Property Accountability System (DPAS) Property Accountability (PA), Maintenance and Utilization (M&U) and Warehouse Management (WM) was released on March 18, 2015. This release corrects program deficiencies identified by the user community and through testing by the development teams. There is no action required by the user to receive the update.

Maintenance and Utilization

M&U Asset Browse

- WCMAM04 – M&U Asset Browse
    o Corrected a deficiency on the M&U Asset Browse which caused the browse to be blank (Remedy #115437, #115438).

Work Plan ID Browse

- WPMAM02 – Work Plan ID Browse
    o Corrected a deficiency on the Work Plan ID Browse which caused the browse to be blank (Remedy #115461).

Property Accountability

Asset Transfer

- WPHRN52 – Asset Transfer
    o Corrected a deficiency which caused the user's starting destination information and the Site ID To field to not display (Remedy #115432).
    o Corrected a deficiency which stopped population of the UIC and Custodian fields preventing approval of a pending transfer (Remedy #115450).

MCN Assignment

- WPCTN08 – MCN Assignment
    o Corrected a deficiency which prevented the user from adding a new MCN. (Remedy #115458).

Warehouse Management

Individual Return

- o LPWHN46 – Individual Return – Corrected a deficiency which caused items that were returned for an individual member to still appear on the DW Form 05 – Outstanding Returnable Items list. (Remedy #115436).

Inventory Update

- o LPWHN51 – Inventory Update – Corrected a deficiency which prevented a user from being able to update an asset's location using the Inventory Update process when the item was returned by a non-issued member (Remedy #114613).
